We support your power to choose
As part of our mutual commitment to support your energy choice, San Diego Community Power (SDCP) and San Diego Gas & Electric® (SDG&E®) have partnered to provide you with a comparison of typical small commercial electric rates, average monthly charges, and generation portfolio contents.

Please visit sdcg.com/faq for the complete SDG&E®/SDCP rate comparison or call 800-417-7142. For information on SDCP generation mix, please visit SDCommunityPower.org or call 844-382-0160.

Recommendation: Adopt Resolution No. 2021-3, a Resolution of the SDCP Board of Directors Appointing the Chief Financial Officer as SDCP’s Treasurer.

Presenter: Ryan Baron, General Counsel
Item 6
Update on Regulatory and Legislative Affairs

Recommendation: Receive and file the update on regulatory and legislative affairs.

- SB 612
- Bipartisan Infrastructure Package
- Net Energy Metering 3.0
- ERRA Update

Presenter:
Laura Fernandez,
Director of Regulatory and Legislative Affairs
Item 6

SB 612

- Did not receive hearing in the Assembly Committee on Utilities and Energy on June 30
- Officially a 2-year bill
Item 6

Bipartisan Infrastructure Package

- SDCP sent letter to congressional delegation regarding clean energy investments
- SDCP requesting funding opportunities for CCAs
- SDCP met with staff for Congressman Scott Peters

Item 6

Net Energy Metering 3.0

- Staff coordinating with other CCA programs that are parties in the proceeding
- Next Steps:
  - August 31 – Opening Briefs
  - August 31 – Completion of Settlement Discussions
  - December – Proposed Decision Expected
Item 6

ERRA

• Proposed rate reductions are overstated, because SDG&E has not yet incorporated its updated 2022 sales forecast into the calculation of bundled rates.

• Administrative Law Judge directed SDG&E to prepare a “modified 2021” sales forecast, adjusted solely for SDG&E’s current best estimate of likely departing load in 2022.

• Result: forecast sales numbers used to establish 2022 rates will account for SDCP departing load.
Item 7
EEI Agreement Confirmation Between SDG&E and SDCP for Purchase of Long-term Renewable Energy

Recommendation: Approve the EEI Agreement Confirmation Between SDG&E and SDCP and authorize the Interim CEO to execute the agreement in substantially similar form as reviewed
Item 7

Background: Long-term RPS Requirements
- California Renewables Portfolio Standard ("RPS") requires purchase of renewable energy under long-term contracts ("PPAs") of 10 years or longer
- Starting in 2021, Senate Bill 350 ("SB 350") requires at least 65% of RPS obligation must be secured via long-term RPS contracts
- Long-term RPS requirement is measured across multi-year compliance periods (e.g. CP4 is 2021-2024)

Background: Allocation of Legacy Resources from SDG&E to SDCP
- Resources that SDG&E contracted on behalf of SDCP customers prior to their transition to SDCP are subject to Power Charge Indifference Adjustment ("PCIA")
- SDCP supported SB 612 in 2021, which would have equitably allocated legacy resources in IOU portfolios to CCAs but has now been extended to a two-year bill
- CPUC is currently implementing a similar allocation, the Voluntary Allocation and Market Offer ("VAMO") mechanism, which will be similar to SB 612 but will only apply to renewable energy and is expected to start in 2023
Item 7

Background: SDCP 2020 LT RPS RFO Timeline

• Pursuant to 2020 LT RPS RFO launched in June 2020, **SDCP has executed three long-term PPAs** with in Vikings Energy Farm, LLC, IP Oberon, LLC, and JVR Energy Park, LLC

• In addition, SDCP has negotiated with SDG&E for purchase of long-term renewable energy per the following timeline:
  • **May 2020**: SDG&E Launched 2020 RFP for Sale of Renewable Energy Products
  • **June 2020**: SDCP submitted bids for purchase of long-term Renewable Energy
  • **January 2021**: SDCP Board authorized Interim CEO to enter into an EEI Master Agreement with SDG&E (Resolution 2021.02)
  • **February – August 2021**: SDCP and SDG&E negotiate terms of a long-term renewable energy purchase transaction
  • **August 26, 2021**: SDCP Board Meeting
Item 7

Transaction Objectives

• Secure sufficient long-term RPS supply in 2021-2024 to ensure SDCP compliance with SB 350 Compliance Period 4 requirements;

• Reduce quantity of renewable energy supply in SDG&E’s PCIA-eligible portfolio

• Incorporate forthcoming CPUC allocation of resources
  • Begin allocation deliveries prior to expected 2023 start of VAMO

• Do not restrict SDCP’s future procurement of additional new-build, long-term renewable resources
  • Two- to three-year development timeline results in deliveries from new-build resources in 2024-2025 and beyond
Item 7

Contract Overview: EEI Agreement Confirmation Between SDG&E and SDCP for Purchase of Long-term Renewable Energy

• Project: 24 Wind and Solar renewable energy facilities in SDG&E’s energy supply portfolio
• Location:
  • 21 of 24 projects are in CA
  • 17 in San Diego and Imperial Counties
• Delivery Start Date: As soon as November 1, 2021
  • Subject to CPUC approval
• Contract term: ~12 years
  • through 2033 (Compliance Period 7)
• Contract Quantity:
  • 2021-2022: Fixed, firm quantities
  • 2023+: Determined per VAMO allocation process
• Renewable Energy price: Indexed to market prices
• No credit or collateral obligations for SDCP
Item 7

Recommendation: Approve the EEI Agreement Confirmation Between SDG&E and SDCP and authorize the Interim CEO to execute the agreement in substantially similar form as reviewed and approved to form by General Counsel.
