

**Community Advisory Committee
San Diego Community Power (Community Power)**

**Thursday, January 16, 2024
5:30 p.m.**

**City of Chula Vista
Council Chambers, 276 Fourth Avenue, Chula Vista, CA**

Alternate Location:
7354 Eads Avenue, San Diego, CA 92037

The meeting will be held in person at the above date, time and location(s). Community Advisory Committee (CAC) Members and members of the public may attend in person. Under certain circumstances, CAC Members may also attend and participate in the meeting virtually pursuant to the Brown Act (Gov. Code § 54953). As a convenience to the public, Community Power provides a call-in option and internet-based option for members of the public to virtually observe and provide public comments at its meetings. Additional details on in-person and virtual public participation are below. Please note that, in the event of a technical issue causing a disruption in the call-in option or internet-based option, the meeting will continue unless otherwise required by law, such as when a CAC Member is attending the meeting virtually pursuant to certain provisions of the Brown Act.

Note: Any member of the public may provide comments to the CAC on any agenda item. When providing comments, it is requested that you provide your name and city of residence for the record. Members of the public are requested to address their comments to the CAC as a whole through the Chair. Comments may be provided in one of the following manners:

1. Providing oral comments during meeting. Anyone attending in person desiring to address the CAC is asked to fill out a speaker's slip and present it to the Clerk of the Board. To provide remote comments during the meeting, join the Zoom meeting by computer, mobile phone, or dial-in number. On Zoom video conference by computer or mobile phone, use the "Raise Hand" feature. This will notify the moderator that you wish to speak during a specific item on the agenda or during non-agenda Public Comment. Members of the public will not be shown on video but will be able to speak when called upon. If joining the meeting using the Zoom dial-in number, you can raise your hand by pressing *9. Comments will be limited to three (3) minutes.
2. Written Comments. Written public comments must be submitted prior to the start of the meeting to clerkoftheboard@sdcommunitypower.org. Please indicate a specific agenda item when submitting your comment. All written comments received prior to the meeting will be provided to the CAC members. In the discretion of the Chair, the first

ten (10) submitted comments shall be stated into the record of the meeting. Comments read at the meeting will be limited to the first 400 words. Comments received after the start of the meeting will be collected, sent to the CAC members in writing, and be part of the public record.

If you have anything that you wish to be distributed to the CAC, please send it to clerkoftheboard@sdcommunitypower.org, who will distribute the information to CAC Members.

The public may participate using the following remote options:

ITEMS TO BE WITHDRAWN OR REORDERED ON THE AGENDA

PUBLIC COMMENT FOR ITEMS NOT ON THE AGENDA

Opportunity for members of the public to address the CAC on any items not on the agenda but within the jurisdiction of the CAC. Members of the public may provide a comment in either manner described above.

CONSENT CALENDAR

All matters are approved by one motion without discussion unless a CAC member requests a specific item to be removed from the Consent Calendar for discussion. A member of the public may comment on any item on the Consent Calendar in either manner described above.

1. **[Approval of December 5, 2024, CAC Regular Meeting Minutes](#)**
2. **[Receive and File Update on Marketing, Public Relations, and Local Government Affairs](#)**

3. **Receive and File Update on Customer Operations**
4. **Receive and File Update on Programs**

REGULAR AGENDA

The following items call for discussion or action by the CAC.

5. **Update on Regulatory and Legislative Affairs**

Recommendation: Receive and file the Update on Regulatory and Legislative Affairs.

6. **Update on 2025 Projected Rate Changes**

Recommendation: Receive and file the Update on 2025 Projected Rate Changes.

7. **Update on Sponsorships, Partnerships and Memberships**

Recommendation: Receive and file the Update on Sponsorships, Partnerships and Memberships.

8. **Update on Solar Battery Savings**

Recommendation: Receive and file the Update on Solar Battery Savings.

9. **2025 Community Advisory Committee Work Plan Ad-Hoc End of Committee Report**

Recommendation: Receive and file 2025 Community Advisory Committee Work Plan End of Ad-Hoc Committee Report.

10. **Approval of the 2025 Community Advisory Committee Work Plan**

Recommendation: Recommend Board approval of the 2025 Community Advisory Committee Work Plan.

DISCUSSION OF POTENTIAL AGENDA ITEMS FOR BOARD OF DIRECTORS MEETINGS

There are two ways that the CAC may bring items to the attention of the Board at a Board meeting:

1. *Standing CAC Report. The CAC report may be a standing item on the Board agenda, in which the CAC Chair, CEO, or designated staff reports on updates related to a recent CAC*

meeting. Consistent with the Brown Act, items raised during the CAC report may not result in extended discussion or action by the Board unless agendized for a future meeting.

2. Suggesting Board Agenda Items. The CAC may suggest agenda items for a Board of Directors meeting agenda by communicating with the CAC Chair and the designated SDCP staff, before and/or after a regular CAC meeting. If suggested during a regular meeting, there shall be no discussion or action by the CAC unless the item has been included on the CAC agenda. To be added to a Board agenda, items must have the approval of the SDCP Chief Executive Officer and the Chair of the Board of Directors. If approval is provided, staff must be given at least 5 business days before the date of the Board meeting to work with the CAC to draft any memos and materials necessary.

COMMITTEE MEMBER ANNOUNCEMENTS

Committee Members may briefly provide information to other members and the public. There is to be no discussion or action taken on comments made by Committee Members unless authorized by law.

ADJOURNMENT

The Community Advisory Committee will adjourn to their next regular meeting scheduled on Thursday, February 13, 2025.

Compliance with the Americans with Disabilities Act

Community Power Committee meetings comply with the protections and prohibitions of the Americans with Disabilities Act. Individuals with a disability who require a modification or accommodation, including auxiliary aids or services, in order to participate in the public meeting may contact (888) 382-0169 or clerkoftheboard@sdcommunitypower.org. Requests for disability-related modifications or accommodations require different lead times and should be provided at least 72-hours in advance of the public meeting.

Availability of Committee Documents

Copies of the agenda and agenda packet are available at <https://sdcommunitypower.org/resources/meeting-notes/>. Late-arriving documents related to a CAC meeting item which are distributed to a majority of the Members prior to or during the CAC meeting are available for public review as required by law. Public records, including agenda-related documents, can be requested electronically at clerkoftheboard@sdcommunitypower.org or by mail to SDCP, PO BOX 12716, San Diego, CA 92112. The documents may also be posted on the Community Power's website. Such public records are also available for inspection, by appointment, at San Diego Community Power by contacting clerkoftheboard@sdcommunitypower.org to arrange an appointment.

MEETING MINUTES
December 5, 2024

WELCOME

Chair Vasilakis called the regular meeting to order at 5:31 p.m.

ROLL CALL

PRESENT: Chair Vasilakis, City of San Diego; Vice Chair Emerson, City of National City; Secretary Castañeda, City of National City; Committee Member Sclafani, City of Chula Vista; Committee Member Jahns, City of Encinitas; Committee Member Harris, City of La Mesa; Committee Member Hammond, City of Encinitas (via Zoom Teleconference); Committee Member Hoyt, City of Imperial Beach; and Committee Member Andersen, County of San Diego

ABSENT: Committee Member Cazares, City of La Mesa; Committee Member Sandoval, City of Imperial Beach; and Committee Member Montero-Adams, City of San Diego

VACANT: Seat 4, City of Chula Vista, and Seat 12, County of San Diego

Staff Present: ~~OBJ~~ Chief Executive Officer Burns, Chief Operating Officer Clark; Chief Commercial Officer Vosburg; General Counsel Tyagi; Regulatory Manager Gunther; Rates and Strategy Manager Lu; Senior Manager Community Engagement Crespo; Clerk of the Board Clerk Hernandez; and Assistant Clerk of the Board Vences

PLEDGE OF ALLEGIANCE

Chair Vasilakis led the Pledge of Allegiance.

LAND ACKNOWLEDGMENT

Chair Vasilakis acknowledged the Kumeyaay Nation and all the original stewards of the land.

SPECIAL PRESENTATIONS AND INTRODUCTIONS

Chair Vasilakis welcomed new staff members Amy Whitehouse, Senior Program Manager; Desiree Daugherty, Marketing Manager; and Marissa Van Sant, Senior Program Manager (via Zoom) to introduce themselves.

ITEMS TO BE WITHDRAWN OR REORDERED ON THE AGENDA

Chair Vasilakis announced that Consent Item No. 6 would be pulled for separate discussion and vote.

PUBLIC COMMENT FOR ITEMS NOT ON THE AGENDA

There were no public comments.

CONSENT CALENDAR

- 1. Approval of October 10, 2024, CAC Regular Meeting Minutes**
- 2. Receive and File Update on Marketing, Public Relations, and Local Government Affairs**
- 3. Receive and File Update on Customer Operations**
- 4. Receive and File Update on Regulatory and Legislative Affairs**
- 5. Receive and File Update on Programs**

There were no public comments on the Consent Item Nos. 1-5.

Motioned by Committee Member Castañeda and seconded by Committee Member Andersen to approve Consent Item Nos. 1-5. The motion carried unanimously by Roll Call Vote as follows:

AYES: Chair Vasilakis, Vice Chair Emerson, Secretary Castañeda, Committee Members Sclafani, Jahns, Hammond, Hoyt, Andersen, and Harris
NOES: None
ABSTAINED: None
ABSENT: Committee Members Cazares, Sandoval, and Montero-Adams

6. Approval of the 2025 Community Advisory Committee Regular Meeting Calendar

There were no public comments on the Consent Item No. 6.

Motioned by Committee Member Castañeda and seconded by Committee Member Harris to approve Consent Item No. 6. The motion carried by Roll Call Vote as follows:

AYES: Chair Vasilakis, Vice Chair Emerson, Secretary Castañeda, Committee Members Sclafani, Jahns, Hammond, Hoyt, Andersen, and Harris
NOES: None
ABSTAINED: None
ABSENT: Committee Members Cazares, Sandoval, and Montero-Adams

REGULAR AGENDA

7. San Diego Community Power Strategic Plan Process Overview

Ms. Burns provided an overview on San Diego Community Power Strategic Plan Process.

There were no public comments on Item No. 7.

Following Committee questions, discussion and comments, Item No.7 was received and filed.

8. Approval of Allocation from PG&E of GHG-Free attributes from Diablo Canyon Nuclear Power Plant for 2025-2030

Mr. Vosburg and Mr. Gunther provided an overview of the Allocation from PG&E of GHG-Free attributes from Diablo Canyon Nuclear Power Plant for 2025-2030.

There were no public comments on Item No. 8.

Committee Member Castañeda made a motion, seconded by Committee member Hoyt to not recommend approval of this item.

Committee Member Andersen expressed reservations about approving this item because in his opinion nuclear power is not a GHG-free resource when considering impacts from construction, transmission, and uranium mining. Also concerned it is not clean energy, which misaligns with the mission of Community Power.

Committee Member Jahns was initially against approving this item because he felt he needed additional time to review such an important item.

Committee Member Hoyt echoed the sentiments of his colleagues and was not comfortable with supporting nuclear energy.

Committee Member Castañeda also echoed her colleagues' comments.

Committee Member Castañeda amended the previous motion, seconded by Chair Vasilakis to recommend Board Elect to Accept Community Power's Allocation from PG&E of GHG-Free attributes from Diablo Canyon Nuclear Power Plant for 2025-2030. Motion carried with five affirmative votes, three dissenting votes, and one abstention by Roll Call Vote as follows:

AYES: Chair Vasilakis, Vice Chair Emerson, Committee Members Sclafani, Jahns, and Harris
NOES: Secretary Castañeda; Committee Members Hoyt and Andersen
ABSTAINED: Committee Member Hammond
ABSENT: Committee Members Cazares, Sandoval, and Montero-Adams

9. Creation of a 2025 Community Advisory Committee Work Plan Ad-Hoc Committee

Ms. Crespo provided an overview on the creation of a 2025 Community Advisory Committee Work Plan Ad-Hoc Committee.

There were no public comments on Item No. 9.

Motioned by Committee Member Harris and seconded by Committee Member Emerson to approve the appointment of Committee Members Emerson, Harris and Jahns to the 2025 Community Advisory Committee Work Plan Ad-Hoc Committee. The motion carried by seven affirmative votes and one dissenting vote by Roll Call Vote as follows:

AYES: Chair Vasilakis, Vice Chair Emerson, Secretary Castañeda, Committee Members Sclafani, Harris, Hammond and Hoyt
NOES: Andersen
ABSTAINED: None
ABSENT: Committee Members Sandoval, Cazares, and Montero-Adams

10. San Diego Community Power Network Request for Qualifications Update

Ms. Crespo provided an update on the San Diego Community Power Network Request for Qualifications.

There were no public comments on Item No. 10.

After Committee discussion, Item No. 10 was received and filed.

11. Update on 2025 Projected Rate Changes

Mr. Lu provided an update on the 2025 Projected Rate Changes.

There were no public comments on Item No. 11.

Following Committee questions, discussion and comments, Item No. 11 was received and filed.

DISCUSSION OF POTENTIAL AGENDA ITEMS FOR BOARD OF DIRECTORS MEETINGS

None.

COMMITTEE MEMBER ANNOUNCEMENTS

Committee Members made announcements and reported on various events taking place in their member jurisdictions.

ADJOURNMENT

The Community Advisory Committee meeting adjourned at 7:51 p.m. to a regular meeting scheduled on Thursday, January 16, 2025, at 5:30 p.m.

Maricela Hernandez, MMC, CPMC
Clerk of the Board

**SAN DIEGO COMMUNITY POWER
Staff Report – Item 2**

TO: Community Advisory Committee

FROM: Jen Lebron, Director of Public Affairs

VIA: Karin Burns, Chief Executive Officer

SUBJECT: Update on Marketing, Public Relations, and Local Government Affairs

DATE: January 16, 2025

RECOMMENDATION:

Receive and file an update on marketing, public relations, and local government affairs activities for San Diego Community Power ("Community Power").

BACKGROUND:

Community Power has engaged in a variety of public relations, marketing, community outreach, and local government affairs activities to drive awareness, spark community engagement, and maintain high customer enrollment.

ANALYSIS AND DISCUSSION:

Community Power's Public Affairs Department has been participating in events across our member agencies as it aims to increase general awareness and answer questions in a friendly, helpful manner.

Recent and Upcoming Public Engagement Events

San Diego Regional Climate Collaborative Leader Awards
Cleantech San Diego Summit

National City STEAM Collaborative
Imperial Beach Library
Equity Impacts
Sunset Sweep: Florida Canyon Cleanup
National City Chamber of Commerce 115h Annual Gala

Marketing, Communications and Outreach

The Public Affairs team has been working diligently behind the scenes to support programmatic efforts, including the new Solar Battery Savings program, which provides customers with rooftop solar and battery storage incentives. It is also ramping up efforts to promote upcoming programs including one that helps customers repair their roofs to be ready for solar installations, and another that will distribute grants to small businesses that would benefit from more efficient refrigerators. The Public Affairs team is working closely with internal and external stakeholders to encourage participation in these programs and leveraging relationships with community partners to amplify our marketing and outreach efforts.

Community Power has continued its efforts to connect with local leaders through meetings and at community events.

The Public Affairs team will continue to develop new strategies, processes and capacity over the next several months to conduct more community outreach, expand marketing and brand awareness efforts, and provide timely, accurate information across multiple channels.

Local Government Affairs

Community Power continues to meet with and work with local governments and tribal nations throughout the greater San Diego region. With the election results called in Community Power's member agencies, the local government affairs team is reaching out to new elected officials to inform them about the benefits Community Power offers to their constituents.

**SAN DIEGO COMMUNITY POWER
Staff Report – Item 3**

TO: Community Advisory Committee

FROM: Lucas Utouh, Senior Director of Data Analytics and Customer Operations

VIA: Karin Burns, Chief Executive Officer

SUBJECT: Update of Customer Operations

DATE: January 16, 2025

RECOMMENDATION:

Receive and file an update on various customer operations' initiatives.

BACKGROUND:

Staff will provide regular updates to the Community Advisory Committee (CAC) centered around tracking opt actions (i.e., opt outs, opt ups and opt downs) as well as customer engagement metrics. The following is a brief overview of items pertaining to customer operations.

ANALYSIS AND DISCUSSION:

A) Enrollment Update

As of December 30, 2024, Community Power is serving a cumulative total count of **955,094** active accounts.

Customers with newly established accounts or who have moved into a new service address within any and all of our member jurisdictions receive 2 post-enrollment notices through the mail at their mailing address on file within 60 days of their account start date to notify them that they have defaulted to Community Power electric generation service.

B) Customer Participation Tracking

The below charts summarize customer elections into San Diego Community Power's four (4) available service levels as of December 30, 2024:

Completion %	94%	96%	100%	100%	98%

San Diego Community Power anticipates the trend of customers calling into the Contact Center's Interactive Voice Response (IVR) system tree and being able to self-serve their opt actions using the recorded prompts as well as utilizing Community Power's website for processing opt actions will continue to account for over 65% of all instances. The remaining portion of customer calls are connected to Customer Service Representatives to answer additional questions, assist with account support, or process opt actions.

As of this latest reporting month, Community Power has 9 Dedicated Customer Service Representatives staffed at the Contact Center and 1 Supervisor. Robust Quality Assurance (QA) procedures are firmly in place to ensure that customers are getting a world-class customer experience when they contact Community Power.

**SAN DIEGO COMMUNITY POWER
Staff Report – Item 4**

TO: Community Advisory Committee

FROM: Colin Santulli, Director of Programs

VIA: Karin Burns, Chief Executive Officer

SUBJECT: Update on Programs

DATE: January 16, 2025

RECOMMENDATION:

Receive and file update on customer energy programs.

BACKGROUND:

Staff will provide regular updates to the Community Advisory Committee (“CAC”) regarding the following Community Power customer energy programs: Commercial Programs, Residential Programs, Flexible Load Programs, Solar and Energy Storage Programs, and San Diego Regional Energy Network.

ANALYSIS AND DISCUSSION:

Updates on customer energy programs are detailed below.

Commercial Programs

Commercial Application Assistance Pilot Project

Status and Next Steps: Please refer to [Item 5](#) of the December 2024 CAC staff report for the most recent update on this pilot project.

Efficient Refrigeration Pilot Project

Status and Next Steps: Please refer to [Item 5](#) of the December 2024 CAC staff report for the most recent update on this pilot project.

FLEXmarket Pilot Project

Status and Next Steps: Please refer to [Item 5](#) of the April 2024 CAC staff report for the most recent update on this pilot project.

Residential Programs

California Energy Commission (“CEC”) Equitable Building Decarbonization Direct Install (“EBD DI”) Program

Status and Next Steps: Please refer to [Item 5](#) of the December 2024 CAC staff report for the most recent update on this program.

Flexible Load Programs

Smart Home Flex Pilot Project

Status: Staff has been working with Virtual Peaker on the implementation of Community Power’s Distributed Energy Resources Management System (“DERMS”) through a pilot project called Smart Home Flex. The pilot will enroll 2,000 existing smart thermostats from Ecobee and Google Nest in early 2025 to test the capabilities of the DERMS, validate the value stream, and assess customer satisfaction. Starting Summer 2025, Community Power will initiate “Smart Flex Events” – times when energy demand and grid stress are anticipated to be high. When a Smart Flex Event is initiated or “called”, approved customers will receive a notification and the temperature settings on their smart thermostat will be automatically adjusted to reduce energy usage during the Smart Flex Event. Staff will be working with smart thermostat original equipment manufacturers to leverage their smart apps to send out notifications to customers to enroll. Customers that apply and are approved will receive an enrollment incentive of \$25.

Next Steps: Staff will work with smart thermostat original equipment manufacturers to begin customer outreach and enrollment.

Managed Charging Pilot Project

Status: Staff has been working with Optiwatt on the implementation of the residential managed charging/V1G pilot project. There will be 1,000 participants enrolled over the course of the two-year pilot. The optimized charging schedules created for pilot participants will automatically direct their electric vehicles to charge when energy is cheaper, reducing strain on the electrical grid during peak demand periods and lowering their electricity bills absent participation. This pilot will offer an enrollment incentive of \$50 and a monthly participation incentive of \$5.

Next Steps: Staff will continue working with Optiwatt on the implementation of this pilot, targeting a Q1 CY 2025 launch.

Solar and Energy Storage Programs

Disadvantaged Communities–Single-Family Affordable Solar Homes (“DAC-SASH”) Readiness Pilot Project

Status: GRID Alternatives (“GRID”) has identified 25 projects that are eligible to participate in the DAC-SASH Readiness Pilot, 80% of which are located in the Transformative Climate Communities Rooted in Comunidad, Cultivating Equity (RICCE) project area. As of December 2024, ten projects have moved into the contracting or implementation phase.

Next Steps: GRID expects to complete roof repair/replacement work by March 2025 due to the lengthy contracting process required to enroll homes in the DAC-SASH program.

Net Energy Metering (“NEM”) and Net Billing Tariff (“NBT”)

Status and Next Steps: Please refer to [Item 4](#) of the February 2024 CAC staff report for the most recent update on this program.

Solar Battery Savings (“SBS”) Program Pilot

Status: The SBS Program Pilot closed due to funding being fully allocated on November 8, 2024. SBS had 1,636 approved projects, equating to over 2,200 batteries planned for installation. Please refer to [Item 5](#) of the December 2024 CAC staff report for other updates on this program. Staff continue to process upfront incentive payments once projects are completed. Staff has requested program feedback from contractors and customers to understand improvements in future program iterations via program surveys that were distributed in December 2024.

Next Steps: Staff is bringing a stand-alone update on the pilot to the CAC in January 2025.

Solar Advantage Program (previously Solar for Our Communities)

Status and Next Steps: Previously called Solar for Our Communities, please refer to [Item 4](#) of the October 2024 CAC staff report for the most recent update on this program.

San Diego Regional Energy Network (“SDREN”)

SDREN

Status and Next Steps: Please refer to [Item 5](#) of the December 2024 CAC staff report for the most recent update on this program.

**SAN DIEGO COMMUNITY POWER
Staff Report – Item 5**

TO: Community Advisory Committee

FROM: Laura Fernandez, Director of Regulatory and Legislative Affairs
Aisha Cervantes-Cissna, Senior Policy Manager
Patrick Welch, Senior Legislative Manager
Stephen Gunther, Regulatory Manager
Dean Kinports, Senior Strategy Manager

VIA: Karin Burns, Chief Executive Officer

SUBJECT: Update on Regulatory and Legislative Affairs

DATE: January 16, 2025

RECOMMENDATION:

Receive and file the update on regulatory and legislative affairs.

BACKGROUND:

Staff will provide monthly updates via written staff report to the Community Advisory Committee regarding SDCP regulatory and legislative engagement. Staff also intends to provide quarterly presentations to the Community Advisory Committee. The quarterly update for Quarter 1 2025 will be presented at the January 16, 2025 Community Advisory Committee meeting. The quarterly presentation is intended to provide a verbal overview of important highlights from the preceding quarter. Monthly staff reports provide more in-depth and timely regulatory and legislative updates.

ANALYSIS AND DISCUSSION:

A) Regulatory Updates

Renewables Portfolio Standard

On December 24, 2024, the California Public Utilities Commission (CPUC) issued a [Final Decision](#) on the 2024 Renewables Portfolio Standard (RPS) Procurement Plans filed by load serving entities. [Community Power’s Draft 2024 RPS Procurement Plan](#), which was filed in July 2024, was accepted and deemed final in the Final Decision. However, the CPUC also identified Community Power’s filing as having some inappropriately redacted information, and as such, Community Power must revise its 2024 RPS Plan by January 23, 2025.

Integrated Energy Policy Report

On December 12, 2024, the California Energy Commission hosted a workshop to provide an overview of draft annual and hourly electricity demand forecast results used in the [2024 Integrated Energy Policy Report](#), which informs several planning processes and resource adequacy obligations. CalCCA filed comments on the workshop on January 2, 2025, recommending that the Commission:

- Supplant or supplement its bottom-up forecast development for long-term needs with historical top-down load information in the near-term to ensure load forecast stability for resource adequacy obligations; and
- Document the work of the Demand Analysis Working Group (DAWG) to ensure all LSEs benefit from decisions or discussions regarding certain programs and how they impact the demand forecast.

The Commission is expected to post final forecast results for proposed adoption on January 21, 2025.

Disconnections

Disconnections Phase 2 Scoping Ruling

On October 30, 2024, the CPUC issued a [Ruling](#) seeking comments regarding the implementation of (1) [Senate Bill \(SB\) 1142](#) and (2) potential additional disconnection protections during extreme weather events. Opening comments on the Ruling were due November 22, 2024. Reply comments are due January 17, 2025. A workshop on this Ruling was held on December 12, 2024. Opening comments on the workshop are due January 10, 2025. Reply comments on the workshop are due January 17, 2025.

SB 1142, enacted in September 2024, requires Investor-Owned Utilities (IOUs) to reconnect customers who agree to a payment plan. SB 1142 directs the Commission to determine additional implementation details associated with reconnection. A [motion](#) filed by The Utility Reform Network (TURN) in August 2024 seeks to enhance protections against disconnection during extreme heat. The motion proposes modifying rules to prevent disconnections when temperatures exceed 100 degrees Fahrenheit or when the "Major" risk-level is forecasted on the National Weather Service's "HeatRisk" index. It also suggests that electric IOUs proactively contact disconnected customers under these conditions to offer reconnection without requiring any upfront payment, provided the customer consents to a payment plan.

[CalCCA](#) filed opening comments on November 22, 2024, taking the following positions:

- When restoring service to a customer who was disconnected due to nonpayment, IOUs should offer customers all payment plans for which they qualify.
- The CPUC should hire a third party to perform a holistic examination of disconnection protections and payment programs.

- The CPUC should adopt TURN’s proposed rule modifications; the HeatRisk index should be adopted, and a similar indexing system for low temperature risks (NWS Cold Threats).

The IOUs (SDG&E, SCE, and PG&E) do not support changes to existing disconnection policies. The Public Advocates Office recommends offering all payment plans for reconnection without upfront fees and calls for an evaluation of existing plans. They suggest more data is needed before adopting TURN's changes. The Utility Consumers' Action Network advocates for limiting IOU profits to tackle the root causes of disconnections due to arrearages. The Utility Reform Network and allies push for a full spectrum of payment options upon reconnection and thorough financial assessments before disconnections.

The workshop presentations largely reflected the comments summarized above. Commissioner Houck presided over the workshop and expressed great interest in accounting for a customer’s ability to pay before terminating service due to nonpayment.

B) State Legislative Activities Update

Monitoring the New Legislative Session, Which Will Likely Focus on Affordability

The 2025 legislative year officially began on December 2, marking the start of the first year of a two-year legislative session. Legislators have until February 21 to introduce new bills. SDCP staff will monitor legislative activities related to electricity and energy that could impact SDCP and its customers. SDCP staff will analyze introduced legislation and take positions, as needed, and in accordance with the Board approved Legislative and Regulatory [Platform](#).

The Legislature is expected to consider fewer bills this year due to legislative rule changes. During the 2025-26 legislative session, Assemblymembers will only be allowed to introduce 35 bills, down from 50 in the prior legislative session. Senators will also be limited to 35 bills, down from 40 the session prior.

SDCP’s legislative engagement generally focuses on the work of the Senate Committee on Energy, Utilities and Communications (SEUC) and the Assembly Committee on Utilities and Energy (U&E). Both committees analyze and vote on legislation that impacts SDCP operations and customers. They are very active committees. Last year, SEUC held 10 hearings to review and vote on at least 65 pieces of legislation, and U&E held 13 hearings to review and vote on 74 pieces of legislation.

There is a new chair of SEUC, Senator Josh Becker (D-Menlo-Park). He pledged bold action on clean energy and affordability and called for smart regulations. U&E will continue to be led by Assemblymember Petrie-Norris (D-Irvine), who said she’d continue to focus on lowering costs and building critical infrastructure. There aren’t any Senators

representing SDCP's service area on SEUC. The full membership of U&E has not been announced.

Consistent with the focus on affordability from the chairs of SEUC and U&E, the Speaker of the Assembly also urged lawmakers to do more to lower energy costs. In a speech, he told his legislative colleagues that California must lead on climate, but not on the backs of poor and working people.

SDCP Spearheads Letter for Distributed Electricity Backup Assets Funding in 2025 State Budget

SDCP led a group of seven other CCAs on a letter to the state's Director of Finance (DOF) that advocated for funding for the California Energy Commission's (CEC) Distributed Electricity Backup Assets (DEBA). The DOF leads putting together the Governor's annual budget proposals. DEBA was created in 2022 as part of the state's electric Strategic Reliability Reserve (SRR) to fund clean distributed energy assets that can help with load reduction and in emergency grid scenarios. If funded, DEBA could be a state-level funding avenue that could be pursued for programs like Solar Battery Savings. There would be an application and scoring process if the program is funded. The 2024 State Budget included a commitment to fund DEBA with \$200 million, but the upcoming 2025 State Budget must follow through and provide the actual appropriation to the CEC.

There isn't a guarantee that the 2024 State Budget commitment to DEBA will be included in the 2025 State Budget. While the Legislative Analyst's Office (LAO) [predicts](#) that the 2025 State Budget is on track to be roughly balanced, there is no capacity for new spending commitments due to projected deficits in future years. However, DEBA would likely be funded by revenue from the Greenhouse Gas Reduction Fund, which is a special fund separate from the state's General Fund that was analyzed by the LAO.

C) Federal Activities Update

Monitoring Congressional Activity on the Future of the Inflation Reduction Act

The 119th Congress was sworn in on January 3. Among other items, the new Congress is expected to attempt to address energy issues and may seek to make changes to the Inflation Reduction Act (IRA), which established tax credits for renewable energy generation and energy storage. SDCP staff and federal representatives will monitor IRA related developments and engage on issues in accordance with SDCP's Legislative and Regulatory Platform.

ITEM 5
ATTACHMENT A

December 4, 2024

Joe Stephenshaw
Director, Department of Finance
1021 O Street, Suite 3110
Sacramento, CA 95814

Subject: Funding the California Energy Commission’s (CEC) Distributed Electricity Backup Assets (DEBA) Program Will Help Ratepayer Affordability

Dear Director Stephenshaw,

The 2024 Budget Act included a \$200 million set aside from the Greenhouse Gas Reduction Fund (GGRF) for DEBA in 2025-26. We urge you to work with the Governor to follow through on this commitment and include the appropriation in the January budget proposal.

Funding for DEBA has become even more critical considering increasing electric rates and the Governor’s recent executive order to curb electricity costs (Executive Order N-5-24). According to the CPUC’s Public Advocate’s Office, bundled electricity rates have increased by between 82% to 110% in the past decade. Funding DEBA aligns with the Executive Order’s goal to “take decisive action to rein in” ratepayer costs and ensure the prioritization of the “most efficient and effective opportunities to meet energy demand with clean resources.”

DEBA was created in 2022 as part of the Strategic Reliability Reserve (SRR) to fund local community power projects through “the construction of cleaner and more efficient distributed energy assets” that can serve as on-call emergency supply or load reduction while minimizing cost exposure to ratepayers (PRC Section 25791). The SRR was created to ensure electricity reliability during extreme weather events from climate change to help support California's leadership “in driving the affordable and equitable transition to a clean reliable energy system and economy” (PRC Section 25790). DEBA, through a prior appropriation, has funded projects to increase the capacity of existing thermal generators, but has yet to have sufficient funds for distributed asset projects.

Funding DEBA will help reduce cost pressure on ratepayers by supporting the acquisition of additional clean customer resources that can be enrolled in virtual power plants (VPPs). California’s CCAs are at the forefront of building VPPs, which rely on aggregated customer resources – like batteries and thermostats – that are critical to achieving state clean energy goals, reducing costs for ratepayers, supporting grid reliability & resilience, and advancing environmental justice through accessible clean energy. By enabling customers to participate in automated dispatch, VPPs can collectively provide capacity through demand reduction at peak hours when energy is most expensive, thereby benefiting all customers.

In closing, not only does funding DEBA balance ratepayer affordability with continuing progress towards meeting clean energy goals, but it also aligns with the Governor’s Clean Energy Transition plan, which calls for technologies to “help customers access lower rates through demand flexibility by using power during times of the day when costs are the lowest.”

Thank you for considering our request. If you have any questions, please contact Amy Costa, at amy@fullmoonstrategies.com.

**SAN DIEGO COMMUNITY POWER
Staff Report – Item 6**

TO: Community Advisory Committee

FROM: Lucas Utouh, Senior Director of Data Analytics and Customer Operations
Aaron Lu, Rates and Strategy Manager

VIA: Karin Burns, Chief Executive Officer

SUBJECT: Update on 2024 Projected Rate Changes

DATE: January 16, 2025

RECOMMENDATION:

Receive and file an update on San Diego Community Power’s (Community Power) 2025 projected rate changes.

BACKGROUND:

As Community Power prepares to develop and propose rates for 2025, it is critical to understand current San Diego Gas and Electric (SDG&E) generation and the Power Charge Indifference Adjustment (PCIA) rates – as both SDG&E bundled and PCIA rates play a role in Community Power’s rate setting process, particularly as it relates to Community Power’s competitiveness. Community Power’s Board of Directors last adjusted Community Power commodity/generation rates on January 18, 2024, and those rates came into effect as of February 1, 2024. Community Power’s Board of Directors also adopted Power100 Green-e Certified and PowerBase services, which came into effect as of July 1, 2024.

ANALYSIS AND DISCUSSION:

Rate Setting Process

Community Power will establish rates sufficient to recover all costs related to the operations of our service and the Board of Directors has the ultimate responsibility for setting the electric generation rates for Community Power’s customers. The Chief Executive Officer, in cooperation with staff and appropriate advisors, consultants, and committees of the Board, is responsible for developing proposed rates for the Board to consider before finalization. For Community Power to be fiscally sustainable, the final approved rates should, at a minimum, meet the annual revenue requirements developed by Community Power, including any reserves or coverage requirements set forth in policy

and/or loan covenants/debt service. The Board has the flexibility to consider rate adjustments, provided that the overall revenue requirement is achieved.

In alignment with the Rate Development Policy, adopted by the Board of Directors on November 17, 2022, Community Power considers the following objectives in its rate setting framework:

- Cost Recovery,
- Reserves,
- Rate Competitiveness and Customer Value,
- Rate Stability,
- Equity Among Customers,
- Rate Structure Simplicity and Comparability,
- Transparency,
- Avoidance of Cost Shifting, and
- Cost of Service.

Additionally, per previous Board direction, Community Power staff will, if possible, recommend rates that remain competitive with SDG&E service.

It is important to note rates consist of several components, only one of which Community Power has control over, i.e., Community Power’s generation rate. The chart below is an example of a current rate tariff composition for a residential customer to illustrate the various components that affect rates and make up a total customer bill. Staff tracks the changes to the PCIA rate, as it is the above market cost of power associated with SDG&E’s portfolio that both SDG&E’s bundled customers and Community Power’s customers, who have departed SDG&E commodity service, pay and can affect Community Power’s overall headroom or competitiveness. Above market refers to expenditures for generation resources that cannot be fully recovered through sales of these resources at current market prices.

Time of Use – TOUDR-Residential

Residential: TOUDR	SDG&E 44.8% Renewable	SDCP PowerBase 45% Renewable	SDCP PowerOn 54.2% Renewable + 12.8% Carbon Free	SDCP Power100 100% Renewable
Generation Rate (\$/kWh)	\$0.13878	\$0.12997	\$0.14690	\$0.15690
SDG&E Delivery Rate (\$/kWh)	\$0.25528	\$0.25525	\$0.25525	\$0.25525
SDG&E PCIA (\$/kWh)	\$0.00207	\$0.00727	\$0.00727	\$0.00727
Franchise Fees (\$/%)	\$0.00435	\$0.00435	\$0.00435	\$0.00435
Total Electricity Cost (\$/kWh)	\$0.40048	\$0.39684	\$0.41377	\$0.42377
Average Monthly Bill (\$)	\$150.98	\$149.61	\$155.99	\$159.76

Average Monthly Usage: 377kWh

2025 Rates Timeline

Community Power, like most Community Choice Aggregators (CCAs), usually adjusts rates annually or in response to utility rate adjustments. There is a very narrow window of time between when SDG&E sets their 2025 rates and when Community Power needs updated rates available for 2025. The expected schedule for Community Power's rate setting is as follows:

- May 15, 2024: SDG&E filed its 2025 Energy Resource Recovery Account (ERRA) forecast application.
- May 30, 2024: Community Power's Board of Directors adopted Power100 Green-e Certified and PowerBase services, which came into effect as of July 1, 2024.
- October 21, 2024: SDG&E filed its Updated 2025 ERRA forecast application.
- November 15, 2024: SDG&E filed Advice Letter 4548-E: Annual Electric Regulatory Account Update and Preliminary January 1, 2025, Rates Outlook.
- December 5 and 12, 2024: Community Power staff briefed its Community Advisory Committee and Board of Directors of SDG&E's 2025 projected and PCIA rates changes.
- January 16 and 23, 2025: Community Power staff presents Community Power's 2025 projected rate changes to the Community Advisory and Finance Risk Management Committees and Board of Directors.
- January 31, 2025: SDG&E files its Consolidated Filing to Implement February 1, 2025, Electric Rates advice letter.
- February 1, 2025: SDG&E's expected effective date of implementation of its delivery and generation rates as well as the PCIA.
- February 7, 2025: Community Power Board adopts 2025 rates, to be retroactively effective on February 1, 2025.

2025 Bundled & PCIA Rates Projections

Based on SDG&E's October 2025 Updated forecast application, their projected bundled system average generation rates were expected to increase by 0.07% as of January 1, 2025. On November 15, 2024, SDG&E filed a regulatory account update advice letter which adjusted their projected bundled system average generation rates to increase by 6.20%. SDG&E attributes bundled system average generation rates increase in 2025 primarily to actualization of balancing account projections and impacts from the General Rate Case.

Recent bundled generation rate changes and these projections are articulated in the table below.

Customer Class	SDG&E Avg. Commodity Rate (\$/kWh)						SDG&E Avg. Commodity Rate Change (%)			
	1/1/2023	1/1/2024	3/1/2024	10/1/2024*	1/1/2025**	1/1/2025***	1/1/2023 - 1/1/2024	1/1/2024 - 3/1/2024	3/1/2024 - 10/1/2024	10/1/2024 - 1/1/2025
Residential	0.1967	0.1514	0.1517	0.1517	0.1519	0.1622	-23.03%	0.19%	0.00%	6.96%
Small Commercial	0.1742	0.1283	0.1285	0.1285	0.1288	0.1385	-26.34%	0.19%	0.00%	7.78%
M/L C&I	0.2039	0.1578	0.1581	0.1581	0.1578	0.1660	-22.61%	0.18%	0.00%	5.04%
Agricultural	0.1455	0.1120	0.1122	0.1122	0.1116	0.1174	-23.00%	0.18%	0.00%	4.61%
Lighting	0.1286	0.0991	0.0993	0.0993	0.0995	0.1063	-22.92%	0.19%	0.00%	7.07%
System Total	0.1947	0.1499	0.1502	0.1502	0.1503	0.1595	-23.03%	0.19%	0.00%	6.20%

* SDG&E 10/1/2024 rate change did not revise commodity rates and PCIA.

** SDG&E proposed 1/1/2025 rates from Oct. 2025 ERRRA Update, filed 10/21/2024.

*** SDG&E proposed 1/1/2025 rates from Nov. Consolidated Rates Filing, filed 11/15/2024.

Based on our high-level forecasts and the filings by SDG&E, Community Power is expecting in 2025 to see a decrease in PCIA rates for all vintages relevant to Community Power customers, including Vintage Year 2020 (Phase 1 & 2 customers), Vintage Year 2021 (Phase 3 customers), and Vintage Year 2022 (Phase 4 customers).

On December 9, 2024, SDG&E requested a one-month extension from the CPUC to implement its 2025 Consolidated Rate advice letter and to delay the rate adjustments reflected in that advice letter from being effective as of January 1, 2025 to February 1, 2025. The CPUC approved the request because the extension is necessary to avoid potential customer confusion due to fluctuating rates and provides the needed time to plan and implement the consolidated electric rate changes from the recent approved General rate Case decision.

2025 Rate Setting Mechanics

In accordance with SDG&E's definition of load transfer from bundled service to Community Power's service per Schedule CCA-CRS, our Phase 1 and 2 customers' Vintage Year is 2020, our Phase 3 customers' Vintage Year is 2021, and our Phase 4 customers' Vintage Year is 2022. Vintaging denotes the year during which SDG&E recognizes the transition of our customers from bundled service into our service and creates a mechanism for the assessment of PCIA rate.

Next Steps

Staff will continue to monitor all updates from SDG&E/CPUC to be able to better analyze and recommend rate changes that are reflective of all the inputs articulated in CPUC's decision(s). Staff expects to present rates to the Community Power Board for adoption on February 7, 2025, that both meet the revenue and prudent reserve needs of Community Power as well as maintain value for our customers.

As a result of the substantial deltas expected between PCIA rates for Vintage Years 2020, 2021, and 2022, staff will also recommend to the Board to continue to trifurcate three sets of rates for 2025. This trifurcation will maintain a fair, equitable, and balanced rate structure that does not create winners and losers across our customers with differing vintage years as illustrated below.

**SAN DIEGO COMMUNITY POWER
Staff Report – Item 7**

TO: Community Advisory Committee

FROM: Lee Friedman, Sr. Manager Strategic Partnerships

VIA: Karin Burns, Chief Executive Officer

SUBJECT: Update on Sponsorships, Partnerships and Memberships

DATE: January 16, 2025

RECOMMENDATION:

Receive and file an update on San Diego Community Power’s Sponsorships, Partnerships, and Memberships.

BACKGROUND:

Per the adopted 2022 Strategic Plan, San Diego Community Power (Community Power) established a series of goals around brand building to develop trust and recognition as well as drive participation in programs and support customer service and retention.

To accomplish these goals, Community Power invests in sponsorships, partnerships and memberships throughout the San Diego region (and beyond when appropriate) to further community engagement, create opportunities for thought leadership, foster relationships with key industries (public, private and civic), and build Community Power’s brand.

ANALYSIS AND DISCUSSION:

Sponsorships

In March 2023, the Board of Directors approved Community Power’s Sponsorship Policy.

The policy sets a framework to ensure sponsorships remain transparent, fiscally responsible, and centered on the customer.

There are several restrictions associated with the policy as well, including restrictions on sponsorships for organizations whose primary purpose include support or opposition to candidates for political office, political parties or ballot measures. Restrictions also apply to organizations or businesses that primary products are firearms, tobacco, fossil fuels or other subject matter deemed not appropriate by Community Power.

Through the sponsorship policy, approval levels were also set to provide review oversight and are set as follows:

- Under \$1,000 – Sponsorship Agreement requires approval by External Affairs staff with review by the supervising Management Team Member
- \$1,001 to \$8,500 – Sponsorship Agreement requires approval by a Management Team Member and the Department Director
- Over \$8,500 - Sponsorship Agreement requires approval by the Department Director, the Chief Financial Officer, and the Chief Executive Officer

Community Power processes dozens of sponsorships annually, and we use Monday.com as the database to track all the relevant information including invoices and contracts.

The median sponsorship for an event since 2023 has been \$3,000. Nearly half of all sponsored events since 2023 have had a community outreach element, and a third of them included a speaking engagement or opportunity for thought leadership.

Community Power has also been the title/presenting sponsor of several events since 2023, including the Nexus Conference, Association of Women in Water, Energy & Environment Annual Conference and Bike the Bay.

Since 2023, we have sponsored at least one event located geographically per member agency, with the vast majority of sponsored events serving regional audiences. Additionally, several of our sponsorships include multiple hosted events, like our sponsorship for San Diego County Summer Movies in the Park which included six events located throughout San Diego County.

Partnerships

Community Power has active partnerships with the following organizations: San Diego Padres, San Diego Wave, San Diego Regional Climate Collaborative, San Diego New Children’s Museum, and The Regional Energy Academy.

Partnerships, like sponsorships, are negotiated agreements with the primary function to support San Diego Community Power’s strategic goals of building brand identification, creating opportunities for thought leadership and community engagement, and supporting the adoption of Power100. Generally, partnerships are constructed for multi-year benefits that extend beyond a single event.

Memberships

Community Power joins local, statewide and national member-based organizations to provide a voice for Community Choice Aggregation and our sustainability efforts. When considering memberships, Community Power looks to see if there are opportunities to serve on committees, participate in local outreach events, and advance the adoption of Power100 and of Power100 Champions.

Many membership organizations have various levels of membership. Community Power will join at the appropriate level based on several factors including whether or not the organization offers a not-for profit or government membership rate, ability to serve on a committee, size and influence (whether in a specific region or amongst a specific customer type), and opportunities for additional engagement (e.g. community engagement or thought leadership).

Community Power is currently members of the following organizations:

- American Public Power Association
- Asian Business Association
- Association of Women in Water, Energy and Environment
- Better Business Bureau
- BioCom*
- Business for Good*
- Cleantech San Diego*
- Chula Vista Chamber of Commerce
- Downtown San Diego Partnership
- Encinitas Chamber of Commerce
- Imperial Beach Chamber of Commerce
- La Mesa Chamber of Commerce
- National City Chamber of Commerce
- North San Diego Business Chamber*
- Peak Load Management Alliance
- Power Association of California
- San Diego Housing Federation
- San Diego Regional EDC
- San Diego Regional Chamber of Commerce*
- South County Economic Development Council
- Special Districts Association

Community Power helped to establish inaugural sustainability focused committees at Biocom and North San Diego Business Chamber. Community Power staff currently serves on committees of the organizations designated with an asterisk.

SAN DIEGO COMMUNITY POWER
Staff Report – Item 8

TO: Community Advisory Committee

FROM: Emily Fisher, Senior Program Manager
Colin Santulli, Director of Programs

VIA: Karin Burns, Chief Executive Officer

SUBJECT: Update on Solar Battery Savings Program

DATE: January 16, 2025

RECOMMENDATION:

Receive and file the update on Community Power’s Solar Battery Savings Program.

BACKGROUND:

The Net Billing Tariff (“NBT”) NBT, also known as the Solar Billing Plan, is the successor to Net Energy Metering (“NEM”) 2.0. It was established by the California Public Utilities Commission (CPUC) in December 2022 and went into effect for all new customers installing solar systems or any other renewable self-generation system on or after April 15, 2023.

The San Diego Community Power Board of Directors adopted the NBT policy at the October 2023 Board of Directors meeting, replacing NEM 2.0 as the default billing mechanism for accounts with newly installed generating systems (e.g., solar, wind, biomass, geothermal or other renewable resources). In December 2023, NBT was operationalized within Community Power’s billing system for customers with new generating systems and/or for customers who had reached the conclusion of their 20-year legacy period with NEM. This new approach for compensating renewable energy generation is intended to promote grid reliability, thus increasing the value of solar systems paired with battery storage.

To make these clean energy investments more affordable for customers, and support the continued growth of the regional solar market, Community Power committed to create a program to incentivize solar and storage with the following goals:

1. Install solar and storage systems in single-family homes throughout the service territory (goal of 50% of incentives going to Communities of Concern)
2. Support clean energy and reliability
3. Leverage non-Community Power incentives for customers

4. Build strong relationships with customers and the industry

A summary of the key program parameters is shown below.

Table 1. Program Parameters

	Market Rate	Non-Market Rate (CARE/FERA ¹ & Communities of Concern)
Solar Upfront Incentive	N/A	Up to \$450/kW-AC ²
Storage Upfront Incentive	\$350/kWh (nameplate useable capacity)	Up to \$500/kWh ³ (nameplate useable capacity)
Storage Performance Incentive	\$0.10/kWh (based on actual performance over the dispatch period during on-peak periods)	
# of Events	Daily (weekday only or weekday+weekend)	
Battery Enrollment	Participants can select the percentage of their battery’s usable capacity to enroll in the program, with a minimum requirement of 50% (with restrictions based on product manufacturer selected)	
Op-Out	Battery can underperform by up to 10% of the total enrolled capacity per month	
Unenrollment	There will be a prorated claw back associated with the upfront incentive if the participant chooses to unenroll within the first five years.	

¹California Alternate Rates for Energy (“CARE”) and Family Electric Rate Assistance Program (“FERA”)

²Up to is based on if customer is eligible for other solar incentives, e.g., Disadvantaged Communities–Single-Family Affordable Solar Homes (“DAC-SASH”) and City of San Diego Equity Program

³Up to is based on if customer is eligible for other upfront storage incentives, e.g., Self-Generation Incentive Program (“SGIP”)

ANALYSIS AND DISCUSSION:

Program Development

The local residential solar industry is a key stakeholder in the success of the Solar Battery Savings program. As the primary contact to the customer for the program, approved contractors are required to be well versed in program guidelines and have regular access to Community Power staff as questions arise. As such, staff mandated the completion of a program training for all participating contractors. The training outlines who Community Power is, customer eligibility, program design and structure, mechanics of how to submit applications, technical specifications of allowable projects and expected system performance, and overarching contractor expectations (e.g., allowable communication and marketing practices). In addition to completing the mandatory training, interested contractors are required to apply to participate and agree to uphold all program requirements.

Staff began offering in-person program trainings to contractors in mid-June of 2024, leveraging industry partnerships to maximize participation. In June and July, staff held four in-person contractor trainings at a local distributor’s training room and International Brotherhood of Electrical Workers (IBEW) 569’s training facility, training 44 contractors in total during this time. A recording of the training is available to interested contractors to participate at their convenience.

Battery manufacturers had similar required trainings to participate in the program. Staff held a specific program training for battery manufacturers interested in participating in the program at the end of June. A recording of the battery manufacturer training is available for interested stakeholders. Additionally, as battery manufacturers are approved, Staff meets with them individually to understand how they plan to operationalize and ensure a successful path forward for data sharing.

Program Launch and Implementation

Solar Battery Savings began accepting project applications on July 28, 2024. The launch of the program garnered significant interest with over 500 applications submitted within the first 24 hours. The total number of approvals are as follows, with an 87% approval rate:

Table 2. Program Approvals

	# of Projects
Total Approved Projects	1,636
Total Approved Batteries	2,249

The 2,249 batteries are expected to provide 7.2MW of peak load reduction daily during on-peak periods for up to 10 years. Customers will continue to receive performance incentives annually for up to 10 years.

As of January 6, 2025, 480 projects have been paid (29% of all approved projects) based on post-installation documentation submittals. The average program incentive was \$6,870 per home, with the average being slightly lower for market rate customers (\$6,150) and higher for non-market rate customers (\$8,469). The distribution based on project count and budget across market rate, CARE/FERA customers and Communities of Concern was as follows:

Figure 1. Distribution Across Market Rate, CARE/FERA and Communities of Concern

Of the approved projects, 59% of the projects are for existing Net Energy Metering (NEM) customers, while 41% of the projects are for Net Billing Tariff (NBT) customers. 14% of NEM customers added solar of less than 10% of their current system size or 1 kW to expand their existing solar system in addition to adding a battery.

Projects were approved in all seven Community Power member agencies. Table 3 shows approved application distribution by member agency.

Table 3. Distribution Across Member Agencies

Member Agency	# of Applications	% of Applications	% of SF Homes ¹
City of San Diego	826	50.5%	50%
Encinitas	96	5.9%	3.6%
Chula Vista	105	6.4%	10%
La Mesa	63	3.8%	2.7%
National City	3	0.002%	1.3%
Imperial Beach	6	0.004%	0.7%
Unincorporated	537	32.8%	31.8%
Total	1,636		

¹The “% of SF Homes” column identifies single-family homes in each member agency as a percentage of all single family homes in Community Power territory based on an internal analysis using 2023 census data

Battery Manufacturer Engagement

Community Power approved 14 battery manufacturers for the program who offered a total of 46 different approved batteries. The approved batteries vary in size from three kilowatt-hours to 23.5 kilowatt-hours. Many of the manufacturers are headquartered in California, with one in San Diego County. Only eight of the 14 battery manufacturers had batteries installed (or planned for install) with the initial round of funding. Please see below for the number of batteries approved for installation based on manufacturer.

Table 4. Participation by Battery Manufacturers

OEM	# of Batteries Approved
Tesla	1,857 (83%)
Enphase	254 (11%)
sonnen	101 (4.5%)
FranklinWH	12 (<1%)
Canadian Solar	3 (<1%)
StackRack	7 (<1%)
PointGuard	4 (<1%)
NeoVolta	7 (<1%)
Total	2,249

Contractor Engagement

A diverse group of 50 contractors were approved to participate in the program. 37% were Diverse Business Enterprises and 4% were union. Participating contractors vary greatly in company size:

- 42% have 10 employees or less
- 42% have 10-50 employees
- 16% have more than 50 employees

Of approved contractors, 38 submitted at least one project. Table 5 lists participation of contractors who had at least 15 projects submitted; 18 contractors had less than 15 projects submitted.

Table 5. Participation Across Contractors

Contractor Name	Total Projects	% of Projects
Baker Home Energy	410	25%
TMAG Industries Inc, DBA Stellar Solar	176	11%
Sunline Energy	144	9%
Aloha Solar Power & Electrical Services Inc.	131	8%
KBI Electric, Inc. DBA Build Brothers	85	5%
Semper Solaris	76	5%
SolHome	64	4%
Homegrown Energy Solutions LLC	60	4%
Tesla, Inc.	59	4%
Solar Tech Energy	50	3%
Cosmic Solar Inc.	47	3%
Solare Energy, Inc.	40	2%
Johnson Solar	33	2%
SunVantage	31	2%
Sattler Solar Inc	25	2%
G C Electric Solar	24	1%
Alltech Solar, Inc.	21	1%
Palomar Solar LTD	18	1%
Incentive Solar	18	1%
San Diego Solar Inc	15	1%

NEXT STEPS

Staff is preparing for an initial program evaluation in Q1 CY2015 to inform a program relaunch in CY2025. Additionally, staff is exploring non-residential pilot project concepts.

**SAN DIEGO COMMUNITY POWER
Staff Report – Item 9**

TO: Community Advisory Committee

FROM: Xiomalys Crespo, Sr. Community Engagement Manager

VIA: Karin Burns, Chief Executive Officer

SUBJECT: 2025 Community Advisory Committee Work Plan Ad-Hoc end of Committee Report

DATE: January 16, 2025

RECOMMENDATION:

Receive and file the 2025 Community Advisory Committee (CAC) Work Plan Ad-Hoc End of Committee Report.

BACKGROUND:

Per Section 5.10.3 of the San Diego Community Power (Community Power) Joint Powers Authority Agreement:

The Board shall establish a Community Advisory Committee comprised of non-Board members. The primary purpose of the Community Advisory Committee shall be to advise the Board of Directors and provide a venue for ongoing citizen support and engagement in the strategic direction, goals, and programs of the Authority.

Per the Board-approved CAC Policies and Procedures: “The CAC will adopt a Work Plan that aligns with the CAC Scope of Work approved by the Board of Directors. This shall be updated annually. The Work Plan shall be approved by the Board.”

To discuss and recommend revisions to the CAC Work Plan for the 2025 calendar year, the CAC established a 2025 CAC Work Plan Ad-Hoc Committee during its December 5, 2024, regular meeting. CAC Chair Vasilakis (City of San Diego) appointed the following volunteers to serve on the ad-hoc committee: Member Jahns (Encinitas), Member Emerson (National City), and Member Harris (La Mesa).

ANALYSIS AND DISCUSSION:

During the 2025 CAC Work Plan Ad-Hoc Committee December 20, 2024 meeting, members discussed:

- Working with staff on engagement statistics regarding customer offerings to better understand how programming and service levels are being distributed equitably;

- Ensuring member compliance with required trainings and forms;
- Increasing educational opportunities for members, both during and outside of regular meetings;
- Reiterating strategies and informational resources among members to support staff in the strategic communication of agency activities to dispel inaccurate information, such as the website and Frequently Asked Questions documents; and
- Including Strategic Planning engagement as part of the Work Plan's scope.

Ad-hoc committee members also worked to further clarify strategies under each focus to better track progress and outcomes; revised proposed educational presentations; oversaw the deletion of redundant and/or outdated areas of focus; and revised the Civic Engagement and Participation focus area to ensure feasibility.

A final draft of the 2025 CAC Work Plan that reflects this feedback will be presented to the full CAC during its January 16, 2025, meeting. Should the CAC move to recommend Board approval of the 2025 CAC Work Plan, the Board of Directors will consider its adoption during its January 23, 2025, regular meeting. Ad-hoc committees are temporary committees appointed for a specific purpose, such as updating the work plan; therefore, this committee is not expected to meet again.

SAN DIEGO COMMUNITY POWER
Staff Report – Item 10

TO: Community Advisory Committee

FROM: Xiomalys Crespo, Sr. Community Engagement Manager

VIA: Karin Burns, Chief Executive Officer

SUBJECT: Approval of the 2025 Community Advisory Committee Work Plan

DATE: January 16, 2025

RECOMMENDATION:

Recommend Board approval of the 2025 Community Advisory Committee (CAC) Work Plan.

BACKGROUND:

Per Section 5.10.3 of the San Diego Community Power (Community Power) Joint Powers Authority (JPA) Agreement:

The Board shall establish a Community Advisory Committee comprised of non-Board members. The primary purpose of the Community Advisory Committee shall be to advise the Board of Directors and provide a venue for ongoing citizen support and engagement in the strategic direction, goals, and programs of the Authority.

Per the Board-approved CAC Policies and Procedures: “The CAC will adopt a Work Plan that aligns with the CAC Scope of Work approved by the Board of Directors. This shall be updated annually. The Work Plan shall be approved by the Board.”

To discuss and recommend revisions to the CAC Work Plan for the 2025 calendar year, the CAC established a 2025 CAC Work Plan Ad-Hoc Committee during its December 5, 2024 regular meeting. CAC Chair Vasilakis (City of San Diego) appointed the following volunteers to serve on the ad-hoc committee: Member Jahns (Encinitas), Member Emerson (National City), and Member Harris (La Mesa). The ad-hoc committee met on December 20, 2024. The proposed draft for the 2025 CAC Work Plan reflects the feedback and outcomes of that meeting.

ANALYSIS AND DISCUSSION:

Proposed changes to the current Work Plan include: clarifying strategies under each focus to better track progress, outcomes, and equity; revising proposed educational

presentations; further codifying compliance with required trainings and forms; deleting redundant and/or outdated areas of focus; revising areas of focus area to ensure feasibility; and including strategic planning participation as part of the Work Plan's scope.

Should the CAC move to recommend Board approval of the 2025 CAC Work Plan, the Board of Directors will consider its adoption during its January 23, 2025 regular meeting.
