I know I’m making a difference using SDCP’s clean energy.

Same! We’re helping protect our environment and create a better future for our kids. 😊

Welcome! Learn more at SDCommunityPower.org
San Diego Community Power (SDCP) is your new local provider of electricity bringing you cleaner energy at competitive rates. We put our communities first, helping you take a giant step toward a more sustainable energy future.

We are a locally managed, not-for-profit, public agency that focuses on what families need and want most when it comes to their energy.

**How It Works**

- **SDCP** Buys electricity from renewable resources
- **SDG&E** Delivers power and maintains the grid
- **YOU GET** Cleaner power, local control, and competitive rates

With your recent automatic enrollment to San Diego Community Power, we became your new electric generation service provider! We purchase renewable power, like solar and wind, and provide it to you at competitive rates.

As a new customer, you'll receive our standard service offering, **PowerOn**, which provides 50% renewable energy and is priced competitively to what you are currently paying with San Diego Gas & Electric (SDG&E). If you want to further reduce your carbon footprint from energy consumption, you can choose to upgrade to **Power100**, providing 100% renewable and carbon-free energy for a small premium. You can always choose to return to SDG&E service, but you’ll be missing out on some important benefits. With SDCP, you’re empowered to choose a cleaner future.

Please note that rooftop solar customers and other customers participating in Net Energy Metering (NEM) will be automatically enrolled at the end of their relevant period (commonly referred to as “true-up”). For more information on enrollment, please see the FAQs on our website at: SDCommunityPower.org

**Benefits that you can expect from San Diego Community Power:**

- Cleaner, renewable power at competitive prices
- Energy programs tailored to meet the needs of our communities
- Local control by local representatives who prioritize people and our communities
- Reinvestment of revenues into our community
- Support of local job creation and development of local renewable energy projects

**Terms & Conditions of Service**

San Diego Community Power electric generation rates are managed with the intention of providing cleaner electricity at competitive rates. Any changes to SDCP rates will be adopted at duly noticed public hearings of the San Diego Community Power Board of Directors. Changes to SDG&E or SDCP rates will impact cost comparisons between SDCP and SDG&E.

All SDG&E and SDCP customers pay a monthly Power Charge Indifference Adjustment (PCIA) and Franchise Fee Surcharge. The PCIA is a charge to ensure both SDG&E customers and those who have left SDG&E service to purchase electricity from other providers pay the above market costs for generation resources that were procured by SDG&E on their behalf. “Above market” refers to expenditures for electric generation resources that cannot be fully recovered through sales of these resources at current market prices. SDCP has already accounted for these after-market charges in calculating rates. View SDCP rates and SDG&E cost comparisons on our website.

**BILLING:** You will receive a single monthly bill from SDG&E that includes SDCP’s electric generation charges. SDCP’s electric generation charge replaces SDG&E’s electric generation charge. SDCP’s charge is not a duplicate charge or extra fee. SDG&E will continue to charge you for electric delivery services. If you opt-out of SDCP, SDG&E will resume charging you for electric generation.

**ENROLLMENT:** As the default electricity provider for the cities of Chula Vista, Encinitas, Imperial Beach, La Mesa, and San Diego, you were automatically enrolled into San Diego Community Power service unless you opted-out at least five business days before your meter read date during the enrollment month. Accounts were automatically enrolled in SDCP’s PowerOn on the regularly scheduled meter read date that was after the first day of the enrollment month. You may choose to opt-up to Power100, which provides 100% renewable energy service at a slight premium.

For complete Terms and Conditions of Service, please visit SDCommunityPower.org or call SDCP at 1-888-382-0169.
I know I’m making a difference using SDCP’s clean energy.

San Diego Community Power (SDCP) is your new local provider of electricity bringing you cleaner energy at competitive rates. We put our communities first, helping you take a giant step toward a more sustainable energy future. We are a locally managed, not-for-profit, public agency that focuses on what families need and want most when it comes to their energy.

How It Works

With your recent automatic enrollment to San Diego Community Power, we became your new electric generation service provider! We purchase renewable power, like solar and wind, and provide it to you at competitive rates.

In order to reduce Encinitas’ carbon footprint from energy consumption, your City Council voted to automatically enroll everyone into Power100, providing 100% renewable and carbon free energy for a small premium of up to 3%. Power100 is one of the most effective tools to help you reduce your carbon footprint. You always have the choice to enroll in our standard service, PowerOn, which provides 50% renewable energy. You can also choose to return to San Diego Gas & Electric (SDG&E) service, but you’ll be missing out on some important benefits. With SDCP, you’re empowered to choose a cleaner future.

Benefits that you can expect from San Diego Community Power:

- Cleaner, renewable power at competitive prices
- Energy programs tailored to meet the needs of our communities
- Local control by local representatives who prioritize people and our communities
- Reinvestment of revenues into our community
- Support of local job creation and development of local renewable energy projects

We are a locally managed, not-for-profit, public agency that focuses on what families need and want most when it comes to their energy.

### How It Works

**SDCP**
- Buys electricity from renewable resources
- Delivers power and maintains the grid
- **YOU GET**
  - Cleaner power, local control, and competitive rates

With the completion of your Net Energy Metering (NEM) relevant period (commonly referred to as a “true-up”), San Diego Community Power automatically became your new electric generation service provider. We purchase renewable power, like solar and wind, and provide it to you at competitive rates.

As a new customer, you’ll receive our standard service offering, PowerOn, which provides 50% renewable energy and is priced competitively to what you were paying with San Diego Gas & Electric (SDG&E). If you want to further reduce your carbon footprint from energy consumption, you can choose to upgrade to Power100, providing 100% renewable and carbon free energy for a small premium. You can always choose to return to SDG&E service, but you’ll be missing out on some important benefits.

With SDCP, you’re empowered to choose a cleaner future.

### Benefits that you can expect from San Diego Community Power:

- Cleaner, renewable power at competitive prices
- Energy programs tailored to meet the needs of our communities
- Local control by local representatives who prioritize people and our communities
- Reinvestment of revenues into our community
- Support of local job creation and development of local renewable energy projects

As a customer with onsite generation, you will be automatically enrolled into our Net Energy Metering (NEM) program that functions almost identically to that of SDG&E’s but with a few key differences that make our program better:

- Same rate schedules and accrual of credits
- Monthly billing to reduce a large annual true-up bill
- Premium Net Surplus Compensation for customers that generate extra electricity every year
- Automatic checks to customers that have a compensation amount over $100, up to $2,500
- Carry over of compensation credits if less than $100

**Terms & Conditions of Service**

San Diego Community Power electric generation rates are managed with the intention of providing cleaner electricity at competitive rates. Any changes to SDCP rates will be adopted at duly noticed public hearings of the San Diego Community Power Board of Directors. Changes to SDG&E or SDP rates will impact cost comparisons between SDCP and SDG&E.

As SDG&E and SDCP customers pay a monthly Power Charge Indifference Adjustment (PCIA) and Franchise Fee Surcharge. The PCIA is a charge to ensure both SDG&E customers and those who have left SDG&E service to purchase electricity from other providers pay the above market costs for generation resources that were procured by SDG&E on their behalf. “Above market” refers to expenditures for electric generation resources that cannot be fully recovered through sales of these resources at current market prices. SDCP has already accounted for these after-market charges in calculating rates. View SDCP rates and SDG&E cost comparisons on our website.

Note: Only Net Energy Metering (NEM) accounts current true-up dates are enrolled. Other NEM accounts will enroll at their true-up date.

Non-NEM residential accounts in Encinitas will begin enrollment starting in April 2022. For more information on enrollment, please see the FAQs on our website: SDCommunityPower.org.
