No. 22-002

For Government Affairs Services

Issue Date: March 11, 2022

Proposal Submission Deadline: April 4, 2022

Summary

San Diego Community Power (“SDCP”) is the new community choice aggregator, which is a type of electricity provider, for the Cities of Chula Vista, Encinitas, Imperial Beach, La Mesa, National City, and San Diego and the County of San Diego which serves the unincorporated area (collectively, “member agencies”). SDP’s Joint Powers Agreement (“JPA”) is the first in California to explicitly state that it will reach 100 percent renewable energy availability and usage by no later than 2035 and beyond, in advance of current State targets. Five original member cities formed SDP to achieve this and other goals collaboratively and with greater regional impact. SDP began service in 2021 and will complete enrolling customers from the five original cities by the middle of 2022 and unincorporated San Diego County and National City by 2023. This enrollment will cover approximately 960,000 customer accounts. For more information, please visit SDP’s website at www.sdcommunitypower.org.

Through this Request for Proposals (“RFP”), SDP is seeking proposals from firms to provide government relations and lobbying services in order to assist SDP to: (1) build relationships with state elected and appointed officials; (2) advance SDP legislative priorities in **Attachment C** (SDP Interim Policy Platform); and (3) provide political communication and coalition support. A complete list of the scope of services needed is provided in **Attachment A** (Scope of Services). SDP expects the work to commence on or about **May 1, 2022** through **April 30, 2023** with the potential for SDP to renew the contract at SDP’s sole discretion.

Evaluation Criteria
Proposer’s qualifications and experience.
Demonstration of successful lobbying efforts.
Proposer’s approach to the services requested in Attachment A .
Fees and/or compensation Proposer may seek from SDCP.

Following the initial evaluation, SDCP may select one particular Proposer or select a number of Proposers (with or without interviews); or conduct interviews with a “short list” of Proposers, consisting of those Proposers reasonably likely, in the opinion of SDCP, to be awarded the contract. Any interview may include discussions about services offered, conflicts of interests with other clients, or fees/compensation amount or structure. Interviews may take place through written correspondence, telephone or video conference, and/or face-to-face interviews, at SDCP’s sole discretion.

SDCP reserves the right to not convene interviews or discussions, and to make an award on the basis of initial proposals received. References may be contacted at any point in the evaluation process.

After a Proposer(s) has been selected, SDCP will negotiate a contract for execution. If a satisfactory contract cannot be negotiated, SDCP may, at its sole discretion, begin contract negotiations with the next qualified Proposer who submitted a proposal, as determined by SDCP. Proposers are further notified that SDCP may disqualify any Proposer with whom SDCP cannot satisfactorily negotiate a contract.

Reservation of Rights

This RFP is a solicitation for proposals only and is not intended as an offer to enter into a contract or as a promise to engage in any formal competitive bidding or negotiations. SDCP may, at its sole discretion, accept or reject any or all proposals submitted in response to this RFP. In addition, SDCP may, at its sole discretion, only elect to proceed with contract negotiations for some of the services included in the proposal. SDCP further reserves the right to cancel this RFP at any time prior to contract award without obligation in any manner for proposal preparation, interview, fee negotiation or other marketing costs associated with this RFP. SDCP also reserves the right to waive minor errors and omissions or inconsequential disparities in proposals, request additional information or revisions to offers, and to negotiate with any or all Proposers.

SDCP shall not be liable for any costs incurred by the Proposer in connection with the preparation and submission of any proposal. SDCP has the right to amend the RFP, in whole or in part, by written addendum, at any time. SDCP is responsible only for that which is expressly stated in the solicitation document and any authorized written addenda. Such addendum shall be made available to each person or organization which SDCP records indicate has received this RFP. Should such addendum require additional information not previously requested, failure to address the requirements of such addendum may result in the proposal being found non-responsive and not being considered, as determined in the sole discretion of SDCP. SDCP is not responsible for and shall not be bound by any representations otherwise made by any individual acting or purporting to act on its behalf prior to an award of contract by SDCP. SDCP has the right to reissue the RFP at a future date.

Confidentiality and Public Records

Proposals submitted in response to this RFP shall become the exclusive property of SDCP. SDCP is subject to the California Public Records Act ("CPRA"). The proposal will become a matter of public record when contract negotiations are complete and when an agreement is executed by SDCP. Exceptions to disclosure may be available to those parts or portions of proposals that are justifiably and reasonably exempted under the CPRA, such as trade secrets. If a Proposer desires to exclude a portion of its proposal from disclosure under the California Public Records Act, the Proposer must mark it as such and state the specific provision in the California Public Records Act that provides the exemption as well as the factual basis for claiming the exemption. A blanket statement of confidentiality or the marking of each page of the proposal as confidential shall not be deemed sufficient notice of a CPRA exemption. A Proposer who indiscriminately and without justification identifies most or all of its proposal as exempt from disclosure or submits a redacted copy may be deemed non-responsive.

Although the CPRA recognizes that certain confidential information or other exempt records may be protected from disclosure, SDCP is not in a position to establish that the information that a Proposer submits is exempt. If a request is made for information marked "Confidential," SDCP will

provide Proposers who submitted the information with reasonable notice to seek protection from disclosure by a court of competent jurisdiction.

SDCP shall not, in any way, be liable or responsible for any resulting disclosure of any such record or any parts thereof pursuant to the CPRA or otherwise by law.

Conflicts of Interest

SDCP is governed by the Political Reform Act, Government Code Section 1090, Government Code Section 84308, and other requirements governing conflicts of interest, campaign contributions, and gifts. Proposers are required to review all applicable conflict of interest laws. In addition, SDCP has adopted policies governing procurement. Proposers are advised to review all policies, including the Procurement Policy, available at: <https://sdcommunitypower.org/resources/key-documents/>.

The Proposer may not contact or receive information outside of this RFP process. If it is discovered that the Proposer contacted and received information from anyone other than the email address specified above and under the process specified herein regarding this solicitation, SDCP may, in its sole discretion, disqualify the proposal from further consideration.

All contact regarding this RFP or any matter relating thereto must be in writing and emailed to lfernandez@sdcommunitypower.org.

Supplier Diversity

General Order 156 (GO 156) is a California Public Utilities Commission ruling that requires utility entities to procure at least 21.5% of their contracts with majority women-owned, minority-owned, disabled veteran-owned and LGBT-owned business enterprises' ("WMDVLGBTBEs") in all categories. Qualified businesses become GO 156 certified through the CPUC and are then added to the GO 156 Clearinghouse database.

The CPUC Clearinghouse can be found here: www.thesupplierclearinghouse.com. While SDCP is not legally required to comply with GO 156, SDCP's policies and commitment to diversity are consistent with the principles of GO 156, and therefore, respondents to this RFP are asked to voluntarily disclose their GO 156 certification status as well as their efforts to work with diverse business enterprises, including those owned or operated by women ("WBE"), minorities ("MBE"), disabled veterans ("DVBE"), and lesbian, gay, bisexual, or transgender people ("LGBTBE").

SDCP, as a public agency and consistent with state law, will not use any such provided information in any part of its decision-making or selection process. Rather, SDCP will use that information solely to help evaluate how well it is conforming to its own policies and goals.

Pursuant to California Proposition 209, SDCP does not give preferential treatment based on race, sex, color, ethnicity, or national origin.

Non-Discrimination

SDCP will not discriminate and will require their contractors to not discriminate on the basis of race, gender expression, gender identity, religion, national origin, ethnicity, sexual orientation, age, or disability in the solicitation, selection, hiring, or treatment of subcontractors, vendors, or suppliers. The successful firm shall provide equal opportunity for subcontractors to participate in subcontracting opportunities.

ATTACHMENT C SDCP INTERIM LEGISLATIVE POLICY PLATFORM

Overview and Purpose

San Diego Community Power’s (SDCP) Legislative Policy Platform (Platform) serves as a guide to the SDCP Board of Directors and SDCP staff in their advocacy efforts and engagement on policy matters of interest to SDCP. The Platform allows both Board members and staff to pursue actions at the local, regional, state and federal legislative levels in a consistent manner and with the understanding that they are pursuing actions in the best interest of the organization and its mission, its member agencies, and its customers. The Platform enables the organization to move swiftly to respond to issues before Legislature and Executive Branch agencies including California Public Utilities Commission (CPUC), the California Energy Commission (CEC), California Independent System Operator (CAISO), and the California Air Resources Board (CARB) so that SDCP’s views can be heard on important matters in a timely fashion. This Platform is applicable to statewide referenda, grant funding opportunities, and local ballot initiatives. The Platform provides guidance to the Chief Executive Officer on support or oppose positions that should be taken on legislative matters identified by the SDCP Director of Regulatory and Legislative Affairs and the California Community Choice Association (CalCCA) Board of Directors.

The Platform outlines the legislative priorities and stances of SDCP with the intent to inform customers, representatives, and policymakers on the myriad of public policies that intersect with SDCP’s priorities, programs, and services.

SDCP has three major legislative priorities:

1. Accelerating Deep Decarbonization, including electrification of buildings and the transportation sector.
2. Promoting Local Development, and
3. Stabilizing Community Choice.

SDCP support of legislation will be contingent upon that legislation adhering to these legislative priorities as well as SDCP’s organizational goals and priorities. Moreover, SDCP supports any and all policies that will preserve or enhance the ability of SDCP to promote these priorities at the local level.

Any questions regarding this Platform can be directed to Laura Fernandez, Director of Regulatory and Legislative Affairs, at lfernandez@sdcommunitypower.org.

General Legislative Principles

SDCP has three general legislative principles. These priorities serve as the foundation for all actions SDCP will take, including the lobbying for policies that promote those same guiding priorities. Public policy encompasses a myriad of subject and topic areas. However, as these policies intersect at the local level, they have the ability to impact SDCP revenues, programs, and/or administrative discretion and control. SDCP will support policies that accelerate deep decarbonization, promote local development, stabilize community choice, or any combination thereof. If a given policy does not meet these criteria, SDCP will oppose, support with amendments, or in some cases take no stance on that policy or legislation. The General Legislative Principles for SDCP are:

Accelerating Deep Decarbonization

- Support the creation or expansion of federal, state, and local policies, programs and funding that enable SDCP to provide 100% renewable energy by 2035 or sooner to customers within its service territory as well as contribute to the State’s efforts to reduce greenhouse gas emissions, including through building electrification and transportation electrification
- Oppose any legislation, policies, programs, referenda, unfunded mandates and budgets that would have an adverse impact on SDCP’s ability to advance decarbonization through its procurement, programs, projects, and services.

Promoting Local Development

- Support any legislation, policy, funding, referenda, and budgets that enhance community choice energy providers’ ability to invest in local clean energy, distributed energy resources, grid resiliency, zero-emission transportation, all while promoting equity in the communities that it serves.
- Oppose any legislation, policy, funding, referenda, and budgets that limit or undermine SDCP’s ability to invest in local clean energy, distributed energy resources, zero-emission transportation, all while promoting equity in the communities that it serves.

Stabilizing Community Choice

- Support any legislation, policies, funding, referenda, and budgets that maintain or improve the stability of community choice energy providers by ensuring regulatory structure is equitable and enables Community Choice Aggregators (CCAs) to meet their mission and goals. Maintaining local decision-making authority, including rate-setting authority and procurement of energy, is a key pillar for this stability.
- Oppose any legislation, policies, funding, referenda, and budgets that undermine or circumvent CCAs and impede the ability of SDCP to achieve its mission and goals or its value proposition.

The list of policy positions below is by no means exhaustive. In addition to the general legislative priorities, SDCP takes the following more specific public policy positions:

- I. Governance and Authority**
 - a. Oppose legislation that limits the local decision-making authority for CCAs, including rate-setting authority and procurement of energy and capacity to serve their customers.
 - b. Oppose legislation that limits SDCP's ability to effectively serve its customers.
 - c. Support legislation that makes it easier for other cities and counties that are not served by a publicly owned utility to form a CCA, become members of SDCP or other CCAs, and oppose legislation that restricts that ability.
- II. Deep Decarbonization**
 - a. Advocate for and support legislative efforts to accelerate deep decarbonization of the energy sector, transportation and the built environment.
 - b. Advocate for and support legislative efforts to support and expand access to transportation and building electrification.
 - c. Advocate for and support efforts to ensure flexibility in program design so that local data and local needs directly inform program offerings.
 - d. Support state funding for electric vehicle infrastructure grant programs.
 - e. Advocate for and support legislative efforts to provide incentives to support communities of concern achieving deep decarbonization.
- III. Environmental Justice**
 - a. Support legislation that supports the ability of communities of concern in the SDCP service area to have affordable, reliable and clean energy.
 - b. Support legislation that strengthens the resilience of vulnerable communities to the impacts of climate change.
 - c. Support legislation that enables all communities, including emerging and historically marginalized communities in California, to participate in deep decarbonization efforts.
 - d. Support legislation and initiatives that would reduce local air pollution, reduce other negative local impacts associated with energy production, and boost adoption of distributed energy resources within communities of concern.
 - e. Oppose legislation and initiatives that have the potential to disproportionately and negatively impact communities of concern.
- IV. Environmental Sustainability**
 - a. Support legislation and initiatives that increase funding for the creation of sustainable and stable energy supply infrastructure.
 - b. Support legislation and initiatives that encourage the conservation of energy resources as well as the development of dynamic load-shifting capabilities.

- c. Support legislation and funding for renewable and advanced energy technology that increase efficient consumption.
- d. Support legislation and funding for pilot energy and resource efficiency programs.
- e. Support legislation and initiatives with the goal of reducing and mitigating the effects of climate change and building local resiliency.

V. Investor-Owned Utility (IOU) Charges and Exit Fees - Power Charge Indifference Adjustment (PCIA)

- a. Support efforts that seek to eliminate exit fees including the PCIA or wind down exit fees within a reasonable time frame.
- b. Support efforts to minimize the cost of the PCIA generally and minimize its impact on SDCP's rates.
- c. Support CalCCA efforts to increase the transparency of IOU electricity contracts that provide the basis for PCIA charges.
- d. Support legislation that would bring stability to the PCIA and/or provide new mechanisms for CCAs to securitize PCIA charges.
- e. Support legislation that advances ratepayer equity.
- f. Oppose legislation that would increase or expand exit fees on CCA customers.

VI. Resource Adequacy

- a. Support legislation by CalCCA to implement the recommendations from Working Group 3 via statute.
- b. Oppose legislation that would supplant CCAs' procurement authority for Resource Adequacy.
- c. Support reform of the CPUC Resource Adequacy program to allow for stability in the resource adequacy value of existing resources.
- d. Advocate for and support efforts to remove barriers to demand response, microgrids and behind the meter resources to provide Resource Adequacy.

VII. Nonbypassable Charges

- a. Oppose legislation that restricts or limits SDCP's ability to procure its own energy products to meet state policy goals.
- b. Support legislation that promotes a level playing field between CCAs and other market participants.
- c. Support legislation that enhances the flexibility of CCA programs to support statewide procurement policy and develop and expand programs, local options, and rate design to support SDCP's community and customers.

VIII. Community Resilience

- a. Advocate for and support funding for programs implemented by CCAs and their member jurisdictions to increase community resilience to wildfires, public safety power shutoff (PSPS) events and other potential service disruptions.
- b. Support legislation that reduces barriers to microgrid development by CCAs.

- c. Oppose legislation that would enable IOUs to be the only developer of microgrids.
- d. Support legislation that increases development of community-level resources and distributed energy resources that increase resilience and reduce the need for new transmission and distribution infrastructure.

IX. Local Economic Development

- a. Support legislation that is consistent with SDCP's commitment to an inclusive and sustainable workforce.
- b. Support legislation that enhances opportunities for CCAs to promote local economic development through locally designed programs that meet the unique needs of their member agencies, communities, and customers.
- c. Support efforts to enhance development of local and regional sources of renewable energy.
- d. Support legislation that enables CCAs to collaborate with their member jurisdictions on local energy resources and projects to advance environmental objectives.
- e. Advocate for and support efforts to direct federal economic stimulus/recovery funding to CCAs to deliver local energy resources and projects, as appropriate.

X. California Energy Market Structure

- a. Oppose legislation that expands direct access or the ability or economic incentives for electric service providers to selectively recruit CCA or IOU customers.
- b. Support legislation that would create renewable content and environmental standards for electric service providers to match the products offered by CCAs.
- c. Support legislation that changes California's market structures towards innovative models that reduce costs of energy service and support the expansion of carbon-free resources.
- d. Support legislation that advocates for equitable and timely data access/sharing between the IOUs, CCAs and other LSEs to support accurate and timely load forecasts, which aid in overall statewide grid reliability and resiliency efforts.

XI. Finance

- a. Support legislation that enhances the financial standing of CCAs and their ability to receive a positive credit rating.
- b. Oppose legislation that reduces or removes the tax-exempt status of municipal bonds.
- c. Oppose any legislation that would divert CCA revenues to the State or other governmental entities.

XII. Educational, Neighborhood and Social Services

- a. Support legislation that aids or helps to fund SDCP to provide energy support services, education, and opportunities for reducing energy costs to people who are low-income, seniors, veterans, and/or people with disabilities.
- b. Support legislation and initiatives that increase funding for energy efficiency, demand response, solar plus storage, and transportation electrification programs, and energy literacy services.

SDCP reserves the right to require complete, certified copies of all required insurance policies, at any time.
