

## San Diego Community Power

### **100 Percent Renewable Energy by 2035 Policy**

Effective Date: March 23, 2023  
Adopted by Resolution 2023-03

#### **PURPOSE**

It is the intent of this policy to firmly commit San Diego Community Power (“SDCP”) to achieving 100 percent renewable energy by 2035.

#### **POLICY**

##### **1. Commitment to 100 Percent Renewable Energy by 2035.**

Pursuant to Resolution 2023-002, the SDCP Board of Directors hereby establishes SDCP’s firm commitment to achieve 100 percent renewable energy by 2035.

##### **2. Chief Executive Officer Implementation.**

The Chief Executive Officer (“CEO”) shall take all operational actions necessary, within the CEO’s delegated authority, to achieve 100 percent renewable energy by 2035.

##### **3. Annual Review.**

On an annual basis, SDCP shall at a regular meeting of the SDCP Board of Directors review progress towards 100 percent renewable energy by 2035 and other relevant information. At that time, the SDCP Board of Directors may also review market conditions to determine whether this policy should be modified in light of financial or ratepayer implications.
