B. Senate Bill 1305 was adopted in 1997 establishing an Electricity Generation Source Disclosure Program (“Power Source Disclosure Program”), which requires retail sellers of electricity to disclose to their customers each year the sources of electricity delivered to customers in the previous year and to annually submit a Power Source Disclosure Program report to the California Energy Commission (“CEC”).

E. SDCP staff and consultants performed a detailed review of all power purchases completed for the 2023 calendar year, including an inventory of all renewable energy transfers within SDCP’s Western Renewable Energy Generation Information System account and transaction records.

F. Pursuant to California Code of Regulations section 1394.2, the SDCP Board of Directors is required to attest to the veracity of the 2023 annual report.

G. The SDCP Board of Directors held a public meeting on November 21, 2024, to consider approval and attestation of the veracity of the 2023 Power Source Disclosure Annual Report for the PowerOn and Power100 products and the 2023 Power Content Label.
