### Percentage of Retail Sales Covered by Retired Unbundled RECs

1. The eligible renewable percentage above does not reflect RPS compliance, which is determined using a different methodology.
2. Unspecified power is electricity that has been purchased through open market transactions and is not traceable to a specific generation source.
3. Renewable energy credits (RECs) are tracking instruments issued for renewable generation. Unbundled renewable energy credits (RECs) represent renewable generation that was not delivered to serve retail sales. Unbundled RECs are not reflected in the power mix or GHG emissions intensities above.

#### Powering a clean, affordable energy future

San Diego Community Power is your local provider of cleaner electricity at competitive rates. We are a locally run, not-for-profit public agency that invests in our customers to create an equitable and sustainable future for the San Diego region.

### How It Works

- **SDCP**: Buys electricity from renewable sources
- **SDG&E**: Delivers power and maintains the grid
- **You**: Cleaner power, local control and competitive rates

At SDCP we put our communities first through programs and customer education to help you take a giant step toward a more sustainable energy future.
San Diego Community Power is here with tips to help manage energy use during high heat so you can stay cool, reduce demand on the power grid, stay safe and spend less on your energy bill.

**Before 4 pm**
- **Pre-cool** your home by turning your A/C down to 72 degrees.
- Charge electric vehicles
- Charge mobile devices and laptops
- Run dishwashers, washing machines and other major appliances
- Set pool pumps to run in the early morning or late at night
- Close blinds and drapes

**Between 4 pm and 9 pm**
- Set your A/C to 78 degrees, if health permits
- Avoid using major appliances
- Turn off unnecessary lights
- Unplug unused electrical devices
- Use fans when possible
- Limit time the refrigerator door is open

As your local electricity provider, San Diego Community Power exists to serve you with reliable energy from renewable sources.

We are focused on what families need and want most when it comes to their energy – whether that is saving money, conserving energy or learning about new ways to reduce your carbon footprint.

From drying your clothes to heating your bathwater, our homes use a lot of energy. Here are just some of the helpful resources on our website at SDCommunityPower.org:

- Energy bill explainers and tools
- Bill and payment assistance
- Customer education center
- Frequently asked questions
