**Narrative Reporting Element for
San Diego Community Power's (SDCP) 2023 RPS Compliance Report**

Pursuant to Public Utilities Code Section 399.13(a)(3), each retail seller must include the following narrative information in each Annual Compliance Report and in the Final Compliance Report for each compliance period:

- 1) The status of any necessary siting and permitting approvals from federal, state, and local agencies for those eligible renewable energy resources procured by the retail seller that have not yet attained their commercial online dates. If the retail seller is not awaiting siting or permitting approvals [sic], please skip this question.

The status and permit information for all eight renewable energy resources under contract with SDCP that have yet to achieve COD are listed below.

Facility	Technology	MW-ac	Location	Status
Vikings Energy Farm	Solar + Storage	136.8 + 145.5/582	Imperial, CA	
Arrowleaf Solar and Storage	Solar + Storage	42 + 35/140	Imperial, CA	
Yellow Pine III	Solar + Storage	35 + 35/140	Clark County, NV	
JVR Energy Park	Solar + Storage	90 + 70/280	San Diego, CA	
Vidal	Solar + Storage	160 + 160/640	San Bernadino, CA	
SunZia	Wind	150	New Mexico	

Pelican's Jaw	Solar + Storage	440 + 238.5/954	Kern County, CA	
Purple Sage Energy Center	Solar + Storage	400 + 400 /1600	Clark County, NV	

- 2) Recommendations to remove impediments to making progress toward achieving the renewable energy resources procurement requirements established by statute and implemented by Commission decision.

SDCP understands the importance of reporting timely and accurate contract data to the Commission to ensure load serving entities are making progress toward achieving state goals. As such, SDCP encourages the Commission to streamline and consolidate reporting requirements where possible to reduce the administrative burden for both reporting entities and Commission staff. SDCP recommends the Commission consider leveraging secure web-based portals and databases to promote efficiencies across compliance reporting and other reporting requirements while also removing silos from data insights.
