Narrative Reporting Element for San Diego Community Power's (SDCP) 2022 RPS Compliance Report

Pursuant to Public Utilities Code Section 399.13(a)(3), each retail seller must include the following narrative information in each Annual Compliance Report and in the Final Compliance Report for each compliance period:

- 1) The status of any necessary siting and permitting approvals from federal, state, and local agencies for those eligible renewable energy resources procured by the retail seller that have not yet attained their commercial online dates. If the retail seller is not awaiting siting or permitting approvals [sic], please skip this question.

All four renewable energy resources under contract with SDCP that have yet to achieve COD (listed below) have secured all necessary land use permits. SDCP notes that the JVR Energy Park permit is currently subject to CEQA-related litigation. The status and permit information are listed below.

Facility	Technology	MW-ac	Location	Status
Vikings Energy Farm	Solar + Storage	136.8 + 145.5/582	Imperial, CA	Expected COD: 9/1/2024. (4/1/2024 BESS). Permitting complete. Construction start date achieved.
Arrowleaf Solar and Storage	Solar + Storage	42 + 35/140	Imperial, CA	Expected COD: 4/15/2025 All necessary land use permits secured.
Yellow Pine III	Solar + Storage	35 + 35/140	Clark County, NV	Expected COD: 10/1/2025 (6/1/2025 BESS). All necessary land use permits secured.
JVR Energy Park	Solar + Storage	90 + 70/280	San Diego, CA	Expected COD: 10/31/2026 Major use permit subject to CEQA litigation.

- 2) Recommendations to remove impediments to making progress toward achieving the renewable energy resources procurement requirements established by statute and implemented by Commission decision.

SDCP understands the importance of reporting timely and accurate contract data to the Commission to ensure load serving entities are making progress toward achieving state goals. As such, SDCP encourages the Commission to streamline and consolidate reporting requirements where possible to reduce the administrative burden for both reporting entities and Commission staff. SDCP recommends the Commission consider leveraging secure web-based portals and

databases to promote efficiencies across compliance reporting and other reporting requirements while also removing silos from data insights.
