- (ix) The Assigned Product supplied to Purchaser under this Agreement that is Long-Term PCC1 Product will be sourced solely from Applicable Projects that have an Assignment Period of ten years or

more in length, or otherwise in compliance with the California Long Term Contracting Requirements; and

- (x) Issuer will cooperate and work with Purchaser, the CEC, and/or the CPUC to provide any documentation required by the CPUC or CEC to support the Product's classification as a Portfolio Content Category 1 Product or Portfolio Content Category 2 Product, as applicable, as set forth in California Public Utilities Code Section 399.16(b)(1) or 399.16(b)(2), as applicable, or compliance with the California Long-Term Contracting Requirements, if applicable.

Issuer further represents and warrants to Purchaser that, to the extent that the PCC1 Product sold by Issuer is a resale of part or all of a contract between Issuer and one or more third parties, Issuer represents, warrants and covenants that the resale complies with the following conditions in (i) through (iv) below during the Assignment Period and throughout the generation period:

- (i) The original upstream third-party contract(s) meets the criteria of California Public Utilities Code Section 399.16(b)(1);
- (ii) This Agreement transfers only electricity and RECs that have not yet been generated prior to the Assignment Period;
- (iii) The electricity transferred by this Agreement is transferred to Purchaser in real time; and
- (iv) If the Applicable Project has an agreement to dynamically transfer electricity to a California balancing authority, the transactions implemented under this Agreement are not contrary to any condition imposed by a balancing authority participating in the dynamic transfer arrangement.

Issuer further represents and warrants to Purchaser that, to the extent that the PCC2 Product sold by Issuer is a resale of part or all of a contract between Issuer and one or more third parties, Issuer represents, warrants and covenants that the resale complies with the following conditions in (i) through (v) below during the Assignment Period and throughout the generation period:

- (i) The original upstream third-party contract(s) meets the criteria of California Public Utilities Code Section 399.16(b)(2);
- (ii) this Agreement transfers only electricity and RECs that have not yet been generated prior to the Assignment Period;
- (iii) this Agreement transfers the original arrangement for substitute electricity (e.g., source and quantity);

(iv) this Agreement retains the scheduling of the substitute electricity into a California balancing authority as set out in the original firming and shaping transaction; and

(v) this Agreement continues to provide incremental.

(f) Subsequent Changes in Law. In the event that the qualifications or requirements of the RPS program, PCC1 Product, PCC2 Product or the California Long-Term Contracting Requirements change, Issuer shall take commercially reasonable actions to meet the amended qualifications or requirements of the RPS Law, PCC1 Product, PCC2 Product or the California Long-Term Contracting Requirements but will not be required to incur any unreimbursed costs to comply with the RPS Law, PCC1, PCC2 Product or the California Long-Term Contracting Requirements, collectively.

(g) Limitations. Notwithstanding anything to the contrary in this Agreement, the Parties acknowledge and agree as follows:

(i) Issuer has relied exclusively upon the representations and warranties of each respective APC Party set forth in the Assigned PPAs in making the representations and warranties set forth in this Section 5.4 and has not performed any independent investigation with respect thereto;

(ii) J. Aron has agreed pursuant to the Electricity Sale and Service Agreement to terminate the applicable Assignment Period in the event that any representation or warranty in this Section 5.4 proves to be incorrect in any respect; and

(iii) Purchaser agrees that its sole recourse for any breach of the provisions of this Section 5.4 shall be the termination of the applicable Assignment Period and Purchaser shall have no other recourse against Issuer or remedies under this Agreement.

Section 5.5 Communications Protocol. With respect to the Scheduling and delivery of Base Quantities, Issuer and Purchaser shall comply with the communications protocol set forth in Exhibit G. Scheduling and transmission of Assigned Energy shall be in accordance with the applicable Assignment Agreement pursuant to which the Purchaser shall act as scheduling agent for each of J. Aron, Prepay LLC and Issuer.

Section 5.6 Deliveries within CAISO or another Balancing Authority. The Parties acknowledge that Energy delivered by Issuer at a Delivery Point within CAISO or another Balancing Authority (including a Balancing Authority operating within the Western EIM) will be delivered in accordance with the CAISO Tariff and rules of the Balancing Authority as applicable. Scheduling such Energy in accordance with the requirements of the applicable Product into the applicable Balancing Authority shall constitute delivery of such Product to Purchaser hereunder,

provided that any associated Renewable Energy Credits and other Assigned Product are also delivered to Purchaser.

Section 5.7 Assigned Products. Issuer shall have no liability under this Article V with respect to any Assigned Products.

ARTICLE VI.

ASSIGNMENT OF POWER PURCHASE AGREEMENTS

Section 6.1 Assignments Generally.

(a) Initial Assignments. Prior to the commencement of the Delivery Period, Purchaser agrees to exercise Commercially Reasonable Efforts to assign the Assigned Rights and Obligations to J. Aron sufficient to reduce the Base Quantity to zero. [For the avoidance of doubt, this provision is only applicable to the Other Clean Energy Purchase Contract.]

(b) Assignments of Replacement Assigned Rights and Obligations. Commencing (i) one year prior to the expiration of any EPS Energy Period or (ii) otherwise immediately upon the early termination or anticipated early termination of a EPS Energy Period or a failure at any time to assign sufficient Assigned Rights and Obligations to reduce the Base Quantities to zero for any Month in the upcoming 12 Months, Purchaser shall exercise Commercially Reasonable Efforts and cooperate with J. Aron in good faith to assign a portion of Purchaser's rights and obligations (the "Assigned Rights and Obligations") under one or more power purchase agreements (each such agreement, an "Assignable Power Contract") pursuant to which Purchaser is purchasing EPS Compliant Energy, RECs and other products that may be assigned pursuant to Exhibit F. The Parties recognize that, in the case of such an assignment, J. Aron will be obligated to sell and deliver Assigned Product it receives under all Assigned Rights and Obligations to Prepay LLC under the terms of the Electricity Sale and Service Agreement, and Prepay LLC will be obligated to deliver such Product to Issuer under the terms of the Master Power Supply Agreement. To be effective hereunder, any assignment of replacement Assigned Rights and Obligations must be proposed, agreed and consented to in accordance with Exhibit F and the Master Power Supply Agreement.

(c) J. Aron Procurement of EPS Compliant Energy. Under certain circumstances specified in Section 6.1(c) of the Electricity Sale and Service Agreement, J. Aron is obligated to exercise Commercially Reasonable Efforts to obtain EPS Compliant Energy for ultimate redelivery to Purchaser hereunder, and, in such case, Purchaser shall cooperate in good faith with J. Aron in connection therewith, provided that:

(i) J. Aron's procurement of any such EPS Compliant Energy for ultimate redelivery hereunder shall be subject to Purchaser's prior written consent, with such consent not to be unreasonably withheld, provided, for the avoidance of doubt, that it shall be reasonable for Purchaser to withhold its consent based on the requirements of the EPS or other regulatory requirements;

(ii) Issuer and Purchaser shall act in good faith and in a Commercially Reasonable manner to negotiate appropriate amendments to this Agreement to facilitate the delivery of such EPS Compliant Energy, including with respect to the Delivery Point, consequences of failing to deliver or receive and scheduling matters;

(iii) the period of delivery for any such EPS Compliant Energy (any such period, a "J. Aron EPS Energy Period") shall not exceed the length, as applicable, of (A) the then-current Reset Period if such EPS Compliant Energy is obtained for delivery for the remainder of a Reset Period and (B) the length of the next succeeding Reset Period if such EPS Compliant Energy is obtained for delivery commencing in such succeeding Reset Period; and

(iv) during a J. Aron EPS Energy Period, if requested by J. Aron, Purchaser shall continue to exercise Commercially Reasonable Efforts and cooperate with J. Aron in good faith to assign Assigned Rights and Obligations to J. Aron under an Assignable Power Contract.

(d) Amendments. Purchaser and Issuer agree to seek the written consent of J. Aron prior to any amendment to this Article VI or Exhibit F hereto.

Section 6.2 Failure to Obtain EPS Compliant Energy. To the extent an EPS Energy Period terminates or expires and Purchaser and J. Aron have been unable to obtain EPS Compliant Energy for delivery hereunder pursuant to the provisions of Section 6.1, then, until EPS Compliant Energy is obtained for delivery hereunder, Prepay LLC shall remarket Purchaser's Base Quantities pursuant to the provisions of Exhibit C to the Master Power Supply Agreement, subject to the following:

(a) Purchaser's and J. Aron's obligations set forth in Section 6.1 shall continue to apply; and

(b) Purchaser shall not make any new commitment to purchase Priority Products during such a remarketing.

Section 6.3 Adjustments to Base Quantities. Effective upon the first day of the third Month following the early termination of an EPS Energy Period for any reason, Issuer shall revise Exhibits A-1 and A-2 to (a) update the Base Quantity Reductions as provided in Exhibit F to the extent a subsequent EPS Energy Period will commence on such date or (b) reverse such Base

Quantity Reductions associated with the EPS Energy Period that terminated for all remaining Hours in the Delivery Period to the extent a replacement EPS Energy Period will not commence on such date. In the case of any other commencement of a subsequent EPS Energy Period, Issuer shall revise (i) the Base Quantity Reductions in Exhibit A-1 as provided by Exhibit F hereto and (ii) Exhibit A-2 to reflect the details for such EPS Energy Period.

Section 6.4 J. Aron Non-Payment to APC Party. To the extent that (a) J. Aron fails to pay when due any J. Aron Prepay Payment and (b) Purchaser makes a payment for such amounts to the applicable APC Party, Purchaser shall provide notice thereof to Issuer upon Purchaser's payment to the applicable APC Party and Issuer shall make a payment to Purchaser in the amount of such non-payment.

Section 6.5 Relevant Agreement for Assignments. The Parties acknowledge and agree that (x) the terms of this Article VI shall only apply under [the Other Clean Energy Purchase Contract and not under this Agreement]/[this Agreement and not under the Other Clean Energy Purchase Contract] and (y) any assignment of Assigned Rights and Obligations in connection with the Clean Energy Project shall occur only under [the Other Clean Energy Purchase Contract]/[this Agreement].

ARTICLE VII.

USE OF PRODUCT

Section 7.1 Tax Exempt Status of the Bonds. Purchaser acknowledges that the Bonds will be issued with the intention that the interest thereon will be exempt from federal taxes under Section 103 of the Code. Accordingly, Purchaser agrees that it will (a) provide such information with respect to its community choice aggregation program as may be requested by Issuer in order to establish the tax-exempt status of the Bonds, and (b) act in accordance with such written instructions as Issuer may provide from time to time in order to maintain the tax-exempt status of the Bonds. Purchaser further agrees that it will not at any time take any action, or fail to take any action, that, if taken or omitted, respectively, would adversely affect the tax-exempt status of the Bonds.

Section 7.2 Priority Products. Purchaser agrees to purchase and receive the Products to be delivered under this Agreement (a) in priority over and in preference to all other Products available to Purchaser that are not Priority Products; and (b) on at least a pari passu and non-discriminatory basis with other Priority Products.

Section 7.3 Assistance with Sales to Third Parties. If (a) (i) a quantity of Assigned Product less than the Annual Quantity is delivered hereunder in any Contract Year for any reason other than Force Majeure or (ii) an Assigned PPA FM Remarketing Event has occurred and is in effect (as defined in Exhibit F to the Master Power Supply Agreement), [(b) Issuer is required under Section 3.3 to cause Base Quantities that otherwise would be delivered hereunder to be

remarketed]⁴ or (c) notwithstanding Purchaser's compliance with Section 7.1, Purchaser does not require all or any portion of the Monthly Projected Quantity to meet its requirements for Energy that it is obligated to purchase under this Agreement as a result of (i) insufficient demand by Purchaser's retail customers or (ii) a change in Law, Purchaser may, with reasonable notice issued in the form of a remarketing notice in accordance with Exhibit G, request (and, in the case of clauses (a) and (b), shall be deemed to request) that the Delivering Entity, as permitted by the Master Power Supply Agreement, sell such portion of such Base Quantities or Monthly Projected Quantity (I) to another Municipal Utility, or (II) if necessary, to another purchaser. Any remarketing notice issued under clause (c)(ii) above shall constitute a Structural Remarketing Notice (as defined in the Master Power Supply Agreement) and shall be subject to the requirements set forth in the Master Power Supply Agreement. If the Remarketing Entity makes such a sale under Exhibit C to the Master Power Supply Agreement, Issuer shall credit against the amount owed by Purchaser to Issuer hereunder the amount received by Issuer from Prepay LLC for such sales less all reasonable costs and expenses directly incurred by Issuer, including but not limited to remarketing administrative charges paid by it to Prepay LLC under the Master Power Supply Agreement, but in no event shall the amount of such credit be more than the Contract Price for the Energy so sold.

Section 7.4 Qualifying Use. Without limiting Purchaser's other obligations under this Article VII, Purchaser agrees that, subject to Section 7.5, it will use all of the Product purchased under this Agreement in compliance with the Qualifying Use Requirements. Purchaser agrees that it will provide such additional information, records and certificates as Issuer may reasonably request to confirm Purchaser's compliance with this Section 7.4.

Section 7.5 Remediation.

(a) The Parties acknowledge that Purchaser may at times inadvertently remarket Products received hereunder in a manner that does not comply with Qualifying Use Requirements due to daily and hourly fluctuations in Purchaser's Product needs. To the extent Purchaser does so, Purchaser shall (a) exercise Commercially Reasonable Efforts to use any Disqualified Sale Proceeds of such remarketing to purchase Products (other than Priority Products) that Purchaser then uses in compliance with the Qualifying Use Requirements and (b) reserve funds in an amount equal to any Disqualified Sale Proceeds until such Disqualified Sale Proceeds are remediated or transferred to the Trustee pursuant to Section 7.6(b) below.

⁴ NTD: For inclusion only in Clean Energy Purchase Contract No. 2.

(b) To the extent that all or any portion of Monthly Projected Quantities or Base Quantities are remarketed under [under Section 3.3]⁵ or under Section 7.3, as applicable, and any such remarketing results in a Ledger Entry (as defined in the Master Power Supply Agreement), Purchaser agrees that it shall (i) exercise Commercially Reasonable Efforts to use an amount equivalent to the remarketing proceeds associated with such any such Ledger Entry to purchase Non-Priority Products and use such Non-Priority Products in compliance with the Qualifying Use Requirements in order to remediate such Ledger Entries; and (ii) apply its purchases of Non-Priority Products to remediate any such proceeds under the Master Power Supply Agreement prior to remediating such proceeds under any other contract that provides for the purchase of Priority Products. To track compliance with Purchaser's obligations under this Section 7.5(b), Purchaser shall deliver a remediation certificate to Issuer and the Remarketing Entity by the tenth day of the Month subsequent to any relevant Non-Priority Products purchases (which may include purchases of Energy from CAISO to the extent such Energy is used in compliance with the Qualifying Use Requirements); provided that the Parties acknowledge and agree that (x) any purchases of Monthly Excess Quantities shall be applied to remediate any such Ledger Entries and no remediation certificate shall be required with respect to purchases of Monthly Excess Quantities applied to remediate Ledger Entries, and (y) Monthly Excess Quantities applied to reduce Ledger Entries shall not credit toward the satisfaction of the Annual Quantity for the Contract Year in which such Monthly Excess Quantities are delivered. For Ledger Entries remediated under this Section 7.5(b) that have not otherwise been remediated by the Remarketing Entity pursuant to the remarketing provisions of the Master Power Supply Agreement, Issuer shall pay Purchaser any portion of the Monthly Discount Percentage associated with such Ledger Entries that is available under the Trust Indenture on or before the last Business Day of the Month in which Purchaser provides a certificate under this Section 7.5(b) evidencing such remediation.

Section 7.6 Remediation; Ledger Entries; Redemption.

(a) Remediation. To track compliance with the requirements of Section 7.5(a), Purchaser will provide a quarterly report to Issuer (delivered not later than the 15th day of each April, July, October and January until the end of the Delivery Period) showing the following: the total quantity of proceeds from sales of Products received hereunder that (i) were sold by Purchaser to any Person in a transaction that does not comply with the Qualifying Use Requirements and (ii) have not been remediated by Purchaser by applying such proceeds to purchase Products that are used in compliance with the Qualifying Use Requirements (the quantities of Product producing

such proceeds, “Disqualified Sale Units” and such proceeds received, “Disqualified Sale Proceeds”).

(b) Ledger Entries. Issuer shall report such unremediated Disqualified Sale Proceeds and the associated Disqualified Sale Units to the Remarketing Entity for addition to the remarketing ledgers maintained by the Remarketing Entity under the Master Power Supply Agreement, with the ledger entries to be dated as of the end of the first month of the relevant quarter.

(c) Transfers to Trustee. Purchaser shall transfer (to the extent such unremediated Disqualified Sales Proceeds and associated Disqualified Sale Units remain reflected on the remarketing ledger described under Section 7.6(b) at the time such transfer is required by this Section 7.6(c)) any such unremediated Disqualified Sale Proceeds and any other required funds (i.e., all additional funds necessary for redemption of the Bonds referred to in this Section 7.6(c)) to the Trustee at least 95 days prior to the second anniversary of the date on which such unremediated Disqualified Sale Proceeds and the associated Disqualified Sale Units were first reflected on the remarketing ledgers in accordance with Section 7.6(b), with such funds to be deposited in the Debt Service Account (as defined in the Trust Indenture) and applied to the redemption of Bonds as directed by Issuer and approved by Special Tax Counsel (as defined in the Trust Indenture) as preserving the tax-exempt status of the Bonds.

ARTICLE VIII.

REPRESENTATIONS AND WARRANTIES; ADDITIONAL COVENANTS

Section 8.1 Representations and Warranties. As a material inducement to entering into this Agreement, each Party, with respect to itself, hereby represents and warrants to the other Party as of the Execution Date as follows:

(a) it is a joint powers authority, duly organized and validly existing under the Laws of the State of California,

(b) it has all requisite power and authority, corporate or otherwise, to own its material properties, carry on its material business as now being conducted, enter into, deliver and to perform its obligations under this Agreement and to carry out the terms and conditions hereof and the transactions contemplated hereby;

(c) there is no litigation, action, suit, proceeding with service of process accomplished with respect to such Party or investigation pending or, to the best of such Party’s knowledge, threatened, in each case before or by any Government Agency and, in each case, which could reasonably be anticipated to materially and adversely affect such Party’s ability to perform its obligations under this Agreement or that questions the validity, binding effect or enforceability hereof, any action taken or to be taken by such Party pursuant hereto, or any of the transactions contemplated hereby;

(d) the execution, delivery and performance of this Agreement by such Party have been duly authorized by all necessary action on the part of such Party and its governing body and do not require any approval or consent of any security holder of such Party or any holder (or any trustee for any holder) of any indebtedness or other obligation of such Party;

(e) this Agreement has been duly executed and delivered on behalf of such Party by an appropriate officer or authorized Person of such Party and constitutes the legal, valid and binding obligation of such Party, enforceable against it in accordance with its terms, as such enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium and similar Laws affecting creditors' rights generally and by general principles of equity;

(f) the execution, delivery and performance of this Agreement by such Party shall not violate any provision of any Law, order, writ, judgment, decree or other legal or regulatory determination applicable to it;

(g) the execution, delivery and performance by such Party of this Agreement, and the consummation of the transactions contemplated hereby, including the incurrence by such Party of its financial obligations under this Agreement, shall not result in any violation of any term of any material contract or agreement applicable to it, or any of its charter or bylaws or of any license, permit, franchise, judgment, writ, injunction or regulation, decree, order, charter, Law, ordinance, rule or regulation applicable to it or any of its properties or to any obligations incurred by it or by which it or any of its properties or obligations are bound or affected, or of any determination or award of any arbitrator applicable to it, and shall not conflict with, or cause a breach of, or default under, any such term or result in the creation of any lien upon any of its properties or assets, except with respect to Issuer, the lien of the Trust Indenture;

(h) to the best of the knowledge and belief of such Party, no Governmental Approval is required in connection with the valid authorization, execution, delivery and performance by such Party of this Agreement or the consummation of any of the transactions contemplated hereby other than those Governmental Approvals that have been obtained; and

(i) it enters this Agreement as a bona-fide, arms-length transaction involving the mutual exchange of consideration and, once executed by both Parties, considers this Agreement a legally enforceable contract.

Section 8.2 Warranty of Title. Issuer warrants that it will deliver to Purchaser (a) all Base Product free and clear of all liens, security interests, claims and encumbrances or any interest therein or thereto by any Person arising prior to the Delivery Point, and (b) all Assigned Product free and clear of all liens, security interests, claims and encumbrances or any interest therein or thereto by any Person that are imposed on such Assigned Product solely as a result of Issuer's or Prepay LLC's actions.

Section 8.3 Disclaimer of Warranties. EXCEPT FOR THE WARRANTIES EXPRESSLY MADE BY ISSUER IN THIS ARTICLE VIII, ISSUER HEREBY DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Section 8.4 Continuing Disclosure. Purchaser agrees to provide to Issuer: (a) such financial and operating information as may be requested by Issuer, including Purchaser's most recent audited financial statements, for use in Issuer's offering documents for the Bonds; and (b) annual updates to such information and statements to enable Issuer to comply with its undertakings to enable the underwriters of the offerings of the Bonds to comply with the continuing disclosure provisions of Rule 15(c)2-12 of the United States Securities and Exchange Commission. Failure by Purchaser to comply with its agreement to provide such annual updates shall not be a default under this Agreement, but any such failure shall entitle Issuer or an owner of the Bonds to take such actions and to initiate such proceedings as may be necessary and appropriate to cause Purchaser to comply with such agreement, including without limitation the remedies of mandamus and specific performance.

ARTICLE IX.

TAXES

As between Issuer and Purchaser, Issuer shall (i) be responsible for and pay or cause to be paid all ad valorem, excise, severance, production and other taxes assessed with respect to Product (other than any Assigned Product) delivered pursuant to this Agreement arising prior to the applicable Delivery Point and (ii) indemnify Purchaser and its Affiliates for any such taxes paid by Purchaser or its Affiliates. As between Issuer and Purchaser, Purchaser shall (i) be responsible for all taxes with respect to Product received pursuant to this Agreement assessed at or from the applicable Delivery Point, and (ii) indemnify Issuer and its Affiliates for any such taxes paid by Issuer or its Affiliates. Nothing shall obligate or cause a Party to pay or be liable for any tax for which it is exempt under Law.

ARTICLE X.

JURISDICTION; WAIVER OF JURY TRIAL

Section 10.1 Consent to Jurisdiction. ALL JUDICIAL PROCEEDINGS BROUGHT AGAINST EITHER PARTY ARISING OUT OF OR RELATING HERETO SHALL BE BROUGHT EXCLUSIVELY IN (A) THE COURTS OF THE STATE OF CALIFORNIA LOCATED IN THE CITY OF SAN FRANCISCO, (B) THE FEDERAL COURTS OF THE UNITED STATES OF AMERICA FOR THE NORTHERN DISTRICT OF CALIFORNIA SITTING IN THE CITY AND COUNTY OF SAN FRANCISCO. BY EXECUTING AND DELIVERING THIS AGREEMENT, EACH PARTY AGREES THAT SERVICE OF ALL PROCESS IN ANY SUCH PROCEEDING IN ANY SUCH COURT MAY BE MADE BY REGISTERED OR CERTIFIED MAIL, RETURN RECEIPT REQUESTED, TO THE PARTY AT ITS ADDRESS PROVIDED IN ACCORDANCE WITH ARTICLE XVI; AND AGREES THAT SERVICE AS PROVIDED ABOVE IS SUFFICIENT TO CONFER PERSONAL JURISDICTION OVER THE PARTY IN ANY SUCH PROCEEDING IN ANY SUCH COURT, AND OTHERWISE CONSTITUTES EFFECTIVE AND BINDING SERVICE IN EVERY RESPECT.

Section 10.2 Waiver of Jury Trial. TO THE EXTENT PERMITTED BY LAW, EACH OF THE PARTIES HEREBY AGREES TO WAIVE ITS RESPECTIVE RIGHTS TO A JURY TRIAL OF ANY CLAIM OR CAUSE OF ACTION BASED UPON OR ARISING UNDER THIS AGREEMENT. THE SCOPE OF THIS WAIVER IS INTENDED TO BE ALL-ENCOMPASSING OF ANY AND ALL DISPUTES THAT MAY BE FILED IN ANY COURT AND THAT RELATE TO THE SUBJECT MATTER OF THIS AGREEMENT, INCLUDING CONTRACT CLAIMS, TORT CLAIMS, BREACH OF DUTY CLAIMS AND ALL OTHER COMMON LAW AND STATUTORY CLAIMS. EACH PARTY ACKNOWLEDGES THAT THIS WAIVER IS A MATERIAL INDUCEMENT TO ENTER INTO A BUSINESS RELATIONSHIP, THAT EACH HAS ALREADY RELIED ON THIS WAIVER IN ENTERING INTO THIS AGREEMENT, AND THAT EACH WILL CONTINUE TO RELY ON THIS WAIVER IN ITS RELATED FUTURE DEALINGS. EACH PARTY FURTHER WARRANTS AND REPRESENTS THAT IT HAS REVIEWED THIS WAIVER WITH ITS LEGAL COUNSEL AND THAT IT KNOWINGLY AND VOLUNTARILY WAIVES ITS JURY TRIAL RIGHTS FOLLOWING CONSULTATION WITH LEGAL COUNSEL. THIS WAIVER IS IRREVOCABLE, MEANING THAT IT MAY NOT BE MODIFIED EITHER ORALLY OR IN WRITING (OTHER THAN BY MUTUAL WRITTEN WAIVER SPECIFICALLY REFERRING TO THIS SECTION 10.2 AND EXECUTED BY EACH OF THE PARTIES), AND THIS WAIVER SHALL APPLY TO ANY SUBSEQUENT AMENDMENTS, RENEWALS, SUPPLEMENTS OR MODIFICATIONS HERETO. IN THE EVENT OF LITIGATION, THIS AGREEMENT MAY BE FILED AS A WRITTEN CONSENT TO A TRIAL BY A COURT.

ARTICLE XI.

FORCE MAJEURE

Section 11.1 Applicability of Force Majeure. To the extent either Party is prevented by Force Majeure from carrying out, in whole or part, its obligations under this Agreement and such Party (the "Claiming Party") gives notice and details of the Force Majeure to the other Party as soon as practicable, then the Claiming Party shall be excused from the performance of its obligations with respect to this Agreement (other than the obligation to make payments then due or becoming due with respect to performance prior to the Force Majeure and as provided in Section 4.3). The Claiming Party shall remedy the Force Majeure with all reasonable dispatch. For the duration of the Claiming Party's non-performance (and only for such period), the non-Claiming Party shall not be required to perform or resume performance of its obligations to the Claiming Party corresponding to the obligations of the Claiming Party excused by Force Majeure.

Section 11.2 Settlement of Labor Disputes. Notwithstanding anything to the contrary herein, the Parties agree that the settlement of strikes, lockouts or other industrial disturbances shall be within the sole discretion of the Party experiencing such disturbance, and the failure of a Party to settle such strikes, lockouts or other industrial disturbances shall not prevent the existence of Force Majeure or of reasonable dispatch to remedy the same.

ARTICLE XII.

GOVERNMENTAL RULES AND REGULATIONS

Section 12.1 Compliance with Laws. This Agreement shall be subject to all present and future Laws of any Government Agency having jurisdiction over this Agreement or the transactions to be undertaken hereunder, and neither Party has knowingly undertaken or will knowingly undertake or knowingly cause to be undertaken any activity that would conflict with such Laws; provided, however, that nothing herein shall be construed to restrict or limit either Party's right to object to or contest any such Law, or its application to this Agreement or the transactions undertaken hereunder, and neither acquiescence therein or compliance therewith for any period of time shall be construed as a waiver of such right.

Section 12.2 Contests. Excluding all matters involving a contractual dispute between the Parties, no Party shall contest, cause to be contested or in any way actively support the contest of the equity, fairness, reasonableness or lawfulness of any terms or conditions set forth or established pursuant to this Agreement, as those terms or conditions may be at issue before any Government Agency in any proceeding, if the successful result of such contest would be to preclude or excuse the performance by either Party of this Agreement or any provision hereunder.

Section 12.3 Defense of Agreement. Excluding all matters involving a contractual dispute between the Parties, each Party shall hereafter exercise Commercially Reasonable Efforts to defend and support this Agreement before any Government Agency in any proceeding, if the substance, validity or enforceability of all or any part of this Agreement is hereafter directly challenged or if any proposed changes in regulatory practices or procedures would have the effect of making this Agreement invalid or unenforceable or would subject either Party to any greater or different regulation or jurisdiction that materially affects the rights or obligations of the Parties under this Agreement.

ARTICLE XIII.

ASSIGNMENT

The terms and provisions of this Agreement shall extend to and be binding upon the Parties and their respective successors, assigns, and legal representatives; *provided*, however, that, subject to Section 18.14, neither Party may assign this Agreement or its rights and interests, in whole or in part, under this Agreement without the prior written consent of the other Party; *provided* furthermore that, for the avoidance of doubt, any applicable Assignment Agreement shall terminate concurrent with the assignment of this Agreement. Prior to assigning this Agreement, Purchaser shall deliver to Issuer written confirmation from each Rating Agency (as defined in the Trust Indenture) then rating the Bonds, *provided* that such agency has rated and continues to rate the Bonds, that the assignment will not result in a reduction, qualification, or withdrawal of the then-current ratings assigned by such Rating Agency to the Bonds. Whenever an assignment or a transfer of a Party's interest in this Agreement is requested to be made with the written consent of the other Party, the assigning or transferring Party's assignee or transferee shall expressly assume, in writing, the duties and obligations under this Agreement of the assigning or transferring Party. Upon the agreement of a Party to any such assignment or transfer, the assigning or transferring Party shall furnish or cause to be furnished to the other Party a true and correct copy of such assignment or transfer and assumption of duties and obligations.

ARTICLE XIV.

PAYMENTS

Section 14.1 Monthly Statements.

(a) Purchaser's Statements. No later than the 5th day of each Month during the Delivery Period (excluding the first Month of the Delivery Period) and the first Month following the end of the Delivery Period, Purchaser shall deliver to Issuer a statement (a "Purchaser's Statement") listing (i) in respect of the prior Month, if Base Quantities were required to be delivered in such Month and there is a Shortfall Quantity for such Month, the Replacement Price applicable to such Shortfall Quantity, and (ii) any other amounts due to Purchaser in connection with this Agreement with respect to prior Months.

(b) Billing Statements.

(i) No later than the 20th day of each Month during the Delivery Period (excluding the first Month of the Delivery Period) and the first Month following the end of the Delivery Period, Issuer shall deliver a statement (a "Billing Statement") to Purchaser indicating (i) the total amount due to Issuer for Product delivered in the prior Month, (ii) any other amounts due to Issuer or Purchaser in connection with this Agreement with respect to the prior Months, and (iii) the net amount due to Issuer or Purchaser; provided that invoicing for Monthly Excess Quantities shall occur under the PPA Custodial Agreement.

(ii) For each Month of any Assignment Period, the Billing Statement prepared by Issuer shall assume that all Monthly Projected Quantities under each Assigned PPA were delivered for such Month. To the extent that a Billing Statement subsequently delivered under the PPA Custodial Agreement reflects that less than the Monthly Projected Quantities were actually delivered under any such Assigned PPA, then (A) the previously delivered Billing Statement shall be deemed to be updated in accordance with such Billing Statement; and (B) Issuer shall owe a resettlement payment to Purchaser in an amount equal to the resettlement payment owed by Prepay LLC to Issuer under Section 14.1(b)(ii) of the Master Power Supply Agreement. The Parties acknowledge and agree that J. Aron shall have a separate resettlement payment obligation with respect to the amounts described in the clause (B) of the preceding sentence under the Electricity Sale and Service Agreement, and J. Aron's payment of the J. Aron Resettlement Payment as defined in and pursuant to the PPA Custodial Agreement shall satisfy the corresponding obligations of the respective parties under each of the Electricity Sale and Service Agreement, the Master Power Supply Agreement and this Agreement. The Parties acknowledge and agree that (x) the terms of this Section 14.1(b)(ii) shall only apply under [the Other Clean Energy Purchase Contract and not under this Agreement]/[this Agreement and not under the Other Clean Energy Purchase Contract] and (y) any assignment of Assigned Rights and Obligations in

connection with the Clean Energy Project shall occur only pursuant to [the Other Clean Energy Purchase Contract]/[this Agreement].

(c) Supporting Documentation. Upon request by either Party, the other Party shall deliver such supporting documentation of the foregoing statements and information described in this Section 14.1 as such requesting Party may reasonably request.

Section 14.2 Payments.

(a) Payments Due. If the Billing Statement indicates an amount due from Purchaser, then Purchaser shall remit such amount to the Trustee for the benefit of the Issuer by wire transfer (pursuant to the Trustee's instructions for amounts due under this Agreement, provided that amounts due from Purchaser with respect to Monthly Excess Quantities shall be paid pursuant to the terms of the PPA Custodial Agreement), in immediately available funds, on or before the 23rd day of the Month following the most recent Month to which such Billing Statement relates, or if such day is not a Business Day, the preceding Business Day. If the Billing Statement indicates an amount due from Issuer, then Issuer shall remit such amount to Purchaser by wire transfer (pursuant to Purchaser's instructions), in immediately available funds, on or before the 28th day of the Month following the most recent Month to which such Billing Statement relates, or if such day is not a Business Day, the following Business Day.

(b) No Duty to Estimate. If Purchaser fails to issue a Purchaser's Statement with respect to any Month, Issuer shall not be required to estimate any amounts due to Purchaser for such Month, provided that Purchaser may include any such amount on subsequent Purchaser's Statements issued within the next sixty (60) days. The sixty (60)-day deadline in this subsection (b) replaces the two (2) year deadline in Section 14.5 with respect to any claim by any non-delivering Party of inaccuracy in any estimated invoice issued or payment made pursuant to this subsection (b).

Section 14.3 Payment of Disputed Amounts. If Purchaser disputes any amounts included in a Billing Statement, Purchaser shall (except in the case of manifest error) nonetheless pay any amount required by the Billing Statement in accordance with Section 14.2 without regard to any right of set-off, counterclaim, recoupment or other defenses to payment that Purchaser may have; *provided, however*, that Purchaser shall have the right, after payment, to dispute any amounts included in a Billing Statement or otherwise used to calculate payments due under this Agreement pursuant to Section 14.5. If Issuer disputes any amounts included in the Purchaser's Statement, Issuer may withhold payment to the extent of the disputed amount; *provided, however*, that interest shall be due at the Default Rate for any withheld amount later found to have been properly due.

Section 14.4 Late Payment. If Purchaser fails to remit within one Business Day the full amount payable when due, interest on the unpaid portion shall accrue from the date due until the date of payment at the Default Rate.

Section 14.5 Audit; Adjustments.

(a) Right to Audit. A Party shall have the right, at its own expense, upon reasonable notice to the other Party and at reasonable times, to examine and audit and to obtain copies of the relevant portion of the books, records, and telephone recordings of the other Party to the extent reasonably necessary, but only to such extent, to verify the accuracy of any statement, charge, payment, or computation made under this Agreement. This right to examine, audit, and obtain copies shall not be available with respect to proprietary information not directly relevant to transactions under this Agreement.

(b) Deadline for Objections. Each Purchaser's Statement and each Billing Statement shall be conclusively presumed final and accurate and all associated claims for under- or overpayments shall be deemed waived unless such Purchaser's Statement or Billing Statement is objected to in writing, with adequate explanation and/or documentation, within two (2) years after the applicable Month of Product delivery.

(c) Payment of Adjustments. All retroactive adjustments shall be paid in full by the Party owing payment within 30 days of notice and substantiation of such inaccuracy. If the Parties are unable to agree upon any retroactive adjustments requested by either Party within the time period specified in Section 14.5(b), then either Party may pursue any remedies available with respect to such adjustments at law or in equity. Retroactive adjustments for payments made based on an incorrect Purchaser's Statement or Billing Statement shall bear interest at the Default Rate from the date such payment was made.

Section 14.6 Netting; No Set-Off. The Parties shall net all amounts due and owing, including any past due amounts (which, for the avoidance of doubt, shall include any accrued interest), arising under this Agreement such that the Party owing the greater amount shall make a single payment of the net amount to the other Party in accordance with this Article XIV. Notwithstanding the foregoing, no Party shall be entitled to net any amounts that are in dispute and payment for all amounts set forth in a Billing Statement provided to Purchaser shall be made without set-off or counterclaim of any kind.

Section 14.7 Rate Covenant. Purchaser agrees to make payments it is required to make under this Agreement from Utility Revenues, and only from such Utility Revenues, and as a charge against such Utility Revenues, as an operating expense of its electric system and a cost of purchased Product; provided, however, that Purchaser, in its discretion, may apply any legally available moneys to the payment of amounts due under this Agreement. Purchaser hereby covenants and agrees that it will establish, maintain, and set rates and charges for its electric system so as to provide Utility Revenues sufficient, together with all available electric system revenues, to enable Purchaser to pay to Issuer all amounts payable under this Agreement and to pay all other amounts payable from the revenues of Purchaser's electric system, and to maintain any reserves as required by the Purchaser's reserve policy. Purchaser further covenants and agrees that it shall not furnish or supply electric services free of charge to any person, firm, corporation association, or other entity, public or private, except any such service free of charge that Purchaser is supplying on the date hereof or such free service as required by order of the CPUC or the State of California, and that it shall promptly enforce the payment of any and all accounts owing to Purchaser for the sale of electricity or the provision of transmission, distribution or other services to its customers. Purchaser further covenants and agrees that in any future bond issue, certificate of participation

issue, interest rate swap agreement, commodity swap agreement or any other financing or financial transaction undertaken by, or on behalf of, Purchaser in connection with its electric system, Purchaser shall not pledge or encumber the Utility Revenues through a gross revenue pledge or in any other way which creates a prior or superior obligation to its obligation to make payments under this Agreement.

NOTICES

Any notice, demand, statement, or request required or authorized by this Agreement to be given by one Party to the other Party (or to any third party) shall be in writing and shall either be sent by email transmission, courier, or personal delivery (including overnight delivery service) to each of the notice recipients and addresses specified in Exhibit B for the receiving Party. Any such notice, demand, or request shall be deemed to be given (i) when delivered by email transmission, or (ii) when actually received if delivered by courier or personal delivery (including overnight delivery service). Each Party shall have the right, upon 10 days' prior written notice to the other Party, to change its list of notice recipients and addresses in Exhibit B. The Parties may mutually agree in writing at any time to deliver notices, demands or requests through alternate or additional methods, such as electronic mail. Notwithstanding the foregoing, either Party may at any time notify the other that any notice, demand, statement, or request to it must be provided by email transmission for a specified period of time or until further notice, and any communications delivered by means other than email transmission during the specified period of time shall be ineffective.

ARTICLE XVII.

DEFAULT; REMEDIES; TERMINATION

Section 17.1 Issuer Default. Each of the following events shall constitute a "Issuer Default" under this Agreement:

(a) any representation or warranty made by Issuer in this Agreement or the Other Clean Energy Purchase Contract shall prove to have been incorrect in any material respect when made; or

(b) Issuer shall have failed to perform, observe, or comply with any covenant, agreement or term contained in this Agreement or the Other Clean Energy Purchase Contract, and such failure continues for more than thirty (30) days following receipt by Issuer of written notice thereof.

Section 17.2 Purchaser Default. Each of the following events shall constitute a “Purchaser Default” under this Agreement:

(a) Purchaser fails to pay when due any amounts owed to Issuer pursuant to this Agreement or the other Clean Energy Purchase Contract and such failure continues for three Days following receipt by Purchaser of written notice thereof;

(b) Purchaser (i) is dissolved (other than pursuant to a consolidation, amalgamation or merger); (ii) becomes insolvent or is unable to pay its debts or fails or admits in writing its inability generally to pay its debts as they become due; (iii) makes a general assignment, arrangement or composition with or for the benefit of its creditors; (iv) institutes or has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency Law or other similar Law affecting creditors’ rights, or a petition is presented for its winding-up or liquidation, and, in the case of any such proceeding or petition instituted or presented against it, such proceeding or petition (A) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (B) is not dismissed, discharged, stayed or restrained, in each case within 30 days of the institution or presentation thereof; (v) has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger); (vi) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all of its assets; (vii) has a secured party take possession of all or substantially all of its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its of assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 30 days thereafter; (viii) causes or is subject to any event with respect to it which, under the applicable Laws of any jurisdiction, has an analogous effect to any of the events specified in clauses (i) through (vii); or (ix) takes any action in furtherance of, or indicating its consent to, approval of, or acquiescence in, any of the foregoing acts;

(c) any representation or warranty made by Purchaser in this Agreement or the Other Clean Energy Purchase Contract proves to have been incorrect in any material respect when made, and such default is not remedied within thirty (30) days after receipt by Purchaser of written notice thereof;

(d) Purchaser shall have failed to perform, observe or comply with any material covenant, agreement or term contained in this Agreement or the Other Clean Energy Purchase Contract, and such failure continues for more than 30 days following the earlier of receipt by Purchaser of notice thereof; or

(e) Purchaser shall have failed to establish, maintain, or collect rates or charges adequate to provide Utility Revenues sufficient to enable Purchaser to pay all amounts due to Issuer under this Agreement or the Other Clean Energy Purchase Contracts in accordance with Section 14.7 (Rate Covenant), and such failure continues for more than 30 days following receipt by Purchaser of notice thereof.

Section 17.3 Remedies Upon Default.

(a) Termination. If at any time a Issuer Default or a Purchaser Default has occurred and is continuing, then the non-defaulting Party may do any or all of the following (i) by notice to the defaulting Party specifying the relevant Issuer Default or Purchaser Default, as applicable, terminate this Agreement effective as of a day not earlier than the day such notice is deemed given under Article XVI and/or (ii) declare all amounts due to the non-defaulting Party under this Agreement or any part thereof immediately due and payable, and the same shall thereupon become immediately due and payable, without notice, demand, presentment, notice of dishonor, notice of intent to demand, protest or other formalities of any kind, all of which are hereby expressly waived by the defaulting Party; *provided, however*, this Agreement shall automatically terminate and all amounts due to the non-defaulting Party hereunder shall immediately become due and payable as of the time immediately preceding the institution of the relevant proceeding or the presentation of the relevant petition giving rise to a Purchaser Default specified in Section 17.2(b)(iv) or, to the extent analogous thereto, Section 17.2(b)(viii). In addition, during the existence of an Issuer Default or a Purchaser Default, as applicable, the non-defaulting Party may exercise all other rights and remedies available to it at Law or in equity, including without limitation mandamus, injunction and action for specific performance, to enforce any covenant, agreement or term of this Agreement.

(b) Additional Remedies. In addition to the remedies set forth in Section 17.3(a) (and without limiting any other provisions of this Agreement), during the existence of any Purchaser Default, Issuer may suspend its performance hereunder and discontinue the supply of all or any portion of the Product otherwise to be delivered to Purchaser by it under this Agreement. If Issuer exercises its right to suspend performance under this Section 17.3(b), Purchaser shall remain fully liable for payment of all amounts in default and shall not be relieved of any of its payment obligations under this Agreement. Deliveries of Product may only be reinstated, at a time to be determined by Issuer, upon (i) payment in full by Purchaser of all amounts then due and payable under this Agreement and (ii) unless otherwise agreed by Issuer, payment in advance by Purchaser at the beginning of each Month of amounts estimated by Issuer to be due to Issuer for the future delivery of Product under this Agreement for such Month. Issuer may continue to require payment in advance from Purchaser after the reinstatement of Issuer's supply services under this Agreement for such period of time as Issuer in its sole discretion may determine is appropriate. In addition, and without limiting any other provisions of or remedies available under this Agreement, if Purchaser fails to accept from Issuer any Product tendered for delivery under this Agreement, Issuer shall have the right to sell such Product to third parties on any terms that Issuer, in its sole discretion, determines are appropriate.

(c) Effect of Early Termination. As of the effectiveness of any termination date in accordance with clause (i) of Section 17.3(a), (i) the Delivery Period shall end, (ii) the obligation of Issuer to make any further sales and deliveries of Product to Purchaser under this Agreement shall terminate, and (iii) the obligation of Purchaser to purchase and receive deliveries of Product from Issuer under this Agreement will terminate. Neither this Agreement nor the Delivery Period may be terminated for any reason except as specified in this Article XVII. Without prejudice to

any payment obligation in respect of periods prior to termination, no payments will be due from either Party in respect of periods occurring after the effective termination date of this Agreement.

Section 17.4 Termination of Master Power Supply Agreement. Purchaser acknowledges and agrees that (i) in the event the Master Power Supply Agreement terminates prior to the end of the primary term of this Agreement, this Agreement shall terminate on the effective date of early termination of the Master Power Supply Agreement (which date shall be the last date upon which deliveries are required thereunder, subject to all winding up arrangements), (ii) Issuer's obligation to deliver Product, and Purchaser's obligation to purchase and receive deliveries, under this Agreement shall terminate upon the termination of deliveries of Product to Issuer under the Master Power Supply Agreement and (iii) in either event described in clauses (i) or (ii), Purchaser shall exercise its right to terminate any Assignment Agreements in effect. Issuer shall provide notice to Purchaser of any early termination date of the Master Power Supply Agreement or any termination of deliveries of Product to Issuer under the Master Power Supply Agreement. The Parties recognize and agree that, in the event that the Master Power Supply Agreement terminates because of a Failed Remarketing (as defined in the Trust Indenture) of the Bonds that occurs in the first Month of a Reset Period, Issuer shall deliver Product under this Agreement for the remainder of such first Month, and, notwithstanding anything in this Agreement to the contrary, no Monthly Discount Percentage or Annual Refunds shall be associated with such deliveries and the Contract Price shall be adjusted accordingly.

Section 17.5 Limitation on Damages. THE PARTIES CONFIRM THAT THE EXPRESS REMEDIES AND MEASURES OF DAMAGES PROVIDED IN THIS AGREEMENT SATISFY THE ESSENTIAL PURPOSES HEREOF. FOR BREACH OF ANY PROVISION FOR WHICH AN EXPRESS REMEDY OR MEASURE OF DAMAGES IS HEREIN PROVIDED, SUCH EXPRESS REMEDY OR MEASURE OF DAMAGES SHALL BE THE SOLE AND EXCLUSIVE REMEDY, THE OBLIGOR'S LIABILITY SHALL BE LIMITED AS SET FORTH IN SUCH PROVISION, AND ALL OTHER REMEDIES OR DAMAGES AT LAW OR IN EQUITY ARE WAIVED. NEITHER PARTY SHALL BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, PUNITIVE, EXEMPLARY, OR INDIRECT DAMAGES, LOST PROFITS OR OTHER BUSINESS INTERRUPTION DAMAGES, BY STATUTE, IN TORT OR CONTRACT, UNDER ANY INDEMNITY PROVISION, OR OTHERWISE. IT IS THE INTENT OF THE PARTIES THAT THE LIMITATIONS HEREIN IMPOSED ON REMEDIES AND THE MEASURE OF DAMAGES BE WITHOUT REGARD TO THE CAUSE OR CAUSES RELATED THERETO, INCLUDING WITHOUT LIMITATION THE NEGLIGENCE OF EITHER PARTY, WHETHER SUCH NEGLIGENCE BE SOLE, JOINT OR CONCURRENT, OR ACTIVE OR PASSIVE. TO THE EXTENT ANY DAMAGES REQUIRED TO BE PAID UNDER THIS AGREEMENT ARE LIQUIDATED, THE PARTIES ACKNOWLEDGE THAT THE DAMAGES ARE DIFFICULT OR IMPOSSIBLE TO DETERMINE, OTHERWISE OBTAINING AN ADEQUATE REMEDY IS INCONVENIENT, AND THE LIQUIDATED DAMAGES CONSTITUTE A REASONABLE APPROXIMATION OF THE HARM OR LOSS. IN DETERMINING THE APPROPRIATE MEASURE OF DAMAGES THAT WOULD MAKE THE PARTIES WHOLE, THE PARTIES HAVE THOROUGHLY CONSIDERED, INTER ALIA, THE UNCERTAINTY OF FLUCTUATIONS IN PRODUCT PRICES, THE ABILITY AND INTENTION OF THE PARTIES TO HEDGE

SUCH FLUCTUATIONS, THE BARGAINED-FOR ALLOCATION OF RISK, THE KNOWLEDGE, SOPHISTICATION AND EQUAL BARGAINING POWER OF THE PARTIES, THE ARMS-LENGTH NATURE OF THE NEGOTIATIONS, THE SPECIAL CIRCUMSTANCES OF THIS TRANSACTION, THE ACCOUNTING AND TAX TREATMENT OF THE TRANSACTION BY THE PARTIES, AND THE ENTERING INTO OF OTHER TRANSACTIONS IN RELIANCE ON THE ENFORCEABILITY OF THE LIQUIDATED DAMAGES PROVISIONS CONTAINED HEREIN.

ARTICLE XVIII. MISCELLANEOUS

Section 18.1 Indemnification Procedure. With respect to each indemnification included in this Agreement, the indemnity is given to the fullest extent permitted by applicable Law and the following provisions shall be applicable. The indemnified Party shall promptly notify the indemnifying Party in writing of any Claim and the indemnifying Party shall have the right to assume its investigation and defense, including employment of counsel, and shall be obligated to pay related court costs, attorneys' fees and experts' fees and to post any appeals bonds; *provided*, however, that the indemnified Party shall have the right to employ at its expense separate counsel and participate in the defense of any Claim. The indemnifying Party shall not be liable for any settlement of a Claim without its express written consent thereto. In order to prevent double recovery, the indemnified Party shall reimburse the indemnifying Party for payments or costs incurred in respect of an indemnity with the proceeds of any judgment, insurance, bond, surety or other recovery made by the indemnified Party with respect to a covered event.

Section 18.2 Deliveries. Contemporaneously with this Agreement and the Other Clean Energy Purchase Contract (unless otherwise specified):

(a) each Party shall deliver to the other Party evidence reasonably satisfactory to it of (i) such Party's authority to execute, deliver and perform its obligations under this Agreement and (ii) the appropriate individuals who are authorized to sign this Agreement and the Other Clean Energy Purchase Contract on behalf of such Party;

(b) on the Bond Closing Date, Purchaser shall deliver to Issuer a fully executed Federal Tax Certificate in substantially the form attached hereto as Exhibit D;

(c) on the Bond Closing Date, Purchaser shall deliver to Issuer an opinion or opinions of counsel to Purchaser covering the matters set forth in the form attached hereto as Exhibit E; and

(d) on the Bond Closing Date, Purchaser shall deliver to Issuer a Closing Certificate in substantially the form set forth hereto as Exhibit I.

For added clarity: the Parties acknowledge and agree that the foregoing deliverable requirements under this Section 18.2 and Section 18.2 of the Other Clean Energy Purchase Contract may be satisfied with a single consolidated set of deliverables for the two agreements.

Section 18.3 Entirety; Amendments. This Agreement, including the exhibits and attachments hereto, constitutes the entire agreement between the Parties and supersedes all prior discussions and agreements between the Parties with respect to the subject matter hereof. There are no prior or contemporaneous agreements or representations affecting the same subject matter other than those expressed herein. Except for any matters that, in accordance with the express provisions of this Agreement, may be resolved by oral agreement between the Parties, no amendment, modification, supplement, or change hereto shall be enforceable unless reduced to writing and executed by both Parties.

Section 18.4 Governing Law. THIS AGREEMENT AND THE RIGHTS AND DUTIES OF THE PARTIES UNDER THIS AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED, ENFORCED AND PERFORMED IN ACCORDANCE WITH THE LAWS OF THE STATE OF CALIFORNIA, WITHOUT REGARD TO ANY CONFLICTS OF LAW PRINCIPLE THAT WOULD DIRECT THE APPLICATION OF ANOTHER JURISDICTION'S LAW.

Section 18.5 Non-Waiver. No waiver of any breach of any of the terms of this Agreement shall be effective unless such waiver is in writing and signed by the Party against whom such waiver is claimed. No waiver of any breach or breaches shall be deemed a waiver of any other subsequent breach.

Section 18.6 Severability. If any provision of this Agreement, or the application thereof, shall for any reason be invalid or unenforceable, then to the extent of such invalidity or unenforceability, the remainder of this Agreement and the application of such provision to other Persons or circumstances shall not be affected thereby, but rather shall be enforced to the maximum extent permissible under applicable Law, so long as the economic and legal substance of the transactions contemplated hereby is not affected in any materially adverse manner as to either Party.

Section 18.7 Exhibits. Any and all Exhibits and attachments referenced in this Agreement are hereby incorporated herein by reference and shall be deemed to be an integral part hereof.

Section 18.8 Winding Up Arrangements. All indemnity and confidentiality obligations, audit rights, and other provisions specifically providing for survival shall survive the expiration or termination of this Agreement. The expiration or termination of this Agreement shall not relieve either Party of (a) any unfulfilled obligation or undischarged liability of such Party on the date of such termination or (b) the consequences of any breach or default of any warranty or covenant contained in this Agreement. All obligations and liabilities described in the preceding sentence of this Section 18.8, and applicable provisions of this Agreement creating or relating to such obligations and liabilities, shall survive such expiration or termination.

Section 18.9 Relationship of Parties. The Parties shall not be deemed to be in a relationship of partners or joint venturers by virtue of this Agreement, nor shall either Party be an agent, representative, trustee or fiduciary of the other. Neither Party shall have any authority to

bind the other to any agreement. This Agreement is intended to secure and provide for the services of each Party as an independent contractor.

Section 18.10 Immunity. Each Party represents and covenants to and agrees with the other Party that it is not entitled to and shall not assert the defense of sovereign immunity with respect to its obligations or any Claims under this Agreement.

Section 18.11 Rates and Indices. If the source of any publication used to determine the index or other price used in the Contract Price should cease to publish the relevant prices or should cease to be published entirely, an alternative index or other price will be used based on the determinations made by Issuer and Prepay LLC under Section 18.11 of the Master Power Supply Agreement. Issuer shall provide Purchaser the opportunity to provide its recommendations and other input to Issuer for Issuer's use in the process for selecting such alternative index or other price under Section 18.11 of the Master Power Supply Agreement.

Section 18.12 Limitation of Liability. Notwithstanding anything to the contrary herein, all obligations of Issuer under this Agreement, including without limitation all obligations to make payments of any kind whatsoever, are special, limited obligations of Issuer payable solely from Trust Estate (as such term is defined in the Trust Indenture) as and to the extent provided in the Trust Indenture, including with respect to Operating Expenses (as such term is defined in the Trust Indenture). Issuer shall not be required to advance any moneys derived from any source other than the Revenues (as such term is defined in the Trust Indenture) and other assets pledged under the Trust Indenture for any of the purposes in this Agreement mentioned. Neither the faith and credit of Issuer nor the taxing power of the State of California or any political subdivision thereof is pledged to payments pursuant to this Agreement. Issuer shall not be directly, indirectly, contingently or otherwise liable for any costs, expenses, losses, damages, claims or actions, of any conceivable kind on any conceivable theory, under or by reasons of or in connection with this Agreement, except solely to the extent Revenues (as such term is defined in the Trust Indenture) are received for the payment thereof and may be applied therefor pursuant to the terms of the Trust Indenture.

Section 18.13 Counterparts; Electronic Signatures. This Agreement may be executed and acknowledged in multiple counterparts and by the Parties in separate counterparts, each of which shall be an original and all of which shall be and constitute one and the same instrument. Each of the Parties agrees that the transaction consisting of this Agreement may be conducted by electronic means. Each Party agrees, and acknowledges that it is such Party's intent, that if such Party signs this Agreement using an electronic signature, it is signing, adopting, and accepting this Agreement and that signing this Agreement using an electronic signature is the legal equivalent of having placed its handwritten signature on this Agreement on paper. Each Party acknowledges that it is being provided with an electronic or paper copy of this Agreement in a usable format.

Section 18.14 Third Party Beneficiaries; Rights of Trustee. Purchaser acknowledges and agrees that (a) Issuer will pledge and assign its rights, title and interest in this Agreement and the amounts payable by Purchaser under this Agreement to secure Issuer's obligations under the Trust Indenture, (b) the Trustee shall be a third-party beneficiary of this Agreement with the right to enforce Issuer's rights and Purchaser's obligations under this Agreement, (c) J. Aron shall be a

third-party beneficiary of this Agreement with the right to enforce the provisions of this Agreement relating to the Remarketing Entity, Article VI and Exhibit F of this Agreement, (d) the Trustee or any receiver appointed under the Trust Indenture shall have the right to perform all obligations of Issuer under this Agreement, and (e) in the event of any Purchaser Default under Section 17.2(a), (i) Prepay LLC may, to the extent provided for in, and in accordance with, Exhibit E to the Master Power Supply Agreement, take assignment from Issuer of receivables owed by Purchaser to Issuer under this Agreement, and Prepay LLC or any third party transferee who purchases and takes assignment of such receivables from Prepay LLC shall thereafter have all rights of collection with respect to such receivables (provided that, if at any time an insurance provider agrees to insure Purchaser's payment obligations hereunder, then such insurance provider shall have the same rights under this Section 18.14 as Prepay LLC), and (ii) if such receivables are not so assigned, the Swap Counterparty or Swap Counterparties (as defined in the Trust Indenture) shall have the right to pursue collection of such receivables to the extent any non-payment by Issuer to any Swap Counterparty was caused by Purchaser's payment default. Pursuant to the terms of the Trust Indenture, Issuer has irrevocably appointed the Trustee as its agent to issue notices and, as directed under the Trust Indenture, to take any other actions that Issuer is required or permitted to take under this Agreement. Purchaser may rely on notices or other actions taken by Issuer or the Trustee and Purchaser has the right to exclusively rely on any notices delivered by the Trustee, regardless of any conflicting notices that it may receive from Issuer.

Section 18.15 No Recourse to Members of Purchaser. Purchaser is organized as a Joint Powers Authority in accordance with the Joint Exercise of Powers Act of the State of California (Government Code Section 6500, et seq.) pursuant to its Joint Powers Agreement and is a public entity separate from its constituent members. Purchaser shall solely be responsible for all debts, obligations and liabilities accruing and arising out of this Agreement. Issuer shall have no rights and shall not make any claims, take any actions or assert any remedies against any of Purchaser's constituent members, or the employees, directors, officers, consultants or advisors of Purchaser or its constituent members, in connection with this Agreement.

Section 18.16 Waiver of Defenses. Each Party waives all rights to set-off, counterclaim, recoupment and any other defenses that might otherwise be available to it with regard to its obligations pursuant to the terms of this Agreement.

Section 18.17 Rate Changes.

(a) Standard of Review. Absent the agreement of the Parties to the proposed change, the standard of review for changes to any rate, charge, classification, term or condition of this Agreement, whether proposed by a Party (to the extent that any waiver in Section 18.17(b) below is unenforceable or ineffective as to such Party), a non-party or FERC acting *sua sponte*, shall solely be the "public interest" application of the "just and reasonable" standard of review set forth in United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956) and Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956) and clarified by Morgan Stanley Capital Group Inc. v. Public Util. Dist. No. 1 of Snohomish, 554 U.S. 527 (2008).

(b) Waiver. In addition, and notwithstanding Section 18.17(a), to the fullest extent permitted by applicable Law, each Party, for itself and its successors and assigns, hereby

expressly and irrevocably waives any rights it can or may have, now or in the future, whether under Section 205 and/or 206 of the Federal Power Act or otherwise, to seek to obtain from FERC by any means, directly or indirectly (through complaint, investigation or otherwise), and each hereby covenants and agrees not at any time to seek to so obtain, an order from FERC changing any section of this Agreement specifying the rate, charge, classification, or other term or condition agreed to by the Parties, it being the express intent of the Parties that, to the fullest extent permitted by applicable Law, neither Party shall unilaterally seek to obtain from FERC any relief changing the rate, charge, classification, or other term or condition of this Agreement, notwithstanding any subsequent changes in applicable Law or market conditions that may occur. In the event it were to be determined that applicable Law precludes the Parties from waiving their rights to seek changes from FERC to their market-based power sales contracts (including entering into covenants not to do so) then this Section 18.17(b) shall not apply, *provided* that, consistent with Section 18.17(a), neither Party shall seek any such changes except solely under the “public interest” application of the “just and reasonable” standard of review and otherwise as set forth in Section 18.17(a).

IN WITNESS WHEREOF, the Parties have caused this Agreement to be duly executed and delivered by their respective officers thereunto duly authorized as of the date first above written.

FORM OF FEDERAL TAX CERTIFICATE

This Federal Tax Certificate is executed in connection with the two Clean Energy Purchase Contracts, dated as of [____], 2026 (the “Clean Energy Purchase Contracts”), by and between the California Community Choice Financing Authority (“Issuer”) and San Diego Community Power, a California joint powers authority (“Purchaser”). Capitalized terms used and not otherwise defined herein shall have the meanings given to them in the Clean Energy Purchase Contract, in the Tax Certificate and Agreement, or in the Trust Indenture.

WHEREAS Purchaser acknowledges that Issuer is issuing the Bonds to fund the prepayment prices under the two Master Power Supply Agreements, dated as of the date of the Clean Energy Purchase Contracts, between Issuer and Prepay LLC; and

WHEREAS the Bonds are intended to qualify for tax exemption under Section 103 of the Internal Revenue Code of 1986, as amended; and

WHEREAS Purchaser’s use of Energy acquired pursuant to the Clean Energy Purchase Contracts and certain funds and accounts of Purchaser will affect the Bonds’ qualification for such tax exemption.

NOW, THEREFORE, POWER PURCHASER HEREBY CERTIFIES AS FOLLOWS:

Purchaser is a joint powers authority and a community choice aggregator created and existing pursuant to the provisions of California law, organized under the laws of the State of California. As a community choice aggregator, the Purchaser is a load-serving entity providing electricity to customers within the boundaries of cities and/or counties that have elected to participate in Purchaser’s community choice aggregation program. For purposes of this Certificate, the term “service area” of the Purchaser means the boundaries of the cities and/or counties that have elected to participate in the Purchaser’s community choice aggregation program, as well as any other area recognized as the service area of the Purchaser under state or federal law.

Purchaser will resell all of the Energy acquired pursuant to the Clean Energy Purchase Contracts to its retail Energy customers within its service area, with retail sales in all cases being made pursuant to regularly established and generally applicable tariffs.

From January [2020] to [____], the monthly average amount of Energy purchased (other than for resale) by customers of Purchaser who are located within the service area of Purchaser is at least [____] MWh. Over the terms of the Clean Energy Purchase Contracts, the Purchaser expects the monthly average amount of Energy purchased (other than for resale) by customers of the Purchaser who are located within the service area of the Purchaser to be at least [____] MWh. The maximum monthly amount of Energy in any month being acquired pursuant to the Clean Energy Purchase Contracts is [____] MWh.

The Purchaser has existing rights to acquire other energy (including rights to capacity to generate electricity, whether owned, leased or otherwise contracted for) over the terms of the Clean Energy Purchase Contracts. Over the terms of the Clean Energy Purchase Contracts, the sum of (a) the amount of Energy being acquired pursuant to the Clean Energy Purchase Contracts in any month, and (b) the amount of Energy that Purchaser otherwise has a right to acquire (including rights to capacity to generate electricity, whether owned, leased or otherwise contracted for) for such month does not exceed (i) [_____] % of the monthly amount of Energy expected to be purchased (other than for resale) by customers of Purchaser who are located within the service area of Purchaser in any month in calendar year [_____] , and (ii) does not exceed [_____] % of the monthly amount of Energy expected to be purchased (other than for resale) by customers of Purchaser who are located within the service area of Purchaser in any month in later calendar years.

The Purchaser has assigned certain rights and obligations under power purchase agreements to J. Aron that, in addition to rights to Energy, include rights to capacity based on battery storage (the "Storage") that will be charged from Energy produced at the same facilities and acquired pursuant to that same power purchase agreements. The Purchaser certifies that it will exercise its rights pursuant to such power purchase agreements to ensure that such Storage will only be charged from Energy produced at such facilities and acquired pursuant to such power purchase agreements.

In the event of the expiration or termination of an EPS Energy Period, Purchaser agrees to comply with its obligations in the Clean Energy Purchase Contracts, including but not limited to its obligations to (a) exercise Commercially Reasonable Efforts to assign a portion of Purchaser's rights and obligations under a power purchase agreement under which Purchaser is purchasing EPS Compliant Energy to J. Aron pursuant to an Assignment Agreement and (b) cooperate in good faith with Issuer and J. Aron with respect to any proposed assignments.

Purchaser expects to pay for Energy acquired pursuant to the Clean Energy Purchase Contracts solely from funds derived from its power distribution operations. Purchaser expects to use current net revenues of its to pay for current Energy acquisitions. Neither the Purchaser nor any person who is a related party to the Purchaser will hold any funds or accounts in which monies are invested and which are reasonably expected to be used to pay for Energy acquired more than one year after such monies are set aside. No portion of the proceeds of the Bonds will be used directly or indirectly to replace funds of Purchaser or any persons who are related Persons to Purchaser that are or were intended to be used for the purpose for which the Bonds were issued.

Re: Clean Energy Purchase Contracts between San Diego Community Power and California Community Choice Financing Authority dated as of [____], 2025

Ladies and Gentlemen:

We are Counsel to San Diego Community Power (“Purchaser”). Purchaser is a Purchaser in the Energy Project undertaken by California Community Choice Financing Authority (“Issuer”). We are furnishing this opinion to you in connection with the two Clean Energy Purchase Contracts between Issuer and Purchaser dated as of [____], 2025 (the “Supply Contracts”).

Unless otherwise specified herein, all terms used but not defined in this opinion shall have the same meaning as is ascribed to them in the Supply Contracts.

In connection with this opinion, we have examined originals or copies, certified or otherwise identified to our satisfaction, of the following:

(a) The Constitution and laws of the State of California (the “State”) including, as applicable, acts, ordinances, certificates, articles, charters, bylaws, and agreements pursuant to which Purchaser was created and by which it is governed;

(b) Resolution No. [], duly adopted by Purchaser on [] (the “Resolution”) and certified as true and correct by certificate and seal, authorizing Purchaser to execute and deliver the Supply Contracts;

(c) Copies of the Supply Contracts executed by Purchaser; and

(d) All outstanding instruments relating to bonds, notes, or other indebtedness of or relating to Purchaser and Purchaser’s CCA System.

We have also examined and relied upon originals or copies, certified or otherwise authenticated to our satisfaction, of such records, documents, certificates, and other instruments, and made such investigations of law, as in our judgment we have deemed necessary or appropriate to enable us to render the opinions expressed below.

Based upon the foregoing, we are of the opinion that:

1. Purchaser is a joint powers authority of the State, duly organized and validly existing as a community choice aggregator under the laws of the State, and has the power and authority to own its properties, to carry on its business as now being conducted, and to enter into and to perform its obligations under the Agreement.

2. The execution, delivery, and performance by Purchaser of the Supply Contracts have been duly authorized by the governing body of Purchaser and do not and will not require, subsequent to the execution of the Supply Contracts by Purchaser, any consent or approval of the governing body or any officers of Purchaser.

3. The Supply Contracts are the legal, valid, and binding obligations of Purchaser, enforceable in accordance with its terms, except as such enforceability may be subject to (i) the exercise of judicial discretion in accordance with general principles of equity and (ii) bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights heretofore or hereafter enacted, to the extent constitutionally applicable.

4. No approval, consent or authorization of any governmental or public agency, authority, commission or person, or, to our knowledge, of any holder of any outstanding bonds or other indebtedness of Purchaser, is required with respect to the execution, delivery and performance by Purchaser of the Supply Contracts or Purchaser's participation in the transactions contemplated thereby other than those approvals, consents and/or authorizations that have already been obtained.

5. The authorization, execution and delivery of the Supply Contracts and compliance with the provisions thereof (a) will not conflict with or constitute a breach of, or default under, (i) any instrument relating to the organization, existence or operation of Purchaser, (ii) any ruling, regulation, ordinance, judgment, order or decree to which Purchaser (or any of its officers in their respective capacities as such) is subject or (iii) any provision of the laws of the State relating to Purchaser and its affairs, and (b) to our knowledge will not result in, or require the creation or

imposition of, any lien on any of the properties or revenues of Purchaser pursuant to any of the foregoing.

6. Purchaser is not in breach of or default under any applicable constitutional provision or any law or administrative regulation of the State or the United States or any applicable judgment or decree or, to our knowledge, any loan or other agreement, resolution, indenture, bond, note, resolution, agreement or other instrument to which Purchaser is a party or to which Purchaser or any of its property or assets is otherwise subject, and to our knowledge no event has occurred and is continuing which with the passage of time or the giving of notice, or both, would constitute a default or event of default under any such instrument.

7. Payments to be made by Purchaser under the Supply Contracts shall constitute operating expenses of Purchaser's electric system payable solely from the revenues and other available funds of Purchaser's electric system as a cost of purchased electricity. The application of the revenues and other available funds of Purchaser's CCA System to make such payments is not subject to any prior lien, encumbrance or other restriction.

8. As of the date of this opinion, to the best of our knowledge after due inquiry, there is no pending or threatened action or proceeding at law or in equity or by any court, government agency, public board or body affecting or questioning the existence of Purchaser or the titles of its officers to their respective offices or affecting or questioning the legality, validity, or enforceability of this Supply Contracts nor to our knowledge is there any basis therefor.

This opinion is rendered solely for the use and benefit of the addressees listed above in connection with the Supply Contracts and may not be relied upon other than in connection with the transactions contemplated by the Supply Contracts, or by any other person or entity for any purpose whatsoever, nor may this opinion be quoted in whole or in part or otherwise referred to in any document or delivered to any other person or entity, without the prior written consent of the undersigned.

Very truly yours,

EXHIBIT F

ASSIGNMENT OF ASSIGNABLE POWER CONTRACTS

1. **General Requirements.** Assigned Rights and Obligations under an Assignable Power Contract may only be assigned under this Exhibit F if the following requirements are satisfied or waived by J. Aron and Issuer:
 - 1.1. The seller under such Assignable Power Contract (the “APC Party”) either (i) has a long-term senior unsecured credit rating that is “Baa3” or higher from Moody’s Investor’s Service, Inc. (or any successor to its credit rating service operation), “BBB-” or higher from Standard & Poor’s Global Ratings (or any successor to its credit rating service operation) or “BBB-” or higher from Fitch Ratings, Inc. (or any successor to its credit rating service operation), (ii) provides credit support that is reasonably satisfactory to J. Aron or (iii) otherwise provides evidence of its creditworthiness that is reasonably satisfactory to J. Aron (which, for the avoidance of doubt, may include credit support provided by such APC Party to Purchaser).
 - 1.2. The APC Party satisfies J. Aron’s internal requirements as they relate to “know your customer” rules, policies and procedures, anti-money laundering rules and regulations, Dodd-Frank Act, Commodity Exchange Act, Patriot Act and similar rules, regulations, requirements and corresponding policies.
 - 1.3. The APC Party is organized in the United States and in a jurisdiction that does not present adverse tax consequences to J. Aron or Issuer in connection with such proposed assignment.
 - 1.4. J. Aron, Purchaser, and Issuer have agreed on and executed an Assignment Schedule for such assignment.
 - 1.5. J. Aron, Purchaser, Issuer, and the applicable APC Party have agreed on and executed an Assignment Agreement for such assignment.
 - 1.6. If the Assignable Power Contract is unit-contingent or for an as-generated Product, then:
 - 1.6.1. J. Aron has determined with a high degree of certainty that the Applicable Project will be able to generate the Assigned Prepay Value in each Month during the proposed Assignment Period.
 - 1.6.2. The Applicable Project (as defined below) has generated the Assigned Prepay Value in each Month since commencing commercial operation.
2. **Proposed Assignment.** Purchaser may propose an assignment of Assigned Rights and Obligations under Article VI of the Clean Energy Purchase Contract by delivering the following items to Issuer and to J. Aron:
 - 2.1. A written notice of the proposed assignment signed by Purchaser.
 - 2.2. A true and complete copy of the Assignable Power Contract under which such Assigned Rights and Obligations would arise.

- 2.3. Evidence reasonably satisfactory to Issuer and J. Aron that all authorizations, consents, approvals, licenses, rulings, permits, exemptions, variances, orders, judgments, decrees, declarations of or regulations by any Government Agency necessary in connection with the transactions contemplated by the Assignable Power Contract and the assignment of the Assignable Power Contract to J. Aron have been obtained and are in full force and effect. Such evidence may be provided by a closing certificate with appropriate back-up materials.
- 2.4. Such additional information as Issuer and J. Aron may reasonably request regarding the Assignable Power Contract and the APC Party.
- 2.5. If the Assignable Power Contract is unit-contingent or for an as-generated Product, then:
 - 2.5.1. A description and information of the applicable project to which the Assignable Power Contract applies (the "Applicable Project"), including but not limited to information on the location, interconnection(s), and operating and compliance history of Applicable Project.
 - 2.5.2. Either (i) a report from a nationally recognized consultant in the energy industry that is reasonably acceptable to Issuer and J. Aron showing the "P99" forecasted generation ("P99 Generation") and "P50" forecasted generation ("P50 Generation") of the Applicable Project for the entire Assignment Period, as the terms P99 and P50 are commonly used in the renewable energy industry or (ii) monthly historical generation and meteorological data of the Applicable Project dating back to the commercial operation date.

Following Issuer's and J. Aron's receipt of such information, Purchaser and Issuer will and J. Aron has agreed in the Electricity Sale and Service Agreement to (i) negotiate in good faith with one another and exercise Commercially Reasonable Efforts to agree upon an Assignment Schedule, with the initial draft of such Assignment Schedule to be developed by J. Aron, and (ii) negotiate in good faith with one another and the APC Party regarding an Assignment Agreement, in each case related to the proposed assignment. If such Assignment Schedule and Assignment Agreement are agreed to by the representative parties thereto, the applicable parties will execute such Assignment Agreement and Assignment Schedule to be effective upon the assignment of the Assigned Rights and Obligations from Purchaser to J. Aron pursuant to the Assignment Agreement. J. Aron will act in good faith in considering proposed assignments that meet the criteria set forth in this Exhibit F, in accordance with the provisions set forth in the Electricity Sale and Service Agreement. For the avoidance of doubt, Purchaser acknowledges that J. Aron will not be required to execute any Assignment Agreement or Assignment Schedule, or otherwise accept any Assigned Rights and Obligations unless the APC Party (i) satisfies J. Aron's internal requirements as they relate to "know your customer" rules, policies and procedures, anti-money laundering rules and regulations, Dodd-Frank Act, Commodity Exchange Act, Patriot Act and similar rules, regulations, requirements and corresponding policies, (ii) is organized in the United States, and (iii) satisfies all other requirements in Section 1 of this Exhibit F.

3. **Assignment Schedule.** In connection with each assignment, an “Assignment Schedule” will be prepared in the form attached hereto as Annex I (with such changes as agreed by the Parties in their sole discretion), must be executed by Purchaser, Issuer and J. Aron, and must include each of the following:
- 3.1. The term of such Assigned Rights and Obligations (an “Assignment Period”) shall have the meaning specified in each applicable Assignment Agreement and shall (i) end not later than (a) the end of the delivery period under the Assignable Power Contract and (b) the end of the Delivery Period under this Agreement, (ii) not commence any earlier than sixty (60) days after Purchaser’s original notice under Section 2.1 above, and (iii) have a primary term that is not less than 18 Months in duration (provided, for the avoidance of doubt, the primary term references the term of the applicable Assignment Period and not the term of the Assignable Power Contract).
 - 3.2. If the Assignable Power Contract is unit-contingent or for an as-generated product, then a description of the Applicable Project.
 - 3.3. The “Monthly Projected Quantity” means, for each Month of an Assignment Period and each Assignment Agreement, a quantity of Energy agreed upon by J. Aron, Issuer and Purchaser, which Monthly Projected Quantity, if the Assignable Power Contract is unit contingent or for an as-generated Product, shall not exceed an amount that J. Aron has determined with a high degree of certainty that the Applicable Project will be able to generate in each Month during the Assignment Period; provided that the Monthly Projected Quantity for each Month may not exceed the limit expressed in the proviso to Section 3.4 below. For the avoidance of doubt, the Assigned Rights and Obligations will include all of Purchaser’s rights to receive Energy under the Assignable Power Contract even if such rights to receive Energy may exceed the Monthly Projected Quantity.
 - 3.4. The reduction in Base Quantity for each Delivery Hour during an Assignment Period after giving effect to an Assignment Agreement (each, a “Base Quantity Reduction”) shall be calculated in accordance with this Section 3.4. The Base Quantity Reduction for each Delivery Hour of an Assignment Period shall equal (i) the Monthly Projected Quantity for each such Delivery Hour (which will be determined by dividing the Monthly Projected Quantity for the applicable Month by the number of Delivery Hours in such Month), multiplied by (ii) the result of (A) Fixed Price for Monthly Projected Quantity divided by (B) the Fixed Price for Base Quantities; provided that if the Base Quantity Reduction for any Delivery Hour would result in a Base Quantity of less than zero, then the Monthly Projected Quantity for such Delivery Hour will be reduced to the closest whole MWh such that the Base Quantity is not reduced below zero.
 - 3.5. The APC Contract Price under the relevant Assignment Agreement shall be the Day-Ahead Average Price, unless Issuer, Purchaser and J. Aron agree to appropriate changes to the relevant documents to accommodate a different price.
 - 3.6. The Assigned Delivery Point for all Assigned Energy.
 - 3.7. The Assigned Product included in the Assigned Rights and Obligations, which Assigned Product may not include any Product other than (a) Energy, (b) associated RECs, and (c) other product included within the sale of Energy and not separately delivered from Energy, provided that the APC Contract Price must be inclusive of any

amounts due in respect of all Assigned Product, provided furthermore that Assigned Product may not in any case include capacity.

No later than five Business Days following receipt of an invoice from a PPA Seller in respect of any Month in an Assignment Period (a “Monthly PPA Invoice”), SDCP shall deliver a statement (the “Monthly Statement”) showing each of the following (based on the information provided by the relevant PPA Seller in the Monthly PPA Invoice) to each of the Parties hereto and the seller under the Master Power Supply Agreement for the Prepay Contract Chain to which such Assigned PPA is assigned:

- (iii) the SDCP Gross Payment;
- (iv) the PPA Seller Payment Obligation;
- (v) the SDCP Net Payment;
- (vi) the Monthly PPA Payment;

In addition to the foregoing, the Parties acknowledge and agree that any adjustments agreed upon with respect to a Monthly PPA Invoice after the date specified in the foregoing provision shall be resolved solely between SDCP and the relevant PPA Seller as provided in the Assignment Agreements. The Parties agree to exercise commercially reasonable efforts to implement a test billing period for a period of at least two Months prior to the effectiveness of any Assignment Agreement.

(b) Monthly Statement Verification. J. Aron shall notify SDCP and each other Party promptly, but in no event more than three (3) Business Days, following SDCP’s delivery of a Monthly Statement if J. Aron believes any information included on such Monthly Statement is incorrect. Following receipt and verification of the information included in any such notice from J. Aron, SDCP shall, to the extent appropriate and in consultation with J. Aron, issue a corrected Monthly Statement to all Parties. J. Aron and each other Party hereto acknowledges and agrees that (i) SDCP is calculating the Monthly Statement only for convenience of the Parties, (ii) the purpose of this Agreement is solely to determine amounts to be paid by SDCP and J. Aron under separate contracts, and (iii) none of SDCP, J. Aron nor any other Party hereto will have any liability whatsoever with respect to any action taken or omitted by it under this Agreement (but without prejudice to an express payment obligation arising under another contract), including as a result of any failure by SDCP to timely or properly calculate any amount to be included in a Monthly Statement. Without limiting the foregoing, J. Aron acknowledges that it will have an opportunity to review and comment on each calculation and date included in a Monthly Statement (and shall be aware if such Monthly Statement has not been timely delivered) and SDCP will not be responsible in any way for any damages, costs, liabilities, loss of use or any other claims related

(b) J. Aron Payments. J. Aron shall pay the J. Aron Prepay Payment(s) into the Assigned PPA Payments Account, in respect of each Monthly Statement on the relevant Custodial Agreement Payment Date set forth in such statement. To the extent that (i) a SDCP Reimbursement Amount is due with respect to an Assigned PPA and (ii) J. Aron pays some portion of the J. Aron Prepay Payment(s) for such Assigned PPA but less than the total amount of the J. Aron Prepay Payment(s) due, J. Aron's partial payment shall be applied first to the J. Aron Prepay Payment(s). In addition, the Custodian agrees to promptly notify SDCP if it does not receive the

J. Aron Prepay Payment from J. Aron on the Custodial Agreement Payment Date, and in such case SDCP may elect in its sole discretion to make the J. Aron Prepay Payment to the Custodian for the purpose of satisfying the Monthly PPA Payment (in which case SDCP will have a reimbursement claim against Issuer under Section 6.4 of the applicable Clean Energy Purchase Contract).

(c) SDCP Payments. SDCP shall pay the SDCP Net Payment into the Assigned PPA Payments Account in respect of each Monthly Statement on the relevant Custodial Agreement Payment Date set forth in such statement. For each Month, if any, of an Assignment Period for which there is an Issuer Negative Pricing Payment Amount, SDCP shall make payment of such amount into the Assigned PPA Payments Account on the Custodial Agreement Payment Date; provided that, notwithstanding the foregoing, SDCP shall have no payment obligation hereunder with respect to an Issuer Negative Pricing Payment Amount to the extent that J. Aron receives such amount from the PPA Seller pursuant to the terms of the applicable Assignment Agreement.

(d) Application of Payments. The Custodian shall withdraw and apply amounts received under this Section 4 as follows:

(i) any J. Aron Prepay Payment received from J. Aron (including any payment by SDCP on J. Aron's behalf pursuant to the last sentence of Section 4(b)) and any SDCP Net Payment received from SDCP shall be applied to the payment of the Monthly PPA Payment to each PPA Seller in respect of each Monthly Statement on the relevant Monthly PPA Invoice Payment Date pursuant to the payment instructions set forth on Exhibit A; provided that if amounts on deposit in the Assigned PPA Payment Account are insufficient to pay the entire Monthly PPA Payment on such date, the Custodian shall (i) withdraw and pay to such PPA Seller the entire remaining balance of the Assigned PPA Payment Accounts, as determined and directed by SDCP, and (ii) notify such PPA Seller of the amounts received for such Month from each of J. Aron and SDCP consistent with such PPA Seller's contact information provided in Exhibit A; provided furthermore that, if the J. Aron Prepay Payment for any Month exceeds the Monthly PPA Payment, then the excess of the J. Aron Prepay Payment over the Monthly PPA Payment shall be remitted to SDCP on the relevant Monthly PPA Invoice Payment Date pursuant to SDCP's payment instructions set forth on Exhibit C;

(ii) any SDCP Reimbursement Amount received from J. Aron shall be remitted to SDCP on the relevant Monthly PPA Invoice Payment Date pursuant to SDCP's payment instructions set forth on Exhibit C; and

(iii) for any Month in an Assignment Period for which an Issuer Negative Pricing Payment Amount is due from SDCP, the Custodian shall, after application of amounts on deposit in the Assigned PPA Payments Account pursuant to clause (i) or (ii) above, as applicable, withdraw amounts on deposit in the Assigned PPA Payments Account to make payment of the Issuer Negative Pricing Payment Amount to J. Aron.

(e) Amounts Held in Trust. Amounts deposited in the Assigned PPA Payments Account shall be held in trust for the benefit of SDCP until applied as set forth in Section 4(d) and Section 12, as applicable, and there is hereby granted to SDCP a lien on and security interest in the Assigned PPA Payments Account pending such application. The Custodian shall not be

required to comply with any orders, demands, or other instructions from SDCP with respect to the Assigned PPA Payments Account, including, without limitation, items presented for payment, or any order or instruction directing the disposition of funds or other assets held in or credited to the Assigned PPA Payments Account, and SDCP agrees that prior to the termination of this Agreement in accordance with the terms hereof, it shall have no right to direct the disposition of funds or other assets held in or credited to the Assigned PPA Payments Account, or to withdraw or otherwise obtain funds or other assets held in or credited to the Assigned PPA Payments Account, whether by order or instruction to the Custodian or otherwise.

(f) Transfer of Receivables. With respect to each Monthly Statement, to the extent J. Aron has purchased Receivables (as defined in the Electricity Sale and Service Agreement) for amounts owed by SDCP for the Month to which such Monthly Statement relates, J. Aron may, at its option, (i) notify the Custodian that it intends to transfer all or any portion of such Receivables to the applicable PPA Seller, and (ii) reduce the J. Aron Prepay Payment by the face amount of such Receivables to be transferred. To the extent J. Aron has notified the Custodian of its intent to transfer any such Receivables, J. Aron shall cause such Receivables to be transferred to the relevant PPA Seller not later than the relevant Custodial Agreement Payment Date.

Section 5. Custodian; Fees.

(a) Limitation on Liability. The Custodian shall have (i) no liability under any agreement other than this Agreement and (ii) no duty to inquire as to the provisions of any agreement other than this Agreement and the Assigned PPAs. The Custodian may rely upon and shall not be liable for acting or refraining from acting upon any written notice, document, instruction or request furnished to it hereunder in accordance with the terms hereof and believed by it to be genuine and to have been signed or presented by the proper Party or Parties. The Custodian shall be under no duty to inquire into or investigate the validity, accuracy or content of any such document, notice, instruction or request. The Custodian shall have no duty to solicit or compel any payments which may be due to it, or to take any action to compel J. Aron or SDCP to make the deposits required under Section 4. The Custodian shall not be liable for any action taken or omitted by it in good faith, or for the application of funds by or other actions or omissions of other persons, except to the extent that a court of competent jurisdiction determines that the Custodian's gross negligence or willful misconduct was the primary cause of any loss to any other Party hereto. In connection with the execution of any of its powers or the performance of any of its duties hereunder, the Custodian may consult with counsel, accountants and other skilled persons selected and retained by it. The Custodian shall not be liable for anything done, suffered or omitted in good faith by it in accordance with the advice or opinion of any such counsel, accountants or other skilled persons, provided the Custodian exercised due care and good faith in the selection of such person. The permissive rights and powers of the Custodian to take actions enumerated under this Agreement shall not be construed as duties. In the event that the Custodian shall be uncertain as to its duties or rights hereunder or shall receive instructions, claims or demands from any Party hereto which, in its opinion, conflict with any of the provisions of this Agreement, it shall be entitled to refrain from taking any action and its sole obligation shall be to keep safely all property held in escrow until it shall be directed otherwise in writing by all of the other Parties hereto or by a final order or judgment of a court of competent jurisdiction. The Custodian may interplead all of the assets held hereunder into a court of competent jurisdiction or may seek a declaratory judgment with respect to certain circumstances, and thereafter be fully relieved from any and all

liability or obligation with respect to such interpleaded assets or any action or non-action based on such declaratory judgment. Anything in this Agreement to the contrary notwithstanding, in no event shall the Custodian be liable for special, indirect, incidental, punitive, or consequential damages, losses or penalties of any kind whatsoever (including but not limited to lost profits), regardless of the form of action. The Custodian may engage and act through agents and attorneys and shall not be liable for the misconduct or negligence of any such agent or attorney appointed with due care. The Custodian shall be responsible only for funds actually received by it for deposit into the Assigned PPA Payments Account, and the Custodian shall not be obliged to advance or risk its own funds to make any payments required hereunder. The Custodian shall have only those duties expressly set forth in this Agreement and no implied duties shall be read into this Agreement against the Custodian. The Parties hereto acknowledge and agree that the Custodian is not a fiduciary by virtue of accepting and carrying out its obligations under this Agreement and has not accepted any fiduciary duties, responsibilities or liabilities with respect to its services hereunder. The Custodian shall not be responsible for the perfection of any security interest granted hereunder. The Custodian shall not be obliged to invest or pay interest on funds held hereunder.

(b) Custodian Fee. The Issuer agrees to (i) pay the Custodian reasonable compensation for the services to be rendered hereunder, which compensation shall be \$[_____] per bond series for each year that this Agreement is in effect, and (ii) pay or reimburse the Custodian upon request for all expenses, disbursements and advances, including reasonable attorney's fees and expenses, incurred or made by it in connection with the preparation, execution, performance, delivery, modification and termination of this Agreement. The parties hereto acknowledge that this provision shall survive the resignation or removal of the Custodian or the termination of this Agreement.

Section 6. Succession. The Custodian may resign and be discharged from its duties or obligations hereunder by giving not less than 45 days' advance notice in writing of such resignation to the other Parties hereto specifying a date when such resignation shall take effect; and such resignation shall take effect upon the day specified in such notice unless a successor shall not have been appointed by the other Parties hereto on such date, in which event such resignation shall not take effect until a successor is appointed. The other Parties hereto shall use their commercially reasonable efforts to make such appointment in a timely fashion, provided that any custodian appointed in succession to the Custodian shall be a bank or trust company organized under the laws of any state or a national banking association and shall have capital stock, surplus and undivided earnings aggregating at least \$50,000,000 and shall be a bank with trust powers or trust company willing and able to accept the office on reasonable and customary terms and authorized by law to perform all the duties imposed upon it by this Agreement. Any corporation or association into which the Custodian may be merged or converted or with which it may be consolidated, or any corporation or association to which all or substantially all of the Custodian's corporate trust line of business may be transferred, shall be the Custodian under this Agreement without further act. Notwithstanding the foregoing, if no appointment of a successor Custodian shall be made pursuant to the foregoing provisions of this Section 6 within 45 days after the Custodian has given written notice to the other Parties of its resignation as provided in this Section 6, the Custodian may, in its sole discretion, apply to any court of competent jurisdiction to appoint a successor Custodian. Said court may thereupon, after such notice, if any, as such court may deem proper, appoint a successor Custodian.

Section 7. Reimbursement. J. Aron and SDCP agree, jointly and severally (subject to the second proviso of this Section 7), to reimburse the Custodian and its directors, officers, agents and employees for any and all loss, liability or expense (including the fees and expenses of in-house or outside counsel and experts and their staffs and all expense of document location, duplication and shipment) arising out of or in connection with (a) its acting as the Custodian under this Agreement, except to the extent that such loss, liability or expense is finally adjudicated to have been caused primarily by the gross negligence or willful misconduct of the Custodian or such director, officer, agent or employee seeking reimbursement, or (b) its following any instructions or other directions from J. Aron or SDCP, except to the extent that its following any such instruction or direction is expressly forbidden by the terms hereof; provided, however, that any amounts due under this Section 7 shall not duplicate any other amounts due under this Agreement, including without limitation amounts due under Section 13 hereof; provided further, however, that, notwithstanding the joint and several nature of the obligations under this Section 7, any amounts due under clause (b) of this sentence resulting from instructions or directions that are not expressly provided for in this Agreement and are given to the Custodian by only one Party shall be the sole obligation of such Party. The Parties hereto acknowledge that this provision shall survive the resignation or removal of the Custodian or the termination of this Agreement.

Section 8. Taxpayer Identification Numbers; Tax Matters. J. Aron and SDCP represent that that their correct taxpayer identification numbers assigned by the Internal Revenue Service or any other taxing authority is set forth on the signature page hereof. In addition, any tax or other payments required to be made pursuant to such tax return or filing shall be paid by SDCP. The Custodian shall have no responsibility for making such payment unless directed to do so by the appropriate authorized Party and fully indemnified to the Custodian's satisfaction.

Section 9. Notices. Any notice, demand, statement or request required or authorized by this Agreement to be given by one Party to another Party shall be in writing and shall either be sent by email transmission or other Electronic Means (defined below), courier, or personal delivery (including overnight delivery service) to each of the notice recipients and addresses specified in Exhibit C for the receiving Party. Any such notice, demand, or request shall be deemed to be given (i) when delivered by email transmission or other Electronic Means (defined below), or (ii) when actually received if delivered by courier or personal delivery (including overnight delivery service). Each Party shall have the right, upon 10 days' prior written notice to the other Party, to change its list of notice recipients and addresses in Exhibit C. The parties understand and agree that the Custodian cannot determine the identity of the actual sender of such directions and that the Custodian shall conclusively presume that directions that purport to have been sent by an Authorized Officer listed on the incumbency certificate provided by a party to the Custodian have been sent by such Authorized Officer. Each party shall be responsible for ensuring that only Authorized Officers transmit such directions to the Custodian and that all Authorized Officers treat applicable user and authorization codes, passwords and/or authentication keys issued by the Custodian as confidential and with extreme care. The Custodian shall not be liable for any losses, costs or expenses arising directly or indirectly from the Custodian’s reliance upon and compliance with such directions notwithstanding that such directions conflict or are inconsistent with a subsequent written direction. The obligations of this Section 13 shall survive any resignation or removal of the Custodian and the termination of this Agreement. In addition, notwithstanding anything herein to the contrary, the Custodian and Issuer shall have all of the rights (including the indemnification rights), benefits, privileges and immunities under this Agreement as are granted to Issuer and the Trustee under the Trust Indenture, all of which are incorporated, mutatis mutandis, into this Agreement.

MEMORANDUM OF UNDERSTANDING (“MOU”)

Date: January 29, 2026

To: Garth Salisbury

California Community Choice Financing Authority

From: San Diego Community Power

Re: California Community Choice Financing Authority Energy Prepayment Financing on behalf of San Diego Community Power

Overview

The California Community Choice Financing Authority (“CCCFA” or the “Issuer”) seeks to procure a 30-year supply of energy, through the issuance of Clean Energy Project Revenue Bonds (the “Bonds”) to be issued by CCCFA. CCCFA will sell all the Prepaid Energy acquired from this transaction to San Diego Community Power (“SDCP”), the “Project Participant.”

Rating Agency Fee and Green Bond Second Party Opinion Fee

The rating agency fee and expenses (“Rating Agency Fee”) is paid from the proceeds of the Bonds. However, unlike most of the other fees associated with the issuance of the Bonds, payment of the Rating Agency Fee is not contingent upon the issuance of the Bonds.

In the event the Bonds are not issued, and there remains a Rating Agency Fee payable to Moody’s Investors Service (the “Rating Agency”), the Project Participant agrees that it will be liable for the cost such Rating Agency Fee and make direct payment to the Rating Agency for such fee.

In the event a Green Bond Second Party Opinion (“SPO”) is obtained, and the Bonds are not issued, the fee payable to the SPO provider (the “SPO Fee”) shall be incurred by the Project Participant and in such event, to the extent the SPO Fee was already paid by CCCFA, the Project Participant agrees to reimburse CCCFA.

Sincerely,

SAN DIEGO COMMUNITY POWER

Introduction

San Diego Community Power (“SDCP”) is a joint powers authority organized and existing under the Joint Exercise of Powers Act (constituting Chapter 5 of Division 7 of Title 1 (commencing with Section 6500), as amended or supplemented from time to time) (the “*Joint Powers Act*”), as a “community choice aggregator” (“CCA”) as defined in Section 331.1 of the Public Utilities Code of the State of California, as amended (the “*Public Utilities Code*”). For a general description of “community choice aggregators” in California, see the section “COMMUNITY CHOICE AGGREGATORS” in this Official Statement.

Formation, History, and Purpose of SDCP

General. SDCP was created on October 1, 2019, under the name “San Diego Regional Community Choice Energy Authority” as a CCA in California under a Joint Powers Agreement, as amended, by and among the cities participating in SDCP and named therein (the “JPA”).

SDCP was established to provide electricity services at competitive rates to residents and businesses within the municipal boundaries of its member public agencies. Pursuant to its JPA, SDCP focuses on delivering a cleaner energy portfolio and achieving energy consumption reduction goals and the following key priorities:

- **Promotion of Renewable and Distributed Energy Resources:** SDCP prioritizes the use and development of local, cost-effective, renewable, and distributed energy sources, supporting local power generation and storage initiatives. Currently, SDCP procures clean energy from solar, wind, geothermal, large-hydro, and biomass sources.
- **Exclusion of Coal and Avoidance of Nuclear Contracts:** SDCP seeks to exclude coal and avoid entering into nuclear contracts as part of its overall procurement strategy.
- **Economic and Workforce Development:** SDCP aims to benefit the region economically by supporting workforce programs and development initiatives, such as working closely and collaboratively with local and regional developers and unions. This helps promote long-term electric rate stability and energy reliability for residents and businesses, by, for example, prioritizing local long-term power purchase agreements that lock in renewable energy supply, allowing SDCP to build its power supply portfolio while also providing power supply cost certainty.
- **Community Ownership and Energy Reliability:** SDCP promotes personal and community ownership of renewable generation and energy storage resources, in order to foster a sustainable and energy-independent future.

The parties to SDCP’s JPA consist of local governments whose governing bodies elect to join SDCP. Under the Public Utilities Code, when new parties join SDCP, all electricity customers

in their jurisdiction, except those served under California’s Direct Access Program, automatically become SDCP’s customers for electric generation, provided customers are allowed to “opt-out.”

Commencement of Service and Expansion. SDCP began operations in March 2021 by serving approximately 600 municipal accounts. SDCP enrolled approximately 72,000 municipal and business customers in June 2021, and an additional approximately 700,000 residential customer accounts throughout 2022 across the city limits of San Diego, Chula Vista, La Mesa, Encinitas, and Imperial Beach. SDCP enrolled approximately 180,000 residential and non-residential customer accounts in National City and Unincorporated areas of San Diego County in 2023. As of January 1, 2026, SDCP was serving 965,833 active accounts with approximately 7,600,000 MWh of annual retail sales.

Service Area

SDCP currently serves seven jurisdictions in the County of San Diego. These jurisdictions include six cities (San Diego, Chula Vista, Encinitas, La Mesa, Imperial Beach, and National City) and the unincorporated communities of the County of San Diego. SDCP is responsible for acquiring electric power for its service area.

Service Area Map. The service area of SDCP is shown in blue on the map below:

Governance and Management

Board of Directors. SDCP is governed by a seven-member board of directors (the “*Board of Directors*”), with a board member from each of the seven jurisdictions in the County of San Diego. SDCP’s Board of Directors has the rights and powers to set rates for the services SDCP furnishes, incur indebtedness, and issue bonds or other obligations. SDCP’s local government structure ensures public transparency. The Board of Directors meets monthly to discuss matters related to the operation of SDCP. All meetings are open to the public, and public comments are encouraged.

Management.

Customers

General. SDCP currently provides energy to approximately 965,000 municipal, residential, commercial, and industrial accounts in its service area. SDCP's current customer load mix is approximately 42% residential, 37% medium and large commercial/industrial, 18% small commercial, and 3% agricultural and lighting-based.

Customer Energy Choices. As part of its ongoing efforts to provide clean energy at the greatest value for its customers, SDCP offers four service plans: PowerBase, PowerOn, Power100, and Power100 Green+. PowerBase is SDCP's most affordable service plan and is currently 45% renewable and priced with an approximately 10% discount under San Diego Gas & Electric ("SDG&E") rates. PowerOn is 53% renewable and currently priced approximately 4% below SDG&E rates. Power100 and Power100 Green+ are 100% renewable, carbon-free, and the latter is Green-e® certified. PowerOn is SDCP's default electricity service offering. Most customers within SDCP's service territory are automatically enrolled in PowerOn, with the exception of the

City of Encinitas, whereby per City Council decision, customers within its city limits are automatically enrolled in SDCP's Power100 service, which costs \$0.01/kWh more than PowerOn.

Customers can choose to opt-up to the Power100 and Power100 Green+ options and purchase 100% renewable and carbon-free electricity at a slight premium. These options enable SDCP's customers to take a more significant step towards reducing their carbon footprint. Power100 Green+ provides 100% renewable, carbon-free, and Green-e® certified energy for businesses seeking LEED certification or requiring Green-e® certification to meet their corporate social responsibility goals. Power100 Green+ costs \$0.02 per kWh more than the standard PowerOn service level. Power100 Green+ allows customers to meet their organization's reliability standards. Residents and businesses that do not require specific certification can still obtain 100% renewable and carbon-free power through Power100.

Based on the average SDCP residential customer usage of 383 kWh per month in 2025, PowerOn will on average cost \$1 per month more than PowerBase. Compared to SDG&E's rates, PowerOn is expected to cost approximately \$1.50 per month less for a typical residential customer. Compared to SDG&E's rates, Power100 is expected to cost about \$2 per month extra for a typical residential customer.

New Customers. FY 2023-24 was SDCP's first full year of operations serving the seven currently enrolled jurisdictions. There are no near-term plans for expansion.

Customer Election to Opt-out of Service. Customers have the right to opt out of SDCP service at any time and will not be charged any fees by SDCP if they opt out or cancel electric service. Customers who opt out before starting SDCP service or within the first 60 days of SDCP service may return to SDCP service at any time. Customers who opt out after the first 60 days of service with SDCP will be prohibited by SDG&E from returning to SDCP for one year and will be charged a one-time customer re-entry fee by SDG&E and will also be required to choose one of two options: an immediate return to SDG&E service, or a 6-month return to SDG&E service.

Cumulative Opt-Out Rate and Customer Retention. As of January 1, 2026, SDCP is serving a cumulative total count of 965,833 active accounts for a total participation rate of 95.5%. Customers with newly established accounts or who have moved into a new service address within any of SDCP's member jurisdictions receive two post-enrollment notices through the mail at their mailing address on file within 60 days of their account start date to notify them that they have defaulted to SDCP electric generation service.

The following graphic illustrates SDCP's opt-out rate and customer retention data through January 1, 2026, reflected as a percentage of participation rates by jurisdiction.

Service Rates

General. SDCP electric generation rates are managed to provide cleaner electricity than investor-owned and public utilities at competitive rates. SDCP’s Board of Directors determines rates and SDCP’s rates are not regulated by the California Public Utilities Commission (the “CPUC”). Any rate changes will be adopted at duly noticed public meetings of the SDCP Board of Directors. Under the terms of the Clean Energy Purchase Contract with CCCFA, SDCP covenants that it will establish, maintain, and set rates and charges to provide revenues sufficient to enable it to pay all amounts payable from the revenues of its operations and to keep any reserves as required by SDCP’s reserve policies. SDCP further covenants pursuant to the terms of the Clean Energy Purchase Contract that it will not grant any lien or security interest in, or otherwise pledge or encumber revenues if the effect of such lien, pledge or other encumbrance would result in such lien, pledge or encumbrance having priority over the obligations of SDCP under the Clean Energy Purchase Contracts.

Determination of Rates for Energy. A customer’s cost of electric service is determined by SDCP’s charges for energy and SDG&E charges for transmission, distribution, and other non-bypassable charges. Changes to SDG&E or SDCP rates will impact cost comparisons between SDCP and SDG&E. SDG&E charges SDCP customers a monthly Power Charge Indifference Adjustment, which can vary annually based upon several market factors, including benchmarks for regional energy costs, resource adequacy, the year in which the community joined SDCP and other considerations, as well as a Franchise Fee Surcharge. SDCP has already accounted for these additional charges when calculating its commodity rates. Financial assistance programs like CARE (California Alternative Rates for Energy), FERA (Federal Electric Rate Assistance), and Medical Baseline Allowance remain the same for SDCP and SDG&E customers.

Current and Historical Rate Information. SDCP rates are designed to cover the costs of energy, resource adequacy, and operating, fund customer programs, and meet SDCP’s reserve and liquidity goals, as described in its Reserve Policy.

Effective January 1, 2026, SDCP implemented rate changes resulting in the following comparisons for most SDCP customers, though exact comparisons may vary by rate schedule and customer usage:

- SDCP PowerOn is set at a ~4% discount to SDG&E’s rates on a total bill basis.
- SDCP PowerBase is set at a ~10% discount to SDG&E’s rates on a total bill basis.

SDCP’s Power100 and Power100 Green-e Certified services will maintain premiums to PowerOn of \$0.01/kWh and \$0.02/kWh, respectively.

California Renewable Portfolio Standards and Other Regulations

General. Community choice aggregators such as SDCP are “load-serving entities” (“LSEs”) and, as such, are required to comply with California’s Renewable Portfolio Standard, Resource Adequacy requirements, and Power Source Disclosure requirements described below.

Renewable Portfolio Standard. California’s Renewable Portfolio Standard (“RPS”) requires LSEs to supply their retail sales with certain minimum quantities of eligible renewable energy. Senate Bill 100 directs all LSEs to procure 60% of their portfolios from RPS-eligible resources by 2030 and 100% of their retail sales from zero-carbon resources (or eligible renewable resources) by 2045. Based on the most recent Power Content Label filed with the California Energy Commission, in 2024, SDCP met 60.88% of its total retail sales with eligible RPS resources, which was above the 2024 RPS percentage target of 44%. SDCP has exceeded the annual RPS regulatory minimum requirements each year since its inception.

Resource Adequacy. Resource Adequacy (“RA”), a California program jointly administered by the CPUC, the California Energy Commission (“CEC”) and the California Independent System Operator (“CAISO”), directs LSEs to secure forward capacity and offer it into the CAISO’s Day-Ahead and Real-Time markets to ensure that there will be enough supply at suitable locations and with sufficient ramping capability to meet load. The RA program is comprised of three products: System RA, Local RA, and Flexible RA. Local RA obligations have been assigned to a Central Procurement Entity as of 2023.

Integrated Resource Planning. Integrated Resource Planning (“*IRP*”) requires LSEs to forecast their customer load and develop a plan to serve such load in alignment with their own vision and values and in accordance with regulatory requirements. In October 2015, California codified this LSE responsibility with the passage of SB 350, which requires the CPUC to establish and oversee an IRP process to assist with meeting the state’s aggressive greenhouse gas (“*GHG*”) targets (40% below 1990 levels by 2030). The IRP process, which is used in many states across the US, generally produces 10- to 20-year plans that map out both the supply-side and demand-side resources required for meeting customer load. Given the complexity of the grid and the time required to plan and build generating facilities, IRPs are critical for ensuring safe, reliable and clean power in a cost-effective manner. In addition to addressing the long-term planning horizon typical of an IRP process, the IRP process has been used in recent years to direct procurement of new capacity to meet near- and mid-term reliability and clean energy needs per CPUC Decision (“*D.*”) 19-11-016, D. 21-06-035 and D. 23-02-040. Pursuant to the procurement orders in these CPUC Decisions, LSEs are required to procure “Incremental System Capacity,” which is RA capacity from non-emitting, storage, and/or renewable resources that are in addition to the resources identified on a baseline list of existing, on-line and operating resources. SDCP has a strong track record of meeting its RA obligations, falling short only during periods of extreme resource scarcity. SDCP expects to meet its future RA obligations through its Energy Risk Management Policy to the extent that supply is available in the bilateral markets.

Power Source Disclosure. California law requires LSEs to disclose the types of power resources used to supply retail sales. This mandate, known as the Power Source Disclosure Program (“*PSDP*”), is a consumer information program managed by the CEC. A key output of the PSDP is the Power Content Label (“*PCL*”). The PCL is an LSE-specific document that shows the breakdown of power resource types for each of the LSE’s energy products used to serve retail load and a breakdown of resource types for the overall California grid. The PCL is distributed to customers each year.

SDCP’s most recent IRP and PCL are available on its website: www.sdcommunitypower.org.

Energy Demand

Long-Term Load Forecast. SDCP’s long-term load forecast is a projection of the electricity that SDCP’s customers will consume. SDCP’s long-term load forecast considers the number and types of customers that SDCP expects to serve, historical electricity use patterns, temperature, and other weather conditions, as well as trends in energy efficiency, behind-the-meter, rooftop solar and electric vehicle adoption, appliance electrification, and other factors.

The table below shows SDCP’s long-term load forecast for 2025-2034 based on SDCP’s 2024 RPS Compliance Report filed with the CPUC in August 2025.

Table 1: SDCP's 2025-2034 Load Forecast (MWh)

Sources of Energy

General. In its procurement of energy supplies, SDCP prioritizes using and developing local renewable resources, stimulating local job creation through various programs and development, promoting personal and community ownership of distributed renewable resources, and promoting long-term electric rate stability and energy reliability for residents and businesses.

Energy Purchases. During the ordinary course of business, SDCP purchases electrical power from numerous suppliers. Electricity costs include the cost of energy and capacity arising from bilateral contracts with energy suppliers, generation credits, load, and other charges stemming from SDCP's participation in the CAISO's centralized market.

As SDCP strives to meet its environmental, financial, and regulatory compliance goals and requirements, long-term power purchase agreements (“PPAs”) are becoming integral components of its energy supply portfolio. Long-term PPAs provide renewable generation facility developers with a specific revenue stream against which they can finance upfront capital requirements, such that each long-term PPA that SDCP signs with a developing facility will underpin a new, incremental renewable energy project. In addition, long-term PPAs lock in renewable energy supply around which SDCP can build its power supply portfolio while providing cost certainty so that SDCP can develop its pro forma financial model. Moreover, the California RPS, modified in 2015 by Senate Bill 350, requires that SDCP provide 65% of its RPS-required renewable energy from contracts of at least 10 years. Finally, in D.21-06-025, the CPUC required each LSE in California to make significant long-term purchase commitments for resource adequacy from new, incremental generation facilities that will achieve commercial operation during 2023 through 2026 for purposes of “Mid Term Reliability”. These requirements have been augmented and extended into 2026 and 2027 via CPUC's D.23-02-040.

Over the past three years, SDCP staff released four requests for offers (“RFOs”) for eligible renewable energy resources, including an RFO for stand-alone storage projects in pursuit of long-term contracts for renewable energy. SDCP has also engaged bilaterally for additional contracting opportunities to meet SDCP's procurement goals, particularly for resources that provide 24/7

renewable energy. The SDCP Board, through November 2025, has approved contracts for over 1,669 MW of renewable generation and over 1,913 MW of storage capacity. SDCP staff continues to negotiate with several other developers for additional renewable energy resources expected to be online between 2027 and 2032. Under CAISO's revisions to their cluster study process for interconnecting future projects, SDCP staff issued an RFP in August 2024 for CAISO Cluster 15 projects, which will serve select renewable energy and storage projects that SDCP is most interested in getting studied by the CAISO. SDCP staff and the Energy Contracts Working Group (the “ECWG”) evaluate all RFO submissions before entering into negotiations with selected participants. Assuming that SDCP staff and shortlisted developer(s) can agree to mutually agreeable contracts consistent with terms authorized by the ECWG, SDCP staff then review the draft terms with the SDCP Board for approval and authorization for the CEO to execute the relevant documents.

SDCP also has an open request for information (“RFI”) regarding local projects. The RFI has yielded 11 board-approved contracts for local generation and storage facilities in the last 12 months. SDCP also released an RFO for distributed renewable energy resources (“DERs”), which focuses on a broad range of distribution-level renewable projects within San Diego County. The RFO has yielded two board approved contracts for ~25 MW of storage and renewable energy resources.

Energy Load and Supply Risk Management. Through SDCP’s Energy Risk Management Policy, SDCP measures and updates its risks using various tools that model programmatic financial projections, market exposure, risk metrics, and short-term budget updates. The following items are measured, monitored, and reported:

- Mark-to-Market Valuation – marking to market determines the current value of contracted energy supply.
- Exposure Reporting – calculates the notional dollar risk exposure and value at risk of open portfolio positions at current market prices.
- Open Position Monitoring – calculates/monitors open positions for all energy and capacity products monthly. If energy open positions for the month following the then current month (prompt month) exceed 10% of the load, SDCP will solicit market energy to close open positions and make a commercial decision to close the position.
- Counterparty Credit Exposure – calculates the notional and mark-to-market exposure to each SDCP counterparty by deal and in the aggregate. Counterparty exposure reporting includes contingent collateral posting risks arising from changes in market prices and other factors.
- Reserve Requirement Targets – no less than once per year, SDCP staff monitors SDCP’s financial reserves to ensure that they meet the targeted thresholds.

SDCP manages market price risk using its planning models, which define forecasted load, energy under contract, and SDCP’s open positions across various energy product types, including renewable energy (Portfolio Content Category I, II, and III), carbon-free energy, and system power relative to SDCP’s procurement targets.

Generally, SDCP manages its exposure to energy suppliers by exhibiting a preference for counterparties with investment-grade credit ratings as determined by Moody's or S&P Global Ratings and using security requirements in the form of cash or letters of credit. SDCP measures its mark-to-market counterparty credit exposure in a way consistent with industry best practices.

SDCP manages energy delivery risks by ensuring that contracts include appropriate contractual penalties for non-delivery and acquiring energy from a geographically and technologically diverse portfolio of generating assets (with a range of generation profiles generally complementary to how SDCP's customers use electric power). Due to known production variability and supply uncertainty related to renewable and other carbon-free energy products, SDCP includes planning margins in procuring such products to ensure that related targets/mandates are achieved.

SDCP manages load forecasting and related weather risks by contracting with qualified data management and scheduling coordinators. These coordinators independently or jointly provide the systems and data necessary to forecast and schedule load using good utility practice. Load variability is also considered when establishing appropriate planning margins for renewable and carbon-free energy sources.

SDCP manages its regulatory and legislative risk through active participation in working groups and advocacy coalitions, such as the California Community Choice Association. SDCP also regularly participates in regulatory rulemaking proceedings and legislative affairs to protect its interests.

Procurement. All contracting for energy and energy-related products for SDCP, including but not limited to electricity, capacity, energy efficiency, distributed energy resources, demand response, and storage, are overseen by SDCP's Power Services department. All contracts are further reviewed and approved by SDCP's CEO and General Counsel. SDCP procures energy and RA in a way that is consistent with its Energy Risk Management Policy. Procurement is conducted through market-based transactions for products, including Fixed Price Energy, Portfolio Content Category 1 Renewable Energy, Portfolio Content Category 2 Renewable Energy, Carbon-Free Energy, and RA Capacity, as well as through longer-term PPAs entered into pursuant to statutory requirements or voluntary long-term resource acquisition decisions made independently by SDCP under its Integrated Resource Plan or other Board or Director-approved strategies.

Short-term procurement is conducted through participation in the CAISO and bilateral markets. SDCP may use various methods to procure long-term contracts, including competitive solicitations, bilaterally negotiated agreements, or regulatory proceedings, with oversight, including shortlist approvals or procurement recommendations, provided by the ECWG of the Board. Specific long-term procurement (e.g., contract terms longer than three years) is subject to Board approval.

Long-term Contracts. To date, SDCP has contracted for ~1,670 MW of nameplate capacity for renewable energy generation and 2,010 MW of nameplate capacity for energy storage projects, identified in the table below, with future expected commercial operation dates between 2026 and 2029.

Information Technology, Data Analytics, and Cyber Security

SDCP’s Information Technology (“IT”) and Data Analytics department comprises professionals responsible for enterprise data, IT management, cloud infrastructure, and cybersecurity. The team is building a secure Enterprise Data Platform (“EDP”) to enable in-house data management, data engineering, data science, and analytics capabilities across the organization.

The IT and Data Analytics team develops core operational capabilities, and works on integrations including an Energy Trading & Risk Management (“ETRM”) application and a Distributed Energy Resource Management (“DERM”) platform, to drive efficiency, simplify processes, and deliver cost savings for SDCP’s customers.

The department also leads the development of IT policies and standards, including Responsible AI and cybersecurity, identifies risk areas, and supports staff compliance. All SDCP personnel are required to report suspected noncompliance to management. Access to SDCP information technology is limited to authorized employees and approved vendors, and only for legitimate agency purposes.

SDCP is implementing a holistic cybersecurity program aligned with the NIST Cybersecurity Framework (“CSF”) 2.0 and informed by ISO/IEC 27001 standards. These controls are designed to minimize threats and reduce exposure to SDCP assets and information. SDCP also maintains cybersecurity insurance coverage.

Financial Information

Revenues from Energy Sales and Operating Expenses. SDCP’s operating revenues are from selling electricity to commercial and residential customers throughout its territory. SDCP reports its revenue net of uncollectible accounts. In alignment with SDCP’s reserve policy and strategic goals, SDCP sets rates sufficient to grow revenue and net income to reach its 225-day cash-on-hand target.

Other Sources of Revenue. In 2023, SDCP began receiving grant revenue from the California Public Utilities Commission Disadvantaged Communities-Green Tariff and Community Solar Green Tariff programs, which enable residential customers in disadvantaged communities who may be unable to install solar on their roof to benefit from a local solar project and receive a 20% bill discount. This funding originates from California Greenhouse Gas Auction Proceeds and Public Purpose Program funds.

In 2024, SDCP was also awarded \$710,000 in grant funding from the California Department of Food and Agriculture to support its provision of technical assistance and refrigeration units to stock healthy food at stores in low income or low food-access areas throughout its service territory.

In January 2025, SDCP accepted, appropriated and developed plans to expend \$124.27 million of funds from the CPUC to administer and implement energy efficiency programs focused on underserved and hard-to-reach residents, businesses, and public agencies in the region. Funds will be expended through the FY2025-29 capital investment plan.

SDCP additionally derives revenue from investment income. As SDCP's operating reserves have grown, its investment income has also grown in lockstep as SDCP invests its reserves in interest-bearing accounts consistent with SDCP's Investment Policy as revised and approved by the SDCP Board on August 28, 2025.

Financial Statements. For financial information related to SDCP, see the annual audited financial statements of SDCP for the fiscal years that ended June 30, 2025 and June 30, 2024, which have been posted on the Electronic Municipal Market Access system maintained by the Municipal Securities Rulemaking Board in connection with the California Community Choice Financing Authority Clean Energy Project Revenue Bonds, Series 2024F and Series 2025D.

Financial Reserves. SDCP maintains financial reserves, pursuant to the Financial Reserve Policy adopted by the Board of Directors, to be able to (a) meet SDCP's strategic objectives; (b) secure, maintain, and improve a standalone investment grade credit rating; (c) secure favorable terms with vendors, including power producers; (d) satisfy working capital requirements; (e) adhere to contractual covenants; (f) provide funds to cover unanticipated expenditures; and (g) support rate stability.

SDCP's most recent update to its Financial Reserves Policy, adopted by the Board on December 11, 2025, sets a minimum reserve level of 180 days cash on hand, establishes a target of 225 days, and retains a maximum of 270 days, with reserves defined as unrestricted cash, cash equivalents, and investments rather than accounting net position. It also allows the Board to designate amounts between the target and maximum as a rate-stabilization reserve, giving flexibility to manage rate impacts.

Operating Reserve. SDCP maintains a reserve goal to secure 225 days of cash-on-hand held as unrestricted cash. Unrestricted cash equals total cash less cash held in accounts that are restricted from use (e.g., as collateral or by covenant). The contribution to operating reserves is determined through SDCP's annual budget process as defined in the agency's Budget Policy and SDCP's rate-setting process as defined in the agency's Rate Development Policy. To the extent that SDCP can meet operational expenses and maintain competitive rates, it will establish rates and adopt budgets to build and maintain its operating reserves at or above the 225-day cash-on-hand target level. As of November 1, 2025, SDCP's unrestricted cash and investments totaled \$533.6 million, equivalent to 190 days' cash-on-hand.

SDCP maintains a \$250 million revolving credit agreement through JPMorgan Chase Bank, N.A. with an expiration of February 28, 2028. As of January 1, 2026, available capacity on the agreement was \$227 million.

Risk Management. SDCP maintains a comprehensive risk management framework to identify and mitigate credit, liquidity, market, operational, regulatory, and other risks associated with participation in the California energy market. The framework employs credit risk strategies, including a preference for transacting with investment-grade counterparties, establishing credit limits, and securing collateral when necessary. SDCP utilizes hedging strategies, netting arrangements, and liquidity monitoring to address market risks. Internal controls and compliance mechanisms are in place to manage operational and regulatory risks, ensuring adherence to legal and market regulations. Risk monitoring and oversight are continuously performed through frequent reporting, with critical risks communicated promptly to stakeholders. This integrated approach enables SDCP to maintain a balanced risk profile while adapting to evolving market conditions.
